	Bulky Items (mattress, sofa, etc)	\$15.00 per item
	Bulk Compost (Commercial)	\$30.00 per tonne

Understanding your Utility Statement charges

The Utility Statement provides a summary section with the total charge for each service, as well as a detailed section that breaks out each Utility's charges.

Electric Utility

Kilowatt Hour (kWh):

A kilowatt hour is the standard measure for electricity use - one kilowatt of electricity in use for one hour. A 100-watt bulb running for 10 hours would use 1 kWh of electricity.

Service Charge:

A fixed daily charge that covers costs associated with providing and maintaining utility service to a location. This charge includes installation and maintenance of wires, transformers, vehicles, and staff.

Administration Charge:

A fixed daily charge that covers costs of administering customer accounts including, billing, customer collections and customer inquiries.

Capacity Charge:

A consumption-based charge that contributes to the cost of generating power to supply to service area customers.

Energy Charge:

This charge covers the value of electricity used by the customer measured in kilowatt hours (kWhs) and is calculated by multiplying consumption by the energy price.

Environmental Conservation Charge:

An additional charge levied on consumption for each kilowatt hour used in excess of 950 kWhs per month. This money is used to fund the City's Hat Smart program.

Facilities Usage:

This charge covers the cost of maintaining and operating the electric distribution, transmission, and substation infrastructure and is calculated per kWh used.

Going Green:

A fee per kilowatt hour that pays for the purchase of renewable energy.

Municipal Consent and Access Fee (MCAF)

This fee provides the utility access to municipal land for power lines and substations. The fee also covers municipal taxes on property and land used by the utility. All customers within the municipality pay this fee. The City establishes this fee in accordance with provincial law. The MCAF applies to Medicine Hat rates only.

Gas Utility

Gigajoule (GJ):

One gigajoule (GJ). One gigajoule is a measure of heat energy obtained from natural gas. A gigajoule of natural gas has the same energy as 26 liters of gasoline or 277 kilowatt hours of electricity.

Service Charge:

A fixed daily charge that covers costs associated with providing and maintaining utility service to a location. This charge includes installation and maintenance of pipes, vehicles, and staff.

Administration Charge:

A fixed daily charge that covers costs of administering customer accounts including billing, customer collections and customer service.

Commodity Charge:

This charge covers the value of the natural gas used by a customer measured in gigajoules (GJ) and is calculated by multiplying consumption by the gas price.

Environmental Conservation Charge:

An additional charge levied on consumption for each gigajoule used in excess of 19 GJs per month. This money is used to fund the City's Hat Smart program.

Delivery Charge:

This charge covers the cost of maintaining and operating the natural gas distribution, transportation, and compressor station infrastructure and is calculated per GJ used.

Federal Carbon Charge:

The carbon levy is part of Canada's climate action plan. The charge puts a price per tonne of carbon dioxide equivalent (CO₂e) emissions for home heating fuels. The rate changes on May 1 each year and is calculated per GJ used. The money collected from this charge is remitted to the Federal Government.

Municipal Consent and Access Fee (MCAF):

This fee provides the utility access to the use of municipal land for gas lines and compressor stations. The fee also covers municipal taxes on property and land used by the utility. All customers within the municipality pay this fee. The City establishes this fee in accordance with provincial law. The MCAF applies to Medicine Hat rates only.

Environmental Utilities

Water

Cubic Meters (m³):

A metric unit of volume or capacity equal to 1000 liters.

Service Charge:

A fixed daily charge associated with providing and maintaining utility service to a location. This charge includes installation and maintenance of pipes, booster stations, vehicles, and staff.

Commodity Charge:

This charge covers the value of water used by the customer measured in cubic meters (m³) and is calculated by multiplying consumption by the water price.

Sewer

Service Charge:

A fixed daily charge associated with providing and maintaining utility service to a location. This charge includes installation and maintenance of pipes, lift stations, vehicles, and staff.

Solid Waste

Service Charge:

A fixed daily charge associated with providing pickup and disposal service of residential waste, including tipping fees at the landfill.

Waste Diversion:

A fixed daily charge that covers the costs associated with the various City waste diversion programs such as depot recycling, yard waste collections, composting, electronic waste recycling, as well as other household hazardous waste.

Residential Recycling:

A fixed daily charge that covers the costs associated with the collection of recyclable material from residential customers, including the supply and maintenance of the residential recycling carts.
