PROPOSED DIRECT CONTROL DEVELOPMENT APPLICATION 695 SOUTH RAILWAY STREET SE

TAKE NOTICE that the Medicine Hat City Council will be considering a Direct Control Development Application for an LED Fascia Sign.

A Non-Statutory Public Hearing will be held on Tuesday, August 6, 2013 at approximately 6:30 PM in the City Hall Council Chambers (580 First Street SE).

At the Non-Statutory Public Hearing, any person may make representation to City Council and discuss, support, object to or ask questions about the proposed development. Oral submissions are normally restricted to a maximum of five (5) minutes.

In addition, any person wishing to submit a written submission (that will be handled as a public document) may do so but must submit it to the undersigned or her designee by 12:00 Noon, Wednesday, July 31, 2013.

If you wish to inspect any other documentation on file with regard to the proposed development, you may do so by visiting the City Clerk Department between the hours of 8:30 AM and 4:30 PM Monday through Friday (City Hall, Second Floor, 580 First Street SE T1A 8E6).

Angela Cruickshank
 City Clerk

The Solid Waste Utility currently has bags of finished yard waste compost (SureGrow) for sale, while quantities last.

SureGrow is a class A compost that greatly enhances overall soil structure and improves movement of air and water within the soil - essential to healthy plant growth. Plants grown in soil amended with compost tend to be healthier, require less watering and are more disease and pest resistant.

Bagged compost can be purchased for \$5.00 per 20 kg bag at the Landfill Scale House, during summer hours, which are:

8 am to 6 pm, Monday through Friday
8 am to 5 pm, Saturday and Sunday

FIRE HYDRANT & WATER MAIN FLUSHING

The Environmental Utilities Department will test and flush fire hydrants plus water mains until October 2013. This is an annual maintenance activity that maintains water quality and system infrastructure. Residents may notice some discoloring of water, which is not harmful and will disappear when flushing is complete. Fluctuating pressure may also be noticed. Should discoloration persist beyond three hours, you may wish to flush the water from your home for a few minutes by watering your lawn or running your tap. Please note that the flushing in your home will not correct private plumbing/corrosion problems. Thank you for your understanding.

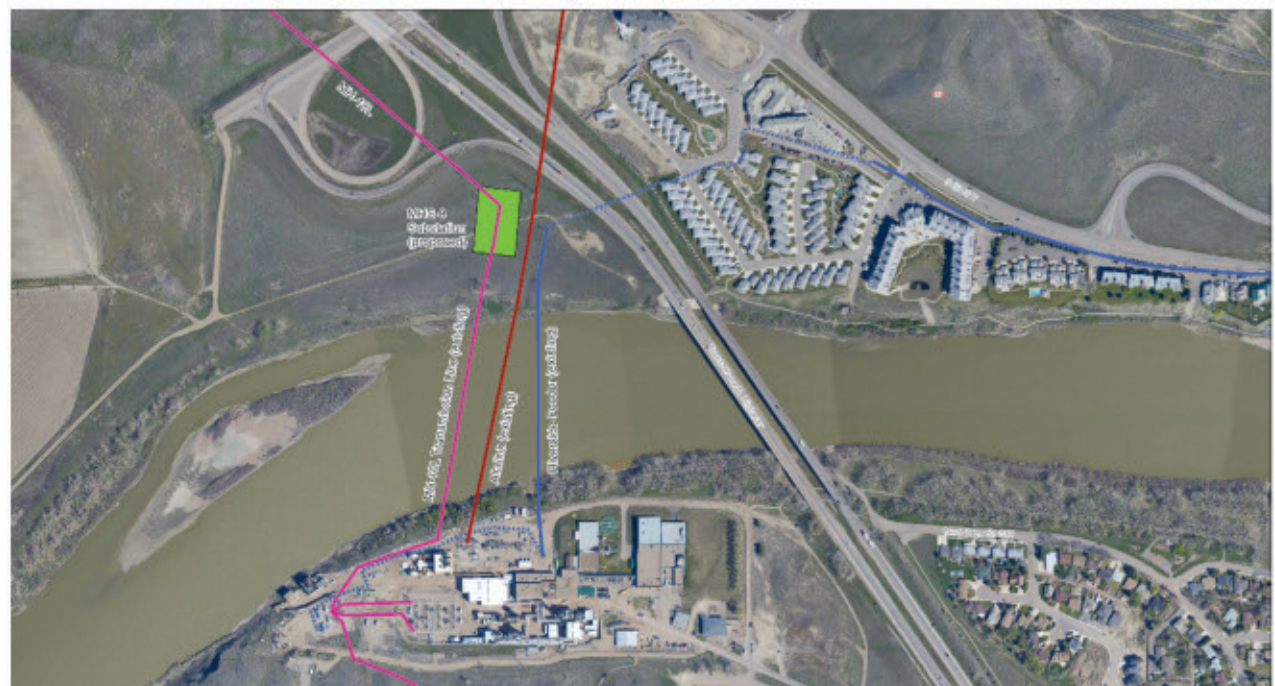

The City of Medicine Hat and you partners in safe drinking water

MEDICINE HAT TRANSMISSION UPGRADE PROJECT MH-10L

The City of Medicine Hat is proposing an upgrade to one of its electricity transmission lines. The project would consist of three parts:

- 1) Addition of a 138/69 kV transformer within the fenced area of the existing North Industrial substation, located at 1480 52nd Street NW.
- 2) Construction of a new substation, to be designated as MHS-8, in an area just west of the TransCanada Highway, on the north side of the South Saskatchewan River. This substation will consist of a single 138/69 kV transformer, with one transmission line entering from the south, and one from the north.
- 3) Upgrade the existing MH-10L transmission line from the North Industrial substation to substation MHS-8 from 69 kV to 138 kV. The structures will be of wood pole construction, similar to what currently exists.

Due to increased demand for electricity within the City, the existing 69 kV facilities are near capacity, and upgrading the line will enable the City to continue providing reliable electrical service to the area for years to come. The proposed work would take place in 2014 and 2015. The work will not cause any interruptions to electric service in the area. During the upgrade, there would be large equipment on site including pole trailers, utility bucket trucks and digger trucks. Work would take place during the day and the City will work to minimize noise, dust, lights, or other disturbances.

Details of proposed upgrade:

The transmission line connects the two substations as shown in the enclosed diagrams. The upgrade would increase the line from its current 69,000 volts (69 kV) to 138,000 volts (138 kV). The line will employ the same route currently used.

Public consultation:

We will use stakeholder feedback to help us refine the project. We anticipate filing an application for the project with the Alberta Utilities Commission (AUC) in the fall of 2013. Subject to regulatory approval, construction would take place in 2014 and 2015.

If you have any questions to address to the City, please contact either me as per the information below or Nigel Pimblett at 403-529-8258, nigpim@medicinehat.ca.

Sincerely,
 Anthony Wong, Engineer-in-Training
