	Bulky Items (mattress, sofa, etc)	\$15.00 /item

UNDERSTANDING YOUR UTILITY STATEMENT CHARGES

The Utility Statement provides a summary section with the total charge for each service, as well as a detailed section that breaks out each Utility's charges.

Service Charge (All Utilities):

A monthly charge associated with providing and maintaining utility service to a location. This charge includes installation and maintenance of wires, transformers, pipes, property taxes, buildings, vehicles and staff.

Energy Conservation Charge (Electric and Gas):

Additional charge in excess of 950 kWhs and/or 19 GJ used per month. The money generated from the Energy Conservation Charge will fund renewable energy, resource conservation and education projects / programs.

ELECTRIC UTILITY

Administration Charge:

Covers costs of administering customer accounts including, billing, customer collections and customer inquiries. Also includes the cost of energy lost in distribution system lines.

Energy Charge:

This charge covers the value of electricity used by the customer measured in kilowatt hours (kWh's).

Facilities Usage (per kWh):

This charge covers the cost of maintaining and operating the electric distribution, transmission, and substation infrastructure. Services such as locates, emergency utility infrastructure repairs, lifecycle infrastructure replacement, maintenance of metering systems, engineering design, and customer services are funded through this charge.

Capacity Charge:

Contributes to the cost of generating capacity to supply CMH service area customers.

Going Green:

Monthly fee for the purchase of wind generated electricity.

Kilowatt Hour (kWh):

A quantitative measure of electric current flow equivalent to 1,000 watts being used continuously for a period of one hour.

Municipal Consent and Access Fee (MCAF)

Your distributor pays a fee to the local government to use municipal land for power lines and substations or gas pipeline and infrastructure. The fee also gives your distributor the right to provide electricity or gas to your municipality and covers municipal taxes on property and land. All customers in your municipality share the fee. Each local government sets the fee based on provincial law. Applies to Medicine Hat rates only.

Carbon Levy

The carbon levy is a key part of the Climate Leadership Plan, Alberta's action plan on climate change. Pricing carbon pollution is the most cost-effective way to reduce the emissions that cause climate change. The carbon levy will be included in the price of all fuels that emit greenhouse gases when combusted. These include transportation and heating fuels such as diesel, gasoline, natural gas and propane. It will not apply directly to consumer purchases of electricity.

GAS UTILITY

Administration Charge:

Covers costs of administering customer accounts including billing, customer collections and customer inquiries. Also includes the cost of getting the gas (transportation fees) to the City's local distribution system and fees for gas storage.

What are gas transportation fees?

These fees are to get the gas from where it originates (this can be hundreds of kilometers away from the City of Medicine Hat) to the City's distribution system (pipes).

What are gas storage fees:

These are costs for the City to use a storage facility near Jenner, Alberta. In the summer months, the City puts gas into storage to be saved for use in the winter months by our gas customers.

Commodity Charge: This charge covers the value of the natural gas used by a customer measured in gigajoules (GJ).

Delivery Charge (per GJ):

Covers costs of emergency call-outs, facility and pipeline repairs, unscheduled maintenance of customer meters, customer locates, maintenance of odorant facilities, vehicle fuel and maintenance costs.

Gigajoule (GJ):

One gigajoule (GJ) equals one billion joules (J). A gigajoule of natural gas is about 25.5 cubic metres at standard conditions. One gigajoule of natural gas is equal to 27 litres of fuel oil, 39 litres of propane, 26 litres of gasoline or 277 kilowatt hours of electricity.

ENVIRONMENTAL UTILITIES

Commodity Charge:

This charge covers the value of water used by the customer measured in cubic metres (m3)

Residential Recycling Collection:

Covers the costs that are associated with the collection of recyclable material from residential customers. This includes supplying and maintaining the residential recycling carts and other administrative costs.

Waste Diversion:

Covers the costs that are associated with the various City waste diversion programs such as depot recycling, yard waste collections, composting, electronic waste recycling, household hazardous waste recycling, paint recycling, tire recycling, used oil recycling, appliance recycling, battery recycling and compact fluorescent lights recycling.

Cubic Metres (m3):

A metric unit of volume or capacity equal to 1000 litres.
