

2023 Electric Distribution Standard Charge Summary Effective March 1, 2023

Important Changes to Note:

A revised version of the Electric Utility Customer Connection Guide will be released early March, as related to standard charges, some changes to note inside the revised guide are:

- As of March 1, 2023, All underground residential services will be customer dug and pre serviced
- All residential services will require an external meter base disconnect.
- Residential greenfield lots (new services) will no longer be eligible for temporary services.
- Residential brownfield lots (previously serviced) may have pre-approved temporary services on a case-by-case basis and as authorized by an Electric Utility SCO

Business Hours: Monday to Friday, 7:00am to 4:00pm - Last Call For Reconnect Is 3:00pm

**Note, Standard charges are on a cost recovery/no profit model. As such, prices are subject to change with 30 days notice should material shortages impact product or material availability and subsequent cost to the City.*

Service Description 2023	Cost
