- A. In the interest of public safety all Natural Gas & Propane installations in the City must be covered by a Gas permit and are subject to appropriate inspections.
- B. If you have had no previous knowledge or experience with gas installations you should engage a Gas Fitting contractor who is eligible to receive permits. Experience has shown that persons not familiar with gas installations and the applicable requirements often complete work which requires many extensive corrections upon inspection, and as a result such gas fitting installations often creates very serious hazards. **In addition, it must be emphasized that the person signing the permit application assumes the responsibility for ensuring that the gas fitting concerned is completed in a safe manner in accordance with applicable Safety Regulations and Codes.**
