WATER CONSERVATION TIPS TO HELP REDUCE YOUR WATER BILL
Practical conserving water is the theme of this year’s lawn and garden season. Following the theme “Drought Tolerant” of water conservation – Reduce, Reuse, Retrofit – to potentially cut your water use by 50%.
Here are just a few tips to help you conserve water:
In the Putting:
• Clean fruits and vegetables in a partially filled sink or container.
• Reduce evaporation by covering up pools and hot tubs when not in use.
• Water in the early morning or late evening.
• Install an automatic timer on sprinkler systems.
• Clean your driveway and sidewalks with a broom instead of the hose.
• Use short bursts of water when brushing your teeth, shaving, and washing your face.
• Keep a container of drinking water in the fridge for when you want a cold drink.
• Minimize evaporation by watering in the early morning or late evening.
• Install an automatic timer on sprinkler systems.
• Reduce evaporation by covering up pools and hot tubs when not in use.
• Install an automatic timer on sprinkler systems.
• Reduce evaporation by covering up pools and hot tubs when not in use.

On any Development Permit may be obtained from the Planning & Development Services Department, Third Floor, City Hall or on the City’s website at www.medicinehat.ca.

• Replace portions of your lawn with tiered gardens, rocks, mulch and rocks.
• Minimize evaporation by watering in the early morning or late evening.
• Install an automatic timer on sprinkler systems.
• Clean your driveway and sidewalks with a broom instead of the hose.
• Use short bursts of water when brushing your teeth, shaving, and washing your face.
• Keep a container of drinking water in the fridge for when you want a cold drink.
