HAT Smart Funding Status Update

Reminder that funding is limited so please apply early

Medicine Hat – The City’s HAT Smart program continues to grow in popularity as energy-conscious residents take advantage of incentives to save money. Residents and local service providers are encouraged to visit www.hatsmart.ca or call 403.502.8799 for more information on the level of funds under HAT Smart’s 2019 Residential Incentive Program, as funding is limited.

The funding status is updated regularly on the HAT Smart website to ensure current levels are reflected. Funding for the EnerGuide Ratings New Homes incentive sits at 70% utilization and the Solar Electric program is 95% subscribed. Additionally, 34% of the funding has been awarded for energy efficient clothes dryers, 24% for energy efficient air conditioning units, and 31.0% for Scratch & Win items.

HAT Smart rebates are available to all City of Medicine Hat residential utility customers and are processed on a first come, first served basis. Applications should be submitted early to take advantage of these initiatives before funding runs out. Funding is also available through Energy Efficiency Alberta. For more information on the rebates offered through the provincial program, visit www.energycanada.ca.
