
Notice

Gas codes in force March 2026

This notice is for all Albertans who may have cause to use the Gas Code Regulation (AR 111/2010).

Effective January 1, 2016, the Gas Code Regulation was amended to allow timely code adoption. Generally, national gas codes come into force in Alberta one year after the month of their publication, unless otherwise prescribed by the Minister of Municipal Affairs.

The following gas codes are adopted under the Gas Code Regulation. These codes were published in February 2025 and came into force on March 1, 2026.

- **CSA-B149.1:25 – Natural gas and propane installation code**
This code applies where gas is used for fuel purposes; the installation of natural gas and propane appliances and equipment downstream from the termination of the utility installation or from the outlet of any propane container first stage regulator.
- **CSA-B149.2:25 – Propane storage and handling code**
This code applies to the storage, handling and transfer of propane; Where propane is used as an engine fuel in other than motor vehicles; and the installation, operation, and maintenance of propane containers and equipment.
- **CSA-B149.3:25 – Code for the field approval of fuel-burning appliances and equipment and equipment**
This code contains the requirements for fuel-burning appliances and equipment located downstream of the manual shut-off valve specified in CSA B149.1; Appliances that are not certified to an approved standard or where modification to a previously field-approved or certified appliance has been void due to modification to the appliance or control system.
- **CSA-B149.5:25 – Installation code for propane fuel systems and containers on motor vehicles**
This code applies to the installation, servicing, and repair of propane fuel system components and containers on motor vehicles for the provision of motive power; and the installation of containers on motor vehicles such as recreational vehicles, outdoor food service units, and wash-mobiles when propane is to be used for fuel purposes (other than motive power).
- **CSA/ANSI-B149.6:25 – Code for biogas generation and utilization**
This code applies to the installation of systems for the production, handling, storage, and utilization of biogas in newly constructed facilities, as well as additions to and upgrading of existing systems.

These codes supersede the following codes:

- **CSA-B149.1:20 – Natural gas and propane installation code**
This code provides the minimum requirements for the installation of natural gas and propane appliances and equipment downstream of a natural gas meter or from a propane distributor's tank.
- **CSA-B149.2:20 – Propane storage and handling code**

This code provides the minimum requirements for the storage, handling, transportation, and transfer of propane.

- **CSA-B149.3:20 – Code for the field approval of fuel-burning appliances and equipment and equipment**

This code applies to the requirements of non-certified fuel burning appliances and equipment of all inputs for which there is no approved standard and the upgrading, conversion, or changes to a certified or non-certified appliance.

- **CSA-B149.5:20 – Installation code for propane fuel systems and tanks on highway vehicles**

This code applies to the installation of propane fuel system components and tanks on highway vehicles for the provision of motive power.

- **CSA/ANSI-B149.6:20 – Code for digester gas, landfill gas, and biogas generation and utilization**

This code applies to the installation of systems for the production, handling, storage, and utilization of digester gas, landfill gas, and biogas in newly constructed systems as well as additions to and upgrading of existing systems.

Information on purchasing codes and regulations

These gas codes may be purchased online from the CSA Group at csagroup.org/store/.

The Gas Code Regulation may be purchased from the Alberta King's Printer at alberta.ca/alberta-kings-printer
