

Form C: Exterior Wall Claddings of Part 9 Buildings

Permit Application Date: _____

Re: Installation, Application and Field Review of Exterior Wall Cladding Systems

Project Name: _____

Project Address: _____

Legal Description: _____

I hereby give assurance that the materials, installation and application of the exterior claddings described in the documents prepared and submitted in support of this application for a building permit will meet the requirements and intent of Part 9 of the Alberta Building Code 2014. **I have an understanding or have employed someone who has an understanding of moisture control methods.**

1. Stucco Claddings – Section 9.28

The exterior stucco will meet the requirements and intent of Section 9.28 of the Alberta Building Code 2014 and the standards referenced herein as a guide of best practice:

- CAN/CSA-A5 “Portland Cement”
- ASTM C926 “Standard Specification of Application of Portland Cement-Based Plaster”
- ASTM C1063 “Standard Specifications for installation of Lathing and Furring to Receive Interior and Exterior Portland Cement-Based Plaster”

2. Other Claddings – Section 9.27

Other cladding listed in Section 9.27 will meet the requirements and intent of Section 9.27 of the Alberta Building Code 2014 and the standards referenced in the Code.

3. Field Review

I hereby undertake to be responsible for field review during construction for the following:

- Moisture management control, including protection from precipitation and interior/exterior moisture ingress control, especially at openings and penetrations.
- Cladding movement control and thermal expansion.
- Selection and installation of materials including the sheathing, sheathing membrane, flashings, stucco application, and curing, OR
 - Stucco installation including (but not limited to): reinforcing lath, stucco batching and mixing, stucco application, and curing, OR
 - Other cladding installation including (but not limited to): all the requirements of Section 9.27, Section 9.20, and any standards referenced by the Alberta Building Code.

Person Supervising the Construction (i.e. Owner, Moisture Control Technician, Superintendent)
