

Goffin beats Thiem to set up ATP Finals semi with Federer

SAM JOHNSTON
The Associated Press

LONDON
David Goffin is into the last four of the ATP Finals, to go any further he'll have to do something he's never done before: beat Roger Federer.

The No.7-seeded Goffin beat Dominic Thiem 6-4, 6-1 at the O2 Arena on Friday to set up a semifinal meeting with Federer.

From 0-3, 0-15 down in the opening set, Goffin won 15 consecutive points to take control of the match, and never looked back.

"I've never found a key to beat Roger," said Goffin, who has lost all of his six meetings with the 19-time Grand-Slam champion. "Honestly, I don't know what to do tomorrow. But I'm going to try something, something different,

something that I've never done in the past."

The victory took Goffin to 2-1 in the round-robin stage of the elite season-ending tournament after a win over Rafael Nadal and defeat to Grigor Dimitrov, who will meet Jack Sock in Saturday's other semifinal.

Dimitrov defeated Pablo Carreno Busta 6-1, 6-1 in the late match to become the first player to win all three round-robin matches on debut since Andy Murray in 2008.

Unlike during his 74-minute thrashing by Dimitrov on Wednesday, Goffin was able to recover from a slow start.

Thiem produced some blistering groundstrokes to break in the second game of the match and held for a 3-0 lead, but from there his game disintegrated.

Cook shoots 62 to take lead at RSM

The Associated Press

ST. SIMONS ISLAND, Ga.
PGA Tour rookie Austin Cook made a 6-foot birdie putt on his final hole for an 8-under 62 and a one-shot lead going into the weekend at the RSM Classic.

Cook has gone 36 holes without a bogey on the Plantation and Seaside courses at Sea Island Golf Club. He played Seaside — the site of the final two rounds in the last PGA Tour event of the calendar year — on Friday and ran off four

straight birdies on his opening nine holes.

"We've just been able to hit the ball really well," Cook said. "Speed on greens has been really good and getting up-and-down has been great. I've been able to hit it pretty close to the hole to make some pretty stress-free putts. But the couple putts that I have had of some length for par, I've been able to roll them in. Everything's going well."

The 26-year-old former Arkansas player was at 14-

under 128 and had a one-stroke lead over Brian Gay, who shot 64 on Seaside. No one else was closer than five shots going into the final two rounds.

The 45-year-old Gay won the last of his four PGA Tour titles in 2013.

"I've hit a lot of greens and fairways," Gay said. "I've hit the ball, kept it in front of me. There's a lot of trouble out here, especially with the wind blowing, so I haven't had to make too many saves the first couple days and I putt well."

Sung Hyun Park opens to three-shot lead at Tour Championship

DOUG FERGUSON
The Associated Press

NAPLES, Fla.

Golf felt so easy to Sung Hyun Park that only when she took out her card to catch up on her scores did she realize she had closed out the front nine with five straight birdies at the CME Group Tour Championship.

Park kept right on attacking.

The 24-year-old from South Korea added a 30-

foot eagle putt late in her second round and finished with a 7-under 65, giving her a three-shot lead going into the weekend at Tiburon Golf Club.

Nothing seems to bother her, even the chance to cap off an amazing rookie season by sweeping all the big awards on the LPGA Tour.

"To be honest, I don't feel quite as nervous as I thought I would," Park said through an interpreter. "After the first shot, after the first hole, I felt a lot more comfortable. I'm not feeling as nervous as I thought I might be going into today."

PUBLIC NOTICES

PROTECT WATER LINES FROM FREEZING

The following actions should be considered to protect your water lines:

- Repair broken windows and ensure windows/vents are closed during the winter.
- Insulate water pipes in unheated areas, including crawl spaces.
- For sinks located against a non-insulated outside wall:
 - Open the vanity door to allow warm air to reach the water pipes.
 - A light bulb placed near the water pipe may generate enough heat to keep the water flowing
 - Heat tape wrapped around the pipe may keep the pipe from freezing.
- Residents of mobile homes should check the condition of the heat tape on their water service and water meter.
- Protect unheated indoor water meter with an insulated box and water pipes should be wrapped in insulation using heat tape.
- Outside water taps and underground sprinkler systems should have the water supply shut off inside the house at the isolation valve for the tap.
- Sprinkler lines and taps should be drained/blown out.
- A thin stream of water (as thick as a pencil lead) running continuously from at least one tap will help prevent a frozen water service.
- If you plan to be away from home over the winter period, close the main water isolation valve located next to the water meter in your home. You should leave the heat on in your home and have someone check inside your home daily while you're away.

A frozen water service, or a burst water pipe, is an inconvenience and expense that most people would like to avoid. Please take all possible precautions to prevent this happening in your home or business.

For more information, refer to www.medicinehat.ca/eu or contact Environmental Utilities at 403.529.8176.

DEFECTIVE STREETLIGHTS Resident Alert

If you reside in the City of Medicine Hat, Redcliff or Dunmore and you notice a streetlight that is not operating properly, please notify Electric Utility at:

www.medicinehat.ca/reportaproblem

Or, call **403.529.8262**. If after hours, please leave a message.

Please have the following information when submitting your report:

- streetlight number
- street address or nearest house number, office or store
- nature of problem (i.e. cycling between on and off, always off etc.)
- number of lights out (single light, multiple lights, sequence of lights)

WATER MAIN FLUSHING & FIRE HYDRANT INSPECTIONS

Environmental Utilities performs regular, routine maintenance to uphold the water quality and system infrastructure by annually flushing water mains and inspecting fire hydrants.

During these operations, there may be some discoloration in the water which is not harmful to consume and will disappear when flushing is complete. Please note that discoloured water should not be used for laundry and that fluctuating water pressure may also be noticed.

Should discoloration persist beyond three hours, turn on your cold water tap or an outside sprinkler and let the water run for several minutes until the water runs clear.

For additional information or to confirm whether crews are working in your zone, refer to the Water Flushing Programs page on the City's website at www.medicinehat.ca/eu or contact Environmental Utilities at 403.529.8176.
