Core Services/Programs, Primary Customers, and Key Performance Indicators (KPIs)

| Core Services/Programs | Primary Customer's Name | Key Performance Indicators (KPIs) |
|---------------------------|----------------------------------|---|
| Serving the Community | Citizens of Medicine Hat | Fiscal Responsibility, Safety, Infrastructure and Public Amenities. |
| Staff | City Departments and Staff | Safety, Aligning Priorities relative to City Council's Strategic Plan, Education and Support. |
| Stakeholders | External Vendors and Consultants | Collaboration, Fiscal Responsibility, Growth and Support. |
| Government | Other Levels of Government | Collaboration, Fiscal Responsibility. |

Prior Year Service/Program Highlights and Achievements

| Council Priority | Highlights/Achievements |
|-----------------------------|---|
| Fiscal Responsibility | Using the Financially Fit Framework, closed the funding gap by \$7.0M in 2017/2018 budget. Continued to review service level standards and core services when |
| | working on the key assumptions for the 2019-2022 Budget to assist in reducing the funding gap further by \$10.5M. |
| | Introduced new systems and practices to streamline processes and increase efficiencies. |
| Economic Vitality | Demonstrated commitment to be open for business. 2017/2018 reflected a number of new businesses including Aurora and Hut 8. Completed Airport runway update and attracted a new carrier, WestJet, which contributed positively to the community. |
| | Sold excess land inventory that was not part of the City's land development strategy. |
| Infrastructure Renewal | Completed several upgrades to maintain the City's infrastructure. Updated the Municipal Development Plan and Off-Site Levy Bylaw. |
| Community Safety & Vibrancy | Distributed grant funding to various groups within the community. Implemented new systems and supports for emergency |
| , | communications. Initiated various safety programs. |
| Sunshine Hospitality | Attracted 2017 Alberta Special Olympics Summer Games Attracted 2017 Hometown Hockey |
| City Government | Facilitated Development of a Sport and Event Council Focused on financial fitness, workplace safety, engagement, and wellness. |
| | Developed an Integrated HSE Management System Roadmap. Developed the Heritage Savings Endowment and Investment Strategy. |
| | Continued succession planning in various departments. Conducted a Municipal and School Board election in accordance with |
| | applicable legislation- completed and enhanced with greater voter accessibility (mail-in ballots/Express vote for impaired voters). |
| | Prepared and distributed Council and Committee Agendas in accordance with the new Municipal Government Act requirements. |

| Total Expenses | 5,603 | 5,937 | 7,879 | 8,058 | 8,207 | 8,348 | 2,411 | |
| Cash Requirements | \$ 1,079 | \$ 1,151 | \$ 1,254 | \$ 1,276 | \$ 1,300 | \$ 1,327 | \$ 177 | |

Highlighting items over \$50,000 - incremental annual increases or decreases in the current operating budget requests are primarily due to the following factors:

(In thousands of dollars)

| Financial Plan Summary Ref. No. | Reason | 2019 \$ | 2020 \$ | 2021 \$ | 2022 \$ |
|---------------------------------|--|-------------------|------------|------------|------------|
| 1 | Salaries, Wages & Benefits – increase due to inflation | (\$49) | \$40 | \$41 | \$42 |
| | Total Annual Change | \$103 | \$22 | \$24 | \$27 |
| | Total 4 Year Change | | | | \$177 |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|--------|--|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend subsidies to the municipal operating budget by a further target of \$12 million during the 2019-2022 budget term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost-effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely funded either by dedicated reserves or projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and development incentive program to facilitate strategic investment attraction to areas identified for development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities that will maximize the use of existing infrastructure and support intensification. |

| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
|---------|---|
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |
| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
| | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support |
| | Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of |
| 1/0.6.1 | succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as |
| | financial stewardship. |

| 2. Infrastructure and | KR 2.1 | Legal services support for major oil and gas |
| Amenities | | divestitures of non-core assets and Manyberries |
| | | litigation |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|----------------------------------|---|--|
| Updating of City bylaws required | Old City bylaws need to be updated and new bylaws drafted to meet MGA changes and other legislative needs | Legislative Action Plan sets out a plan for major bylaw projects |
| Litigation involving the City | The City is a party to lawsuits | Use of specialized outside legal counsel for litigation |
| MGA amendments and regulations | The City must comply with MGA amendments and regulations | Collaborate with various departments to ensure compliance with MGA requirements. |

| Cannabis legalization | Cannabis legalization requires substantial bylaw changes and enforcement | Collaboration with affected City departments and bylaw enforcement |
|--|---|--|
| Increasing demand for legal services | Changes to legislation and economic development initiatives are resulting in an increase in demand for legal services | Prioritize projects in collaboration with City departments, and use outside legal counsel for specialized expertise when efficient and cost effective to do so |
| Increasing complexity of legal matters | Major legislative changes and increasingly complex transactions require a wide range of expertise in legal matters | Collaboration between lawyers in the City Solicitor Department, legal education, use of specialized outside legal counsel, as required. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety – Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Legislative Action Plan

- Many City bylaws are outdated and a systematic review and update of core City bylaws is required
- 2. New bylaws and bylaw amendments are required to implement MGA amendments and new regulations
- 3. The legalization of cannabis and other new initiatives require bylaw amendments and in some cases new bylaws

Indicators of Success:

- 1. Core City bylaws (including various utility bylaws) are updated
- 2. City bylaws comply with recent MGA amendments and new regulations
- 3. Legalization of cannabis and other major initiatives are appropriately addressed in City bylaws

Action Plan:

- 1. Update the Legislative Action Plan periodically
- 2. Ensure City bylaws comply with applicable legislation
- 3. Align Legislative Action Plan with council and departmental priorities and resources

Strategic Objective B: City Compliance with MGA Amendments and Regulations

Rationale:

- 1. Recent MGA amendments and new regulations will have a major impact on City bylaws, statutory plans and policies
- 2. Certain amendments and regulations require compliance by specified dates
- 3. City statutory plans (IDP, MDP, ASPs) must be compliant with the MGA, and municipalities are required to enter into "inter-municipal framework agreements" with adjacent municipalities

Indicator of Success:

- 1. City compliance with MGA amendments and regulations
- 2. City statutory plans and policies meet applicable MGA requirements
- 3. Inter-municipal framework agreements negotiated and finalized by deadline of April 1, 2020

Action Plan:

- Provide support and collaborate with applicable City departments, particularly Planning and Development Services
- 2. Prioritize changes to City bylaws and policies based upon deadlines and departmental needs
- 3. Inter-municipal framework agreements negotiated and finalized by April 1, 2020

Strategic Objective C: Management of Major Litigation Matters

- 1. The City is involved in lawsuits, in some cases as a plaintiff and in other cases as a defendant
- 2. These lawsuits potentially have major financial and operational impacts on the City

 Litigation matters require significant time and resources from the City Solicitor Department and other applicable City departments, and substantial legal fees may be incurred for specialized outside legal counsel

Indicator of Success:

- 1. Successful dispute resolution
- 2. Efficient management of City resources
- 3. Efficient management of outside legal counsel and their legal fees

Action Plan:

- 1. Move litigation matters along prudently
- 2. Work collaboratively with affected City departments
- 3. In conjunction with affected City departments, closely monitor outside legal fees and effectively manage City resources

Strategic Objective D: Legal Support for City Economic Development Initiatives

Rationale:

- 1. Land & Business Support have actively pursued economic development initiatives
- 2. Economic development can increase the tax base, utility revenue and create employment
- 3. Often such initiatives involve City land and utilities, which require appropriate agreements

Indicator of Success:

- 1. Successful attraction and retention of new economic development
- 2. Appropriate agreements in place
- 3. Improved local economy

Action Plan:

- 1. Work collaboratively with Land & Business Support and other applicable City departments
- 2. Prioritize projects in conjunction with other City departments
- 3. Efficient use of staff and resources

Strategic Objective E: Legal Services Support for Financial Fit Initiatives

- 1. The City has embarked on the "Financially Fit" initiative for the purposes of decreasing City expenses and increasing revenue, with the goal of reducing reliance upon City energy dividends
- 2. These initiatives will affect a multitude of City departments and operations

3. These initiatives may require new or amended bylaws, divestitures of assets, various types of agreements and other legal services

Indicator of Success:

- 1. Reduction of the City's reliance upon energy dividends
- 2. Successful implementation of Financially Fit initiatives
- 3. Satisfaction of Council's strategic priority of fiscal responsibility

Action Plan:

- 1. Work collaboratively with other City departments to provide legal services support for Financially Fit initiatives.
- 2. Prioritize Financially Fit projects in accordance with Council's strategic priorities and in conjunction with other City departments
- 3. Prudently manage City Solicitor Department resources

| | SUMMARY OF STRATEGIC OBJECTIVES | | | | | |
|--|---|-----------------------|---|---|--|--|
| Objective Name | Council's Strategic Priority (SP) | Key Result (KR) | Action Plan | Assigned To (Subdepartment) | Timeline | |
| Legislative Action Plan | 6. City Government | KR 6.3 | Updating old bylaws in accordance with Legislative Action Plan Update utility bylaws | Various City departments Utility departments | December 2022 December 2022 | |
| Compliance with MGA Amendments and Regulations | 4. Community Safety and Vibrancy | KR 4.5 | Cannabis Legalization Inter-municipal Framework Agreement Bylaw | Planning and Development Services Various City Departments | April 2019 April 2020 | |
| Management of Major Litigation Matters | 3. Infrastructure Renewal | KR 3.1 | River Ridge litigation Manyberries EPO – Judicial Review Application and Compensation Claim Abdul Khan litigation | Environmental Utilities NGPR Human Resources | April 2019 December 2021 December 2021 | |

City Clerk

Department Head: Angela Cruickshank Title: City Clerk

Phone: 403.529.8234

E-mail: clerk@medicinehat.ca

DEPARTMENT OVERVIEW

The core function of the City Clerk Department is to provide all required legislative and procedural support to City Council and the City's various quasi-judicial tribunals, boards, commissions and advisory committees.

This includes scheduling and logistics of meetings and hearings, preparing and distributing agendas, minutes, legal advertising and notices, writing draft decisions, creation and guardianship of the permanent record of Council, and recruiting for board, commission and advisory committee vacancies. The Department acts as FOIPP Head and advises on FOIPP matters for the organization, performs statuary duties as Clerk of the Assessment Appeal Board, Secretary to the administrative Committee and oversees the Records Management Policy.

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

- Conducts municipal elections and census;
- •Serves as head of local public body under the Freedom of Information and Protection of Privacy ("FOIPP") Act and handles all external requests for information and internal requests for advice arising from the provisions of that statute;
- Maintains and preserves a wide range of vital City records, including bylaws, minutes, reports, resolutions, statutory plans, policies and procedures, contracts and duties in relation to the City's Records Management Policy;
- Processes applications for, and issues, Event Permits;
- Provides administrative support and voting membership on the Administrative Committee;
- Manages statutory functions and duties of City Clerk, quasi-judicial appeal boards, and municipal secretary under various City by-laws and provincial enactments;
- Receipt and ruling on petitions according to the Municipal Government Act.

| and complexity of FOIPP requests, | some of FOIPP legislation and best | cannot be contracted out, continue to |
| growing practice of lawyers and | practices/Provincial standards | track time/cost and obtain approval in |
| insurance companies using FOIPP | | a future budget cycle for a FOIPP |
| | | Coordinator to set up formal FOIPP |

| requests as part of their routine | | program in accordance with Provincial |
|---|---|--|
| information gathering process. Keeping apprised of changing legislation e.g. Local Authorities | Municipality is non-compliant with some of FOIPP legislation and best | recommendations and legislation, develop and implement Policy and FOIPP awareness to municipality. Cost can be offset by reducing the annual budget for temporary employees. Share information pro-actively and try to cross-train staff as time allows, |
| Election Act, MGA, MRAC, Census regulation, SDAB Regulation, FOIPP and implementing unexpected change quickly and accurately. Records management of the Corporate Policies has never been undertaken. There are no standards or guidelines or advice given to staff on policy writing and the process formally documented has not been updated since the 1980's. Policies are not being reviewed as required or cross referenced when new policies come into effect. | practices/Provincial standards Municipality is at risk of becoming non-compliant in other legislation if policy does not keep pace with legislative changes. | subscribing to online newsletters etc., and prioritizing staff training opportunities. Policy records management requires a formal program/project charter, review of policies and best practices, and creation of management plan and ongoing implementation of said plan. This can be resourced by adding to the proposed FOIPP Coordinator role in a future budget cycle. |
| Administrating appeal hearings from quasi-judicial tribunals (Subdivision and Development Appeal Board & Assessment Review Board) that require evidence management and specialized training/qualifications. | More specialized training and qualifications required to administer appeals (ARB and now SDAB) means staff in an under-resourced department are at risk of losing accreditation due to competing priorities, putting the municipality at risk. | Prioritize training, qualification and staff development over other priorities such as internal/external assistance with records management and (non-FOIPP related) requests for information. |
| Responding to the ever-increasing demand for detailed information supplied quickly and in digital form, from both internal and external stakeholders, and finding more efficient means to proactively disclose information to the public while balancing privacy concerns. | Record portals need to be updated and maintained. | Make use of technological tools. |
| Department remains under- resourced to deal with the issues/trends outlined above, after budget and FTE cuts in 2012. The City Clerk Department has been reduced from seven FTE's in | Department is at capacity dealing with day-to-day business which is statutory and timeline driven. Any projects over and above daily duties put pressure on already strained resources and it is difficult to recruit temps for the specialized business we are in. | Add a future PEP to address capacity risk and added records management policy review workload. This position would also take on the role of Assessment Review Board Clerk, and Election and Census coordinator. |

| . 35 5 | Offset with some savings from temporary staff budget. |
|------------------|---|
| attend training. | |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example,
 "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Conduct 2019 or 2020 Census

Rationale:

- 1. Census is typically carried out every two years. Last census data came from Federal Government in February 2017.
- 2. Census data is used by city department and external resources to aid in planning/demographic trends.
- 3. Census data provides basis for per-capita funding for grant programs from other levels of government.

Indicators of Success:

- 1. Census is carried out according to legislation.
- 2. Required audit is passed.
- 3. Data is released in a timely fashion and made available in the Open Data portal for public consumption.

Action Plan:

1. Create project charter

- 2. Hire and train enumerators and coordinator
- 3. Procure, deliver and gather census data through online portal, pass required audit

Strategic Objective B: Conduct 2021 Municipal and School Board Election

Rationale:

Elections must be conducted in accordance with the MGA and Local Authorities Election Act.

Indicator of Success:

1. Election is conducted with no procedural challenge.

Action Plan:

- 1. Create project charter and review best practice
- 2. Book venues, hire and train workers, complete required advertising
- 3. Procure and deploy technological aides

Strategic Objective C: Review remuneration for assessment appeal board members

Rationale:

Remuneration of appeal board members has not been reviewed since 2010

Indicator of Success:

1. Remuneration is in line with best practice and adopted by Council

Action Plan:

- 1. Review best practice across province
- 2. Recommend any changes to Council

Strategic Objective D: Onbase 17 Upgrade

- 1. Agenda and records management software needs to be maintained and kept up to date in order to function
- 2. Internal staff and the public utilize the software daily
- 3. New developments and modules will enhance the user experience and create efficiencies

Indicator of Success:

- 1. Upgrade is successfully deployed
- 2. Staff are trained and public is made aware of any end user enhancements
- 3. Efficiencies are achieved

Action Plan:

- 1. In collaboration with records management staff in ICS, create project charter
- 2. Prepare technological platform and any end user requirements
- 3. Successfully deploy

Strategic Objective E: Policies Review and Management

Rationale:

- 1. Policies are written by subject matter experts, but no best practice advice has been formalized
- 2. Policies are not cross referenced when changes are made
- 3. Policies dating back 40 years are still in force

Indicator of Success:

- 1. New policies are written to a consistent format and standard
- 2. Old policies are reviewed and/or updated or rescinded by appropriate City departments
- 3. Existing policies are reviewed according to best practice or legislative requirements

Action Plan:

- 1. Create project charter
- 2. Research best practice and create guidelines and deliver in-house training. Track and coordinate policy updates, review old policies and make recommendations for action.
- 3. Integrate into Records Management Policy

| | SUMMARY OF STRATEGIC OBJECTIVES | | | | |
|---|--|-----------------------|--|-----------------------------|--|

| 6. City Government | KR 6.4 | Introduced Council At A Glance to give all staff |
| | | and community timely information on Council |
| | | decisions. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|--------------------------------|--|---|
| Increasing public expectations | The public has an increased expectation for access to information, on their terms, including method and timing of their choice. Our audiences have varied needs, interests and preferred mechanisms. Similarly, the public has an increased expectation for community engagement and opportunity to influence decision making. | Work to share information broadly and to target as appropriate. Maintain website as source of truth. Adhere to Public Participation Policy to manage expectations around public engagement through consistent approach. Continue to emphasize media responsibilities and training across organization to ensure responsive media approach and effective media coverage. |
| Technological changes | Technology has allowed Corporate Communications to reach audiences in new ways, often in a more targeted and timelier fashion. However, technology changes quickly and can be "fad" driven. | Cautious and strategic investment of resources before adopting new tools and tactics. |

| Online and social media | While online and social media offer tremendous opportunities for the City to communicate information, it is challenging to slow/stop the spread of misinformation. | Continue to proactively communicate information using a variety of tools and tactics, including social media. |
|----------------------------|---|--|
| Organizational activity | The organization is experiencing prolonged and sustained high levels of activity. Departments are focused on the task at hand and may not always see the value in proactive communications. | Maintain positive relationships with client groups and continue to demonstrate value. Celebrate successes and lessons learned. |
| Frequent turnover in media | Local media outlets are often a | Build positive relationships, invest |
| personnel | training ground for larger centres. | time to educate new journalists to |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Provide timely and accurate information to residents and taxpayers.

Rationale:

- 1. Communicating in a proactive manner helps build trust and confidence in the City of Medicine Hat.
- 2. Informed residents are better able to provide input and feedback as part of public participation opportunities.

Indicators of Success:

- 1. Adherence to City's Public Participation Policy
- 2. Positive relationships with local media
- 3. City decisions are better informed and supported

Action Plan:

- 1. Provide public engagement tools and training
- 2. Provide spokesperson tools and training
- 3. Provide standards and coordinate and/or support communication strategies

Strategic Objective B: Promote City services, programs and amenities

Rationale:

- 1. An awareness of City offerings improves accessibility and can lead to an improved quality of life for residents.
- 2. An awareness of City offerings can raise the profile of the corporation and community.
- An awareness of City offerings helps taxpayers understand where their tax dollars are being spent.

Indicator of Success:

- 1. Increased web hits/visits
- 2. Increased social media following
- 3. % user general satisfaction with City website

Action Plan:

- 1. Provide website author tools and training
- 2. Coordinate opportunities for corporate attendance at trade shows and other events
- 3. Provide standards and coordinate and/or support communication strategies

Strategic Objective C: Create an Ambassador Program for the community of Medicine Hat

Rationale:

- 1. The best way to lend credibility to a destination is with a recommendation or success story from someone who lives there/has visited there.
- 2. Local residents are proud of their community and are a largely untapped marketing resource.
- 3. Residents who wish to promote Medicine Hat will find benefit in having a consistent, readily accessible, easy-to-use set of tools to use.

Indicator of Success:

- 1. Increased local knowledge of community history, culture, events and attractions
- 2. # of active participants in Ambassador Program

3. An increase in visible civic pride, including self-generated social media posts, presence of community promotional materials, attendance at activities, etc.

Action Plan:

- 1. Research programs for other jurisdictions.
- 2. Engage with external stakeholders, including Tourism Industry Group.
- 3. Develop and implement program.

Strategic Objective D: Promote a positive organizational culture through employee communications

Rationale:

- 1. An informed workplace supports an engaged culture.
- 2. Awareness and understanding of the organizational vision and Council's strategic priorities helps employees focus their efforts.
- 3. Employees need information about policies, standards, expectations, etc. to be able to fulfill their duties.

Indicator of Success:

- 1. % employees report feeling well informed
- 2. % employees report feeling engaged in the workplace
- 3. % employees conduct themselves in a safe manner

Action Plan:

- 1. Evaluate need to use both Jostle and Intranet.
- 2. Support workplace engagement survey rollouts.
- 3. Deliver Corporate Communications training through Management Growth Program.

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|---------|--|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend |
| KIN 1.1 | subsidies to the municipal operating budget by a further target of \$12 million during the 2019-2022 budget |
| | term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| | innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual |
| | with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| CD O | funded either by dedicated reserves or by projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and |
| VD 2 2 | responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more |
| KR 2.3 | effective internal City processes and practices. Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, |
| KK 2.5 | specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for |
| KI 2.4 | municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| | to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and |
| | development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
|--------|--|
| | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as financial stewardship. |

Facilities Management | Facility Project Management Office | Fleet Services

DEPARTMENT OVERVIEW

Corporate Asset Management Department provides leadership and direction in the maintenance of the Corporation's facilities and fleet assets, and provision of expert project management services for facilities capital projects.

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

Provide professional, technical, and non-technical support and services to City staff and the public to create and maintain comfortable, safe, and functional building environments.

Project initiation, planning, and project management of construction and renovation projects.

Allocation and management of the City space resource.

Manage and maintains the City's fleet of vehicles and equipment.

Lead the annual capital MTCA program.

| | | Management. |
| 6. City Government | KR 6.3 | Completed review and update of Facilities |
| | | Management Service Level Agreement. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|--------------------------|---|---|
| Corporate Strategy | CAM has difficulties gaining strategic organizational perspective and awareness of shifts in priorities or direction that are required to ensure that City assets are being planned for and implemented within the desired timeframe. | Clear capital planning process and guidelines. Strategic planning reviews of all City departments. |
| Succession Planning | Currently have a number of key roles that have no backup or formal knowledge transfer completed. | Increased procedures within our Management Systems. |
| Long Term Asset Planning | Current Realty Asset Management Plan is out of date. | Update Realty Asset Management Plan. Creation of a Space Management Plan that details options for lower operating costs based on a reduction of high cost square footage. |
| Equipment Inventory | Interruption of service (fleet and facilities) due to a lack of equipment inventory. | Increased use of service contracts and review of parts inventory for critical equipment. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Develop, implement and maintain an Asset Management System.

Rationale:

- 1. Asset Management Programs encourage maximizing the benefit of a given asset, by striking a balance between the resources required for procurement, maintenance, and disposal of an asset over its lifetime.
- 2. Asset Management Programs ensure that resources are put towards assets with the highest degree of criticality and considers the impacts of deferring resource allocation to each asset.
- 3. Asset Management Programs are proactive management systems that strive to balance the needs and desires of concerned stakeholders with the limits of available resources.

Indicators of Success:

- 1. Proactively maintaining City assets, thus reducing the number of service interruptions due to equipment failure.
- 2. Ability to foresee a facility's end of useful life and have a replacement plan in place.
- 3. Understanding of the risks and potential outcomes of deferring reinvestment in a facility by having a capital plan that incorporates a number of risk factors.

Action Plan:

- 1. Prepare an update to the current Aging Infrastructure Policy, that includes other classes of assets within the City of Medicine Hat.
- 2. Complete condition assessments of all City facilities.

3. Update the capital planning worksheets for all City facilities.

Strategic Objective B: Provide effective and efficient delivery of shared services with a business facing operational focus.

Rationale:

- CAM is primarily an internal service provider to every other department within the City of Medicine Hat. CAM services must be delivered at the agreed upon level at the lowest possible cost to be efficient.
- 2. CAM objective is to support the operations of internal customers, by providing shared services that are valued and timely.

Indicator of Success:

- 1. Increased satisfaction from user departments.
- 2. Services delivered meet the levels agreed upon in the Service Level Agreements.

Action Plan:

- 1. Review organizational structure within Fleet and Facilities Management groups to ensure that the structure best supports the effective and efficient delivery of services by Q4 2019.
- 2. Continue to implement the chosen recommendations from the Value for Money Audits conducted within Fleet and Facilities Management.
- 3. Begin to use the service management tools and data analytics capabilities within CityWorks to augment our services to user departments.

Strategic Objective C: Maintain a comprehensive space management plan for the different classes of space within the City of Medicine Hat inventory.

Rationale:

- 1. A space management plan is required to ensure that departments have space to perform their core functions.
- 2. An appropriately designed and constructed space can add value to departments by enhancing efficiencies and creating environmental conditions most conducive to that department's specific requirements.
- 3. A regularly reviewed and updated space plan allows for effective budgeting and staging of construction and refurbishment projects if required.

Indicator of Success:

- 1. A documented space plan including the functional requirements from the different departments.
- 2. An indicator of success is having a proper budget in place for any additions or subtractions of space in the next four year budget cycle.
- 3. Biannual reviews of the space management plan will be conducted with the senior leadership team.

Action Plan:

- 1. Complete the functional needs assessment for office space.
- 2. Complete the needs assessment for storage and shop space.
- 3. Create a comprehensive space management plan.

Strategic Objective D: Continue to develop and augment our internal service capacity and capability by investing in the professional development and engagement level of our staff.

Rationale:

- 1. All of our other goals and objectives require personnel resources to be successful.
- 2. A highly engaged work force is more effective, efficient, and innovative.
- 3. Professional development allows for increased skill development and the development and application of best practices.

Indicator of Success:

- 1. Overall increase of engagement survey scores.
- 2. Development and initiation of training and development plans within the Annual Performance Summary process for all CAM employees.

Action Plan:

- 1. Provide department wide training in the '5 Behaviours of a Cohesive Team' course.
- 2. Provide department wide training in the Everything DiSC course.
- 3. Conduct Annual Performance Summary discussions with each CAM employee and develop personalized training and development plans.

| | - | - | - | - | - | - | | |
| Cash Requirements | 3,845 | 5,754 | 6,694 | 7,686 | 7,239 | 7,454 | 1,700 | |

Highlighting items over \$50,000 (Municipal) / \$100,000 (Utilities & Energy) - incremental annual increases or decreases in the current operating budget requests are primarily due to the following factors: (in thousands of dollars)

| Financial Plan | Reason | 2019 \$ | 2020 \$ | 2021 \$ | 2022 \$ |
|---------------------|---|-------------------|------------|------------|-----------------|
| Summary Ref. No. | | | | | |
| 1 | Decrease because Facilities is no longer billing for 3rd party | \$73 | (\$3) | (\$3) | (\$3) |
| 1 | electric requests, and is instead directly charging to electric | \$75 | (53) | (53) | (55) |
| 2 | Increased fleet recoveries so that amounts intended for the fleet | (\$271) | (\$118) | (\$250) | (\$170) |
| | reserve are no longer subsidizing fleet operations | , | | | (1 - 7 |
| 3 | Increase is due to reorganization of ET group joining CAM, as well | \$263 | \$40 | \$109 | \$111 |
| | as 2 new HVAC technicians, and inflation | | | | |
| 4 | Increase is primarily related to increased fuel prices in Fleet, and | \$636 | (\$10) | \$0 | \$0 |
| | partly due to expenses reallocated from materials and supplies | | | | |
| 5 | Decrease is the result of Facilities expense decreases and partly | (\$700) | \$95 | \$88 | (\$1) |
| | due to expenses reallocated to contracted services | 4 | 1 | (4.5) | + |
| 6 | Change in loan payments is the result of ET reorganization, and | \$949 | \$44 | (\$12) | \$99 |
| - | projected payments of past and current approved TCA's | ¢220 | 6427 | 6440 | ¢400 |
| 7 | Change in loan payments in the result of ET reorganization, and | \$330 | \$137 | \$118 | \$108 |
| 8 | projected payments of past and current approved TCA's | (¢066) | \$718 | /¢F01\ | \$34 |
| 0 | Increase primarily related to an increased transfer to the fleet reserve, so that the reserve does not subsidize fleet operations | (\$966) | \$/10 | (\$581) | Ş5 4 |
| 9 | Increased charges received from other departments, out of CAM's | \$528 | \$123 | \$81 | \$59 |
| | control | 7320 | 7123 | 701 | 733 |
| | Total Annual Change | \$940 | \$992 | (\$447) | \$215 |
| | (Year over Year) | | | | - |
| | Total 4 Year Change | | | | \$1,700 |
| | Base 2018 budget to Year 4 (2022) | | | | |

Capital Plan Summaries

The major capital projects for the current Business Plan Years are listed in summary format in the tables below.

Refer to Section II Corporate Multi-Year Capital Plan for a detailed listing of the proposed capital projects and the related funding plans.

TCA Decision Package Summary

Refer to the Corporate Multi-Year Capital Plan for detailed information on each decision package.

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| | Voy Poculto |
|------------------|---|
| Code | Key Results |
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend |
| | subsidies to the municipal operating budget by a further target of \$12 million during the 201 9-2022 budget term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| 1111 212 | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| | innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual |
| | with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| | funded either by dedicated reserves or projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and |
| | responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more |
| | effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, |
| VD 2 4 | specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for |
| KR 2.5 | municipal purposes, with a focus on intensification and private development. |
| | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 KR 2.8 | Evaluate and recommend solutions to expand campground capacity. Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| KK 2.0 | to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| KN 3.1 | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and |
| 1111 3.2 | development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| - | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |
| | |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
|--------|---|
| VD 4.2 | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support |
| | Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of |
| | succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as |
| 3. 1 | financial stewardship. |
| | manda sterra damp. |

Prior Year Service/Program Highlights and Achievements

| Council Priority | Key Result | Highlights/Achievements |
|-------------------------|------------|---|
| 6. City Government | KR 6.4 | Promoting a positive work culture included health & safety as agenda topic increased engagement score from prior year conducted semi-annual Finance Connect sessions achieved safety audit score |
| 6. City Government | KR 6.4 | Succession planning new Managers in place (City Assessor, Treasury, Supply Chain) retirement arrangement/transition for key positions |
| 6. City Government | KR 6.3 | Assessment Assessor Correction procedure new Amended MGA – including transfer of DI Properties to Municipal Affairs recalibration of NR retail lease rates (taking into account locations, effective age and size) |
| 5. Fiscal Management | KR 5.1 | Financially Fit for the Future closed funding gap by \$7.0 million in 2017/18 budget will utilize framework to guide 2019-2022 budget – target to reduce funding gap by a further \$10.5 million |
| 5. Fiscal Management | KR 5.1 | Accounting GFOA Financial Reporting award - 15th year in a row changed reporting frequency to tri-annual implemented PSAB standards and achieved clean audit report for 2017 |
| 6. City Government | KR 6.3 | Agresso implementation – October 2017 go-live tremendous support by each business lead, process lead and employees in Finance Enterprise System Governance Committee (ESGC) and Enterprise System Management Committee (ESMC) established |
| 6. City Government | KR 6.1 | Investment strategy introduced Investment Review Panel which includes CMH staff and 3 independent members AIMCo. engaged as equity investment manager - \$132 million invested |

| | | Heritage Savings Reserve endowment |
|--|--------|---|
| | | created and funded (\$1 million seed and \$2.3 million dividend from Genco) |
| | | preparing for recruitment of active bond manager = target \$100 million |
| 6. City Government | KR 6.3 | Systems & Billing Implemented: 1) MCAF line item on utility statement 2) Electric Capacity Fee on utility statement 3) Annual service fee increases for utilities, tax and AR on the notices 4) monthly rate charges 5) Consumption Billing 6) CSM upgrade CSM V12.32 to V16.39 7) At least seven system improvements 8) 92% Customer Satisfaction Response to Billing 9) Carbon Levy |
| | | added to utility statement 10) curbside recycling, 11) heat map included on utility statement - billed and collected utilities (400,000 bills/\$125 million revenue); property/business taxes (29,000 bills/\$96 million revenue) and accounts receivable (27,000 bills/\$15 million revenue) |
| 6. City Government | KR 6.3 | Customer Service & Collections 1) 89% Annual Call Centre Grade of Service with a 4% Call Abandoned Rate assisting 73,000 customers 2) 100% compliance rate with 2X14 guidelines responding to 1,433 customers.3) 98% customer satisfaction rate.4) All staff completed City mandatory Health & Safety training, Agresso training, Intelex training, Onbase training, and 5 other external training development opportunities were utilized. 5) at least 7 customer service improvements. 6) completed remote load limiting disconnections 7)Increased eBilling enrolment to 20,.3% of customer base 8) Revenue collection for \$125 million in utilities, \$96 million in taxation and \$15 million in AR |
| 3. Social Wellness, and 5. Fiscal Management | N/A | - CS & Collections administered 308 Hat Smart Scratch & Win Tickets resulting in \$18,510 in customer rebates at the counter. - CS & Collections participated in community outreach and education on utility charges, disconnections, payment arrangements, deposits and conservation. Attended Project Connect, Spring & Fall Trade Shows & Social Agency meetings. - Community Warmth contributions were |

| | \$28,998 in 2017 to assist customers faced with |
|--|---|
| | utility disconnection. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|---|--|--|
| Funds not available to meet future obligations | Insufficient organizational working capital to fund obligations including asset retirements and abandonment, landfill, contaminated sites, intercompany accounts, CORVUS Model for Offsite Levies. | Establish a formal abandonment & reclamation reserve (currently there is not enough capital available to fully fund this reserve) as well consider strategic disposal of net oil & gas assets. Annual update of CORVUS Model (Finance and Planning and MW) |
| Employee turnover | Results in loss of knowledge and continuity, more pressure and workload on remaining employees, quality control. | Promote a positive culture - promote a safe working environment - improve employee engagement. Cross Train employees allow backup (bench strength of two deep) to ensure more than one person knows the job. |
| Succession Planning | Upcoming retirements pose a risk. Vital experience and knowledge may be lost due to sudden or fatal illness prior to transferring over knowledge of some specialized areas- work process - not necessarily documented - no cross training/pool of skills. | More flexibility to allow for overlap of succession planning - developing key employees. Define the key positions and prepare succession planning. Document process and procedures. |
| Training of New Staff | When training a large number of new staff: - no set program such as larger centers have - no dedicated staff for training greater chance for errors while multi-tasking between job duties and training. | It is important to review documented policy and procedural manuals for each key position – should be principle based (list of considerations). Agresso provides work process for each module. |
| Security at City Hall | Injury, loss of assets including cash. | Implementation of security audit - e.g. more cameras and layout - restricted access. |
| Financial Market Risk - volatility causes investment loss - AIMCo - Interest Rate risk - Inflation risk - Portfolio risk - Asset allocation | Investments with AIMCo. Borrowing costs & bond investments Maximizing return on investment (inappropriate - portfolio investment asset allocation) | Investment policies exist to mitigate and control risk. Portfolio is well diversified. Externally managed funds are professionally managed. Monthly review of investment results exists. Assets allocation is a risk - determine if it is appropriate. |

| Reliance on Major Systems | Few key individuals that know Flex- | Obtain organizational prioritization of |

| | | resources. |
| | | |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety – Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Positive work culture – engaged employees

Rationale:

- 1. Results in job satisfaction, productivity and lower turnover
- 2. Promotes a safe workplace, both physical and psychological
- 3. Ensures alignment to corporate objectives, goals and values

Indicators of Success:

- 1. Annual Employee Engagement score > Finance (prior year); > CMH (current year); top quartile performance compared to benchmark municipalities
- 2. Ability to execute Finance goals including HSE: TRIR = 0; LTIR = 0
- 3. Employee attendance at semiannual Finance Connect > 80%; topics are relevant measured by survey

Action Plan:

- 1. Annual Engagement Survey employee participation
- Talent Management workforce planning and development plans for key individuals (develop the next generation of leaders) as well as promotion of internal candidates, succession planning and projects
- 3. Five Behaviours of a Cohesive Team rollout framework to work groups

Strategic Objective B: Efficient and effective business processes and practices that determine how work is performed – define, document and review

Rationale:

- 1. Creates employee capacity allows for growth in business through efficiencies
- 2. Strengthens internal controls
- 3. Stewardship of resources to residents
- 4. Improve methodologies for corporate business planning, prioritization, resource alignment, and communication strengthen integrated planning approach

Indicator of Success:

- Achieve business outcomes for CMH and customers (the desired outcomes should guide the process) – easy to understand, streamlined and advanced knowledge transfers – utilization of surveys
- 2. Reduce expenses, manage growth through efficiencies
- 3. Fraud opportunities limited, cross-trained key areas

Action Plan:

- Utilize a tiered principle-based framework for policy development (big picture, guidelines) –
 provides flexibility to do the right thing. Complete two in-depth reviews of a service area (e.g.
 Value for Money (VFM), Special Areas of Focus, Core Service Review, Business Process
 Review, Procurement / Investment / Dividend / Abandonment / Aging Infrastructure
 policies).
- Create catalogue of work process/practice establish criteria to examine annually review one core work process/practice per work group (cross functional focus and consider the impact to other groups)
- 3. Utilize technology to create employee knowledge library (On Base, Intranet)
- 4. Lead Municipal Budget Advisory Committee (MBAC) initiative to identify service level savings/revenue options including impact and risks. Support development and execution of required public engagement plans. Provide recommendations to respective Standing Committees and Council.

Strategic Objective C: Leverage technologies – provide improved/alternative methods to deliver services

Rationale:

- Meeting customer expectations embracing smart technologies to provide increased service levels
- 2. Provides flexibility for customers provide alternatives to brick and mortar model of delivering services
- 3. Creates employee capacity simplify tasks

Indicator of Success:

- Reduced number of in-person customer contacts at the counter service desk (20% over 4 vears)
- 2. Increased computer accessibility of services for residents
- 3. Online and smart technologies utilized for customer use

Action Plan:

- 1. Enhance use of external CMH website as self-service customer service education and knowledge centre
- Prepare a plan to optimize current systems (Agresso/Business World, Flexsuite, CAMALot, Cogsdale, Customer Web) for new functionality
- 3. Create destination places for customers (Virtual City Hall 24/7 access and leverage other City facilities and staff) prepare strategic plan for Enterprise System Governance Committee (ESGC) approval

Strategic Objective D: Financial responsibility of balance sheet – investments, debt, reserves, infrastructure assets – in support of short and long-term sustainability of the City

Rationale:

- 1. Stewardship of resources to residents
- 2. Capital preservation
- 3. Long-term sustainability

Indicator of Success:

- 1. Investment returns > industry benchmark
- 2. Debt and debt service < MGA limits
- 3. Obligations fully funded by formal reserves

4. Support corporate goals: reduction of \$1.6M in Service Level Adjustments, revenue increase of \$1.0M from fees and charges, balanced budget with general inflation offset by cost containment of \$1.9M within 2019-2022 Budget.

Action Plan:

- 1. Prepare an inventory of Finance related infrastructure assets and develop a 10 year capital improvement program
- 2. Develop and maintain a 10 year consolidated cash flow forecast (capital, operating, distributable cash)
- 3. Establish a sustainable consolidated dividend policy
- 4. Use Risk Management Framework and Risk Register to foster a supportive environment that will encourage risk-informed decision making to be incorporated into key business and operational processes and spending allocation.
- 5. Build upon the Risk Management Plan, complete Risk Register: trigger for review, assignment of risk assessment team, identification of potential risks, application of matrix, reach consensus, apply final risk scores, determine intervention, and communicate changes.

Strategic Objective E: Financial reporting – complete, accurate, timely, relevant and easy to read

Rationale:

- 1. Compliance with MGA and accounting standards (PSAB and IFRS)
- 2. Valuable information to Senior Leadership to facilitate making good business decisions
- 3. Transparency to public

Indicator of Success:

- 1. GFOA award
- 2. On-time and relevant reporting
- 3. Clean audit report

Action Plan:

- 1. Enhance UBW reporting functionality including interim consolidated financial reports
- 2. Reinforce proper general ledger account coding to the correct "cost collection bucket"
- 3. Management training for financial and variance analysis
- 4. Evaluate cost recovery internal allocations methodology before next budget cycle to balance efficiency, logic, transparency, and equitable distribution.

Strategic Objective F: Property assessments fair and equitable – tax environment stable and predictable

Rationale:

- 1. MGA compliance and audit recommendations
- 2. Taxpayer expectations
- 3. Meet revenue budget (municipal) and other requisition requirements (Education, Cypress View Foundation, DI Properties)

Indicator of Success:

- 1. Annul declaration of Assessment Roll through meeting ASSET standards and requirements
- 2. Fair and equitable assessments prepared and declared by February 1
- 3. Number of complaints overturned by ARB municipal tax impact < \$500k

Action Plan:

- 1. Enhance use of technology through use of CAMALot and handheld tablets, CMH internet, self-service options for tax payers
- 2. Create processes and mechanisms to establish stable tax environment for individual property owners
- Establish strong relationships with stakeholders including: Chamber of Commerce and MH Real Estate Board
- 4. Anticipate, communicate and implement new legislation changes

Strategic Objective G: Effective and efficient delivery of Finance services – with a focus on operations

Rationale:

- 1. To enable operations to achieve their goals
- 2. City stands out as a well governed and efficient organization
- 3. To be able to supply our residents with a high service level

Indicator of Success:

- 1. Internal customers satisfied with delivery of Finance services survey results favorable vs. prior year
- 2. Cost saving by reducing duplication of work and inefficiency
- 3. Provide an external Call Centre Grade of Service greater than 70% for residents

Action Plan:

- 1. Setting and communicating Service Level Standards and develop the customer satisfaction survey
- 2. Establish Key Performance Indicators and include in tri-annual management reports
- 3. Ensure internal call centre staff are trained and have information from other departments
- 4. Support Utilities and other departments in their 2019-2022 initiatives related to billing, invoicing and payment processing (including Financially Fit Objectives related to MCAF, Service Fee increases, etc.)

| | | SU | IMMARY OF STRATEGIC OBJECTIVES | | |
|--|-----------------------------------|-----------------------|--|-----------------------------|--------------------------------------|
| Objective Name | Council's Strategic Priority (SP) | Key Result (KR) | Action Plan | Assigned To (Subdepartment) | Timeline |
| Positive work culture – engaged employees | 6. City Government | KR 6.2, KR 6.3 | Annual Engagement Survey – employee participation Talent Management - workforce planning and development plans for key individuals (develop the next generation of leaders) as well as promotion of internal candidates, succession planning and projects | All | December 2019 December 2020 |
| | | | Five Behaviours of a Cohesive Team – rollout framework to work groups | All | December 2020 |
| Efficient and effective business processes and practices – define, document and review | 1. Fiscal Responsibility | KR 1.2, KR 1.3 | Utilize a tiered principle-based framework for policy development (big picture, guidelines) – provides flexibility to do the right thing. Complete two in-depth reviews of a service area (e.g. Value for Money (VFM), Special Areas of Focus, Core Service Review, Business Process Review, Procurement / Investment / Dividend / Abandonment / Aging Infrastructure policies). | All | December 2019 |
| | | | Create catalogue of work process/practice – establish criteria to examine – annually review one core work process/practice per work group (cross functional focus and consider the impact to other groups) | All | December 2021 |
| | | | Utilize technology to create employee knowledge library (On Base, Intranet) | All | December 2021 |
| | | | Lead Municipal Budget Advisory Committee (MBAC) initiative to identify service level savings/revenue options including impact and | Dennis | December 2019 |

| | | | risks. Support development and execution of required public engagement plans. Provide recommendations to respective Standing Committees and Council. | | |
|---|-----------------------------|--------|---|--|---|
| Leverage technologies – provide improved/alternative methods to deliver services | 6. City Government | KR 6.1 | Enhance use of external CMH website as self- service customer service education and knowledge centre Prepare a plan to optimize current systems (Agresso/Business World, Flexsuite, CAMALot, Cogsdale, Customer Web) for new functionality Create destination places for customers (Virtual City Hall 24/7 access and leverage other City facilities and staff) - prepare strategic plan for Enterprise System Governance Committee (ESGC) approval | Customer Service, Supply Chain, Assessment All Customer Service, Systems Billing, Assessment | December 2020 December 2019 December 2020 |
| Fiscal responsibility of balance sheet in support of short and long-term sustainability of the City | 1. Fiscal Responsibility | KR 1.1 | Prepare an inventory of Finance related infrastructure assets and develop a 10 year capital improvement program Develop and maintain a 10 year consolidated cash flow forecast (capital, operating, distributable cash) | All | December 2019 December 2019 |
| | | | Establish a sustainable consolidated dividend policy Use Risk Management Framework and Risk Register to foster a supportive environment that will encourage risk-informed decision making to be incorporated into key business and operational processes and spending allocation. Build upon the Risk Management Plan, complete Risk Register: trigger for review, assignment of risk assessment team, identification of potential risks, application of matrix, reach consensus, apply final risk scores, determine intervention, and communicate changes. | All All | December 2019 December 2020 December 2020 |

Financial Plan Summary & Highlights

Financial Summary (in thousands of dollars)

| Revenues | Prior Year Actuals 2017 | Current Year Budget 2018 | Budget Request 2019 | Budget Request 2020 | Budget Request 2021 | Budget Request 2022 | Change 2018 - 2022 | Reference No. |
|-------------------------------------|-------------------------------|--------------------------------|---------------------------|---------------------------|---------------------------|---------------------------|-----------------------|------------------|
| Investment Earnings | 39 | - | - | - | - | - | - | |
| Sale of Goods & Services | 562 | 493 | 631 | 635 | 639 | 649 | (156) | 1 |
| Other Operating Revenue | 205 | 185 | 209 | 209 | 209 | 209 | (24) | |
| Internal Recovery | 7,866 | 8,198 | 7,561 | 7,807 | 8,036 | 8,277 | (79) | 2 |
| Total Revenues | 8,672 | 8,876 | 8,401 | 8,651 | 8,884 | 9,135 | (259) | |
| Expenses Salaries, Wages & Benefits | 7,997 | 8,060 | 8,175 | 8,331 | 8,497 | 8,674 | 614 | 3 |
| Contracted Services | 464 | 3,599 | 3,133 | 3,291 | 3,408 | 3,581 | (17) | |
| Materials, Goods & Supplies | 756 | 256 | 244 | 251 | 249 | 245 | (12) | |
| Other Operating Expenses | 27 | 53 | 53 | 53 | 53 | 53 | (0) | |
| Internal Loan Payments | 28 | 20 | 38 | 39 | 40 | 41 | 21 | |
| Interest Expense | - | 61 | 72 | 74 | 76 | 78 | 16 | |
| Transfers to MOE, TCA, Reserves | (63) | 375 | 120 | 296 | 56 | 1,129 | 754 | 4 |
| Internal Charges & Transfers | 4,011 | 921 | 1,244 | 1,267 | 1,287 | 1,311 | 390 | 5 |
| Total Expenses | 13,220 | 13,345 | 13,079 | 13,601 | 13,666 | 15,112 | 1,767 | |
| Cash Requirements | 4,548 | 4,469 | 4,678 | 4,950 | 4,782 | 5,977 | 1,508 | |

Highlighting items over \$50,000 (Municipal) / \$100,000 (Utilities & Energy) - incremental annual increases or decreases in the current operating budget requests are primarily due to the following factors:

(in thousands of dollars)

| Financial | Reason | 2019 | 2020 | 2021 | 2022 |
|-----------|---|---------|---------|---------|---------|
| Plan | | \$ | \$ | \$ | \$ |
| Summary | | | | | |
| Ref. No. | | | | | |
| 1 | Increase because disconnect/reconnect fees were previously included with internal recoveries, and are now recorded as sale of services | (\$138) | (\$4) | (\$4) | (\$10) |
| 2 | Decrease primarily related to reduced insurance expense and therefore reduced recoveries, as well as disconnect/reconnect fees which have been reclassified to sale of services – offsetting increase reflects recoveries from energy/utilities for their share of operating expenses | \$637 | (\$246) | (\$229) | (\$241) |
| 3 | Increase due to salary inflation | \$115 | \$156 | \$166 | \$177 |
| 4 | Increase is a result of approved TCA's and MOE's in the current budget period | (\$255) | \$176 | (\$240) | \$1,073 |
| 5 | Increase primarily related to previously unbudgeted postage interdepartmental expense from ICS mailroom | \$323 | \$23 | \$20 | \$24 |
| | Total Annual Change (Year over Year) | \$209 | \$272 | (\$168) | \$1,195 |
| | Total 4 Year Change Base 2018 budget to Year 4 (2022) | | | | \$1,508 |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|---------|--|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend |
| KIN 1.1 | subsidies to the municipal operating budget by a further target of \$12 million during the 2019-2022 budget |
| | term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| | innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual |
| | with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| CD C | funded either by dedicated reserves or by projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and |
| VD 2 2 | responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more |
| VD 2 2 | effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for |
| KN 2.4 | municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| | to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and |
| | development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
|--------|---|
| | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support |
| | Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of |
| | succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as |
| | financial stewardship. |

|---|--|--|
| Employee Services - Areas of responsibility include payroll, benefits, occupational health and wellness, disability management and claims administration | City Council, Senior Management, Organizational leaders at all levels, Active and Retired Employees and their families, Unions and the HR Team. External relationships with Benefit Carriers, Consultants, Medical Professionals, Health Practitioners, WCB, and Government Agencies including the CRA and HRSDC | 10% reduction in average number of days from the employee's first day off to their return to full duties (compared to previous approach) 10% reduction in average number of days from the time an employee's medical is received from the doctor to when the employee starts their MRTW plan (compared to previous approach) |
| Employment and Development – Support hiring managers with efficient and effective staffing. | City Council, Senior Management, Organizational Leaders at all levels, Employees, Unions, HR Team, and the public. Maintain relationship with external organizations. (Search Firms, other Municipalities, and Community based organizations, Universities and Colleges, Apprentice Boards etc.) | Recruitment activity – includes employer competitions comparisons year to year, new hires, percentage of turnover rates. |
| Organization development: provides advice/coaching and guidance to organization leaders in support of evolving the organization and its culture. This includes organization design, assessments, training, succession planning, change leadership, staff development, Coaching and employee recognition | City Council, Senior Management, Organizational Leaders at all levels, Employees, Unions, and other HR work groups. Foster and maintain relationships with external organizations. | N/A |

Prior Year Service/Program Highlights and Achievements

| Council Priority | Key Result | Highlights/Achievements |
|-------------------------|------------|---|
| 5. Fiscal Management | KR 1.1 | The City's collective agreements were negotiated with a 0% salary increase for 2017. |
| 6. City Government | KR 6.3 | Solicited leadership team input, finalized approval and began development of Management Growth Program. |
| 6. City Government | KR 6.2 | Provided support and implementation of the City's Enterprise Resource Planning system without any significant errors or issues related to accurately producing payroll. |
| 6. City Government | KR 6.3 | Initiated the formation of corporate wellness committee. Launched the organizational wellness brand and hosted an employee wellness fair focused on engaging staff in living a healthy lifestyle. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|---------------------------------|---|---|
| Respectful Workplace Complaints | Increase in number and complexity of | Support leaders to create a culture |
| are increasing | respectful workplace investigations or | that embodies a respectful workplace. |
| | lack of reporting puts the City at risk | Continue to train and/or coach |
| | for litigation or intervention from | supervisors, management and |
| | outside agencies | leadership on recognizing and |
| | | intervening in situations that may lead |
| | | to respectful workplace complaints. |
| | | Continue to conduct thorough |
| | | investigations into complaints and |
| | | provide supports to achieve any |
| | | recommended improvements. |
| | | Continue employee engagement |
| | | surveys and capitalizing on corporate- |
| | | wide strategies to improve identifiable |
| | | challenges and/or risks. |
| Recruitment Challenges / | Failure to recruit or provide support to | Finalize the development and |
| Succession Planning | departments in developing succession | implementation of the Organization |
| | plans results in lack of qualified talent | Design & Development Framework |
| Increasing Benefit Costs | Increased benefit costs result in the | Focus on reviewing existing benefit |
| | need for the organization to decrease | plans and income replacement and |
| | costs elsewhere or pass along the | look for opportunities to reduce costs |
| | benefit costs to employees. | and provide flexibility for employees. |

| Collective Agreements | Failure to negotiate agreement results in strike/lockout. Failure to negotiate agreements within financial constraints results in unsustainable cost escalation | Continue to work with unions to develop an understanding on financial constraints and pursue collaborative solutions |
|--|--|--|
| Reporting to WCB | Failure to report in 72 hour window results in increases to premiums | Continue to educate departments, in conjunction with HSE, on the importance of timely reporting |
| Lack of overall clear and consistent Organization Development and People Leadership Strategy | Without an overarching and fulsome strategy at a corporate level, the organization experiences and risks inefficiencies, unnecessary turnover, increased internal complaints, disengaged employees, difficult labour/management climate. | Champion, recommend and support the implementation of a clear and consistent corporate-wide strategy. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example,
 "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Leading Corporate-Wide HR Strategies

Rationale:

- 1. There is an imbalance between the expectation that HR will lead corporate-wide HR strategy(s) and the current reactive, task-oriented HR services delivery.
- 2. The organization faces unprecedented financial challenges, corresponding pressures for significant changes, increased complexity of HR-related issues and the demographic realities of

- workforce recruitment and retention. Wise investment in HR strategies (particularly Org. Design & Development) will be cornerstone in supporting the organization to meet these challenges.
- 3. The 'function and form' of the HR Department requires adjustment to enable leading of strategies, shifting to a broader internal 'consultant/facilitator' service model and still effectively and efficiently providing numerous traditional HR services.

Indicator of Success:

- 1. HR is well-connected to the organizations senior-level strategic discussions and processes and provides valued organizational 'surveillance' information, inquiry, advocacy, strategic recommendations and/or facilitation to such forums.
- 2. HR consulting/facilitation services, at the pre-concept stage of changes, enables Departments, and the organization as a whole, to be better-positioned to deal with significant change initiatives.
- HR's structural form leverages a revised and sustainable balance of functions leading corporate-wide HR strategies, pre-concept consultant/facilitation services and traditional HR services.

Action Plan:

- Promote and establish ideal 'forum' for HR connectivity to senior organizational strategy discussions and processes – and provide valued contributions to corporate-wide HR strategies and solutions.
- 2. Promote and establish a model and processes that enable pre-concept consultation/facilitation services for leading org. design & development, recruitment & retention, change leadership, management growth, labor relations, etc.
- 3. Develop and implement HR Department adjustments to sustainably address a revised balance of HR strategies, consultation/facilitation and traditional services.

Strategic Objective B: Evolve strategic organization development for the corporation to sustain and/or better enable the efficient and effective delivery of services to citizens and internal clients.

Rationale:

- 1. Staff are being asked to find innovative ways to conduct work and reduce costs. Organizational Design and Development processes require consistent structure, longer-term lens and fulsome approach at a Corporate level to properly support staff to achieve challenges.
- 2. An aging workforce means that a turnover of key staff will continue to occur and the City must invest strategically in organization development to ensure staff are supported at existing roles, prepared for new roles and new staff are well oriented/prepared.
- 3. The City must compete with other organizations in an effort to attract and retain qualified staff. Having an organized, methodical approach to organization development (including talent-

management) is key to ensure organizational efforts are being directed at the areas with highest return.

Indicator of Success:

- 1. The organization resiliency is enhanced and is able to seamlessly promote internal candidates (as applicable) into senior positions as they become vacant.
- 2. A robust organization development plan is established, promoting and supporting organization design, knowledge transfer, succession plans, staff development, talent management activities, etc
- 3. The organization is able to adapt to changes in leadership and staffing, with sustained or improved employee engagement outcomes.

Action Plan:

- 1. Use current data and organization assessment information to finalize an organization development framework and action plan -2019.
- 2. Implement organization development framework actions with a specific focus on highest risk areas. Includes the development of a wellness strategy and a review of our annual engagement survey to determine if best practices are being utilized. 2020 onwards
- 3. Continuous review of actions-to-outcomes, adjusting the framework and actions where applicable.

Strategic Objective C: Cost Containment – HR Influenced

Rationale:

- 1. Aligned to the Financially Fit Initiative, the City must contain costs and find efficiencies, where available
- 2. Increasing costs of sick leave benefits and medical/dental benefit costs requires a closer examination for efficiencies.
- 3. There is an imbalance between the expectation that HR will lead corporate-wide HR strategy(s) and the current reactive, task-oriented HR services delivery

Indicators of Success:

- 1. Corporate approach and practice of disability case management is updated, reflective of leading standards and practices and is reducing overall employee time away from work.
- 2. Collective Agreements negotiated within approved mandate and the City's ability to pay
- Workforce related costs are contained or reduced through a corporate-side strategic approach
 for labor relations, including collaboration with unions, careful review of current practices and
 long-term planning around negotiations

Action Plan:

- 1. Review, update and revise corporate approach and practice of disability case management.
- 2. Through an established 'forum' for HR connectivity to senior organizational strategy discussions and processes recommend corporate-wide labor relations-related strategies and opportunities toward achieving a Council mandate (including external market comparators, clarity of Financially Fit initiatives/challenges to reduce costs while not negatively impacting ability to attract and retain key staff). Manage collective bargaining within approved mandate.
- 3. Implementation of workforce-related Financially Fit initiatives 2020

Strategic Objective D: Using Workforce Data to Enable Improved Analysis and KPI's

Rationale:

- 1. The implementation of the Enterprise Resource Planning system provides a greater opportunity to access and report on workforce data
- 2. The ability to develop forward-looking (leading) indicators requires a greater need to access workforce data for scenario planning
- 3. Departmental operating strategies, costs and potential changes would be enhanced with greater access to workforce data

Indicator of Success:

- 1. Departments are able to draw on reports and manipulate data that assists in scenario planning
- 2. Human Resources develops HR-specific KPI's and is positioned as a business partner to assist other departments with KPI's and in scenario planning utilizing real-time workforce data
- 3. General Managers have an increased accountability for workforce-related costs in their operations and have ability to access data

Action Plan:

- Continue to work with the Continuous Improvement Team and engage outside contractors, where needed, to develop workforce-related reporting through the Agresso ERP system.
 Support implementation of additional modules that were not scoped-in during the implementation.
- 2. Develop an educational strategy so operating departments are fully able to access information for planning purposes and to support change management.
- 3. Human Resources staff develop a plan to prioritize and reduce lower priority work so they are able to fully-engage in operating department planning activities.

Strategic Objective E: Organizational Value and Succession Proposition for Employment

Rationale:

- 1. City of Medicine Hat competes for talent with other organizations locally, provincially and interprovincially. The organization needs to strategically examine its employment succession requirements (needs-to-availability internal and external), compensation challenges and its ability to attract employees to live in/return to Medicine Hat.
- 2. Recruitment for mid-management positions is proving to be increasingly difficult. These positions are critical as they represent development positions for future Senior Leadership Team members.
- Improved internal development opportunities and pathways could provide greater intrinsic organizational value while also creating greater balance of internal/external recruitment requirements.

Indicator of Success:

- 1. Organizational clarity of employment needs, gaps, compensation variables, marketability, etc.
- 2. Organizational strategy that articulates community, organization and employment 'value' while balancing internal employee development and succession with external recruitment.
- Organization is able to internally promote, externally attract and overall retain a talented workforce positions. The time to fill middle management time is reduced and there is a 10-year future approach to developing a target audience for recruitment advertising

Action Plan:

- 1. Develop a succession strategy for the organization, with immediate-term focus on midmanagement and difficult-to-fill positions.
- 2. Collaborate with Corporate Communications, and Corporate Services team generally, to develop a value proposition that reflects current and relevant community and organization information and branding towards a multi-year plan for targeted recruitment that reflects organizational employment challenges.
- 3. Capitalize on Organizational Development Strategic Objective 'B', to develop and accelerate internal succession planning and employee development opportunities.

| | SUMMARY OF STRATEGIC OBJECTIVES | | | | | |
|---|---|-----------------------|--|---|------------------------|--|
| Objective Name | Council's Strategic Priority (SP) | Key Result (KR) | Action Plan | Assigned To (Subdepartment) | Timeline | |
| Cost Containment | 1. Fiscal Responsibility | KR 1.1 | Update and revision of disability claims management processes Recommend corporate-wide labor relations-related strategies and opportunities toward achieving a Council mandate Bargaining — manage collective agreement negotiations within Council mandate and review jurisdiction of unionized positions to ensure alignment with correct bargaining unit | Employee Services GM and Labor Relations | April 2019 April 2022 | |
| | | | Workforce-related Financially Fit initiatives fully implemented | GM | April 2020 | |

| | | | Develop strategy to strengthen relationships with external search firms to assist in marketing the City as an employer of choice | Employment and Development | December 2020 |

Financial Plan Summary & Highlights

Financial Summary (in thousands of dollars)

| Revenues | Prior Year Actuals 2017 | Current Year Budget 2018 | Budget Request 2019 | Budget Request 2020 | Budget Request 2021 | Budget Request 2022 | Change 2018 - 2022 | Reference No. |
|---------------------------------|-------------------------------|--------------------------------|---------------------------|---------------------------|---------------------------|---------------------------|-----------------------|------------------|
| Sale of Goods & Services | 92 | - | = | ı | - | - | - | |
| Other Operating Revenue | 149 | 175 | 195 | 200 | 205 | 210 | (35) | |
| Internal Recovery | 1,734 | 1,675 | 2,051 | 2,087 | 2,120 | 2,155 | (480) | 1 |
| Total Revenues | 1,975 | 1,850 | 2,246 | 2,287 | 2,325 | 2,365 | (515) | |
| Expenses | | | | | | | | |
| Salaries, Wages & Benefits | 2,348 | 2,593 | 2,908 | 2,964 | 3,017 | 3,080 | 487 | 2 |
| Contracted Services | 525 | 802 | 1,126 | 1,129 | 1,132 | 1,133 | 331 | 3 |
| Materials, Goods & Supplies | 60 | 90 | 94 | 94 | 94 | 94 | 4 | |
| Internal Loan Payments | 73 | 76 | - | - | - | - | (76) | 4 |
| Transfers to MOE, TCA, Reserves | 193 | - | (257) | (243) | (229) | (215) | (215) | 5 |
| Internal Charges & Transfers | 366 | 357 | 231 | 236 | 240 | 243 | (114) | 6 |
| Total Expenses | 3,563 | 3,919 | 4,101 | 4,181 | 4,254 | 4,336 | 417 | |
| Cash Requirements | 1,589 | 2,068 | 1,855 | 1,894 | 1,930 | 1,971 | (98) | |

Highlighting items over \$50,000 (Municipal) / \$100,000 (Utilities & Energy) - incremental annual increases or decreases in the current operating budget requests are primarily due to the following factors:

(in thousands of dollars)

| Financial Plan Summary | Reason | 2019 \$ | 2020 \$ | 2021 \$ | 2022 \$ |
|------------------------|--|------------|------------|------------|------------|
| Ref. No. | | (+) | (+) | (4) | (+) |
| 1 | Increase to HR training recoveries, based on 1% of salaries | (\$376) | (\$36) | (\$33) | (\$35) |
| 2 | Increases due to inflation, top rate bumps, and temp additions to Labour Relations and org Development, which are intended to, in part, draw on the Employee Development reserve | \$315 | \$57 | \$53 | \$63 |
| 3 | Increase due to required employee testing services and additional organizational development costs budgeted. This is being compensated by a draw on the Employee Development reserve | \$324 | \$4 | \$3 | \$1 |
| 4 | Decrease to internal loan payments is a result of past debts being repaid and no planned internal loan borrowings | (\$76) | \$0 | \$0 | \$0 |
| 5 | Transfer from reserve has increased as a result of budgeted training and wages that are to be funded by the Employee Development reserve | (\$257) | \$14 | \$14 | \$14 |
| 6 | Decrease in internal charges in primarily related to lower ICS recoveries, which is based on the number of computers | (\$127) | \$5 | \$4 | \$4 |
| | Total Annual Change (Year over Year) | (\$213) | \$38 | \$36 | \$41 |
| | Total 4 Year Change Base 2018 budget to Year 4 (2022) | | | | (\$98) |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|--------|--|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend |
| | subsidies to the municipal operating budget by a further target of \$12 million during the 201 9-2022 |
| | budget term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| | innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual |
| | with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| CD 2 | funded either by dedicated reserves or projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and responsibilities of all stakeholders. |
| KR 2.2 | |
| KK Z.Z | Implement systematic approaches to be "investment-ready" and "open for business" including more effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, |
| KI Z.J | specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for |
| = | municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| | to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and |
| | development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and commercial areas. |
|--------|--|
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and direct service provision of social services, including the distribution of Family and Community Support Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall to Athletic Field, which looks to capitalize on the synergies between recreational and economic development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, developing a public participation policy and creating new opportunities for the public to provide input and feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as financial stewardship. |

Prior Year Service/Program Highlights and Achievements

| Council Priority | Key Result | Highlights/Achievements |
|-------------------------|------------|---|
| 6. City Government | KR 6.1 | Workplace Inspection Program: The workplace inspection program was reviewed for effectiveness and as a result, the process is being integrated into Intelex. |
| 6. City Government | KR 6.1 | Hazard Assessment and Control Training: All departments received training on the City's Hazard Assessment and Control Process and the City's uptake on generic hazard assessment training has increased by over 50%. |
| 6. City Government | KR 6.1 | Contractor HSE Management: Contractor management engagement sessions have been completed and an effective process has been developed to include all critical contractor management components including: prequalification; communication of responsibilities; and auditing. |
| 6. City Government | KR 6.1 | Environmental Management System: The Integrated HSE Management System Roadmap conforming to ISO 14001 and ISO 45001 has been developed. 50% of the underlying Standards have since been developed and are awaiting department consultation/review. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|---|---|---|
| Increased environmental compliance obligations. Increased occupational health and safety compliance obligations. | Industry and the City are experiencing an increase in environmental regulatory pressures and obligations related to: air emission management; contaminated sites management; and environmental monitoring and reporting. Provincial occupational health and safety legislation continues to become more stringent and is expected to continue in the future. Increased requirements include: contractor management; psychological health | Specific to environmental compliance obligations, the City will develop and implement an integrated Corporate HSE Management System which conforms to the international standard for environmental management (i.e. ISO 14001). Specific to occupational health and safety compliance obligations, the City will develop and implement an integrated Corporate HSE Management System which conforms to the international standard for occupational health and safety |
| High frequency of motor vehicle incidents. | and safety; incident management; energy isolation; and training and competency. Motor vehicle incidents involving City vehicles has been identified as one of the City's highest frequency loss events. | occupational health and safety management (i.e. ISO 45001). An enhanced Transportation Safety Program has since been developed and will be implemented throughout the City departments which will include: consistent approaches to transportation safety compliance across the organization; training; and on-going monitoring. |
| Increased frequency and severity of regional emergency events across the Province. | The Province has experienced an increase in the frequency and severity of regional emergency events where regions require greater collaboration amongst themselves and the requirement for regions to be more self-sufficient during these events. | A provincially funded initiative will be undertaken in each region of the Province to increase the depth and competency of emergency operations centre (EOC) personnel. The City will lead the initiative throughout Southern Alberta. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety — Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Maintain a positive work environment and culture.

Rationale:

- 1. Increase job satisfaction, increase productivity and lower turnover.
- 2. Increase attraction to the City during the recruitment process.
- 3. Promote alignment to the corporate values.

Indicator of Success:

1. Increased favorable responses by 10% in future employee engagement surveys.

- 1. Conduct a minimum of one department team building session on an annual basis. Identify leadership development opportunities for personal growth and department succession planning on an annual basis.
- 2. Conduct quarterly professional development sessions, developed in-house.

Strategic Objective B: Develop and implement an integrated Corporate HSE Management System.

Rationale:

- 1. Demonstrate compliance with current and emerging HSE regulatory requirements.
- 2. Integrated HSE Management System including all components of an Environmental Management System.
- 3. Promote continual improvement of processes, systems throughout the City.
- 4. Increase involvement and engagement of employees with respect to HSE programs.
- 5. Promote a positive image with employees, customers and stakeholders.
- 6. Promote improved HSE performance for all City activities.
- 7. Improve cost control by providing streamlined, consistent approaches to managing HSE requirements.

Indicators of Success:

- 1. Decreased Total Recordable Incident Rate (TRIR) by 5% each year.
- 2. Decreased Lost Time Incident Rate (LTIR) by 10% each year.
- 3. Zero Level 3 or higher environmental spills/releases from City operations/activities as identified on the City's risk matrix.

Action Plan:

- Complete Phase 1 & 2 (HSE Management System Tier 1 Roadmap, Tier 2 Standards & Tier 3
 Codes of Practice) by August 2019.
- Complete Phase 3 & 4 (HSE Management System Tier 4 Department Gap Analysis & Communication/Overview of HSE Management to all City personnel by December 2020.
- 3. Complete Phase 5 Internal Audit & Management Review by April 2021.
- 4. Complete Phase 6 Gap Analysis of HSE Management System and investigate feasibility of ISO 14001/45001 certification by December 2021.

Strategic Objective C: Implement an enhanced Transportation Safety Program.

Rationale:

- 1. Enhance compliance with provincial commercial vehicle safety legislation.
- 2. Increase organizational awareness of commercial vehicle safety legislation obligations and responsibilities.
- 3. Promote consistency in the application of transportation safety requirements throughout the City.

Indicator of Success:

1. Reduction in the CMH's risk factor by 10% each year as identified on the City's Carrier Profile.

Action Plan:

- 1. Conduct training for impacted personnel and implement the Transportation Safety Program by April 2019.
- 2. Complete City department audits of the Transportation Safety Program by December 2019 (ongoing action).

Strategic Objective D: Organize and lead the provincially funded Regional EOC Support Team training and exercises for municipalities throughout Southern Alberta.

Rationale:

- 1. Increase public and responder safety by increasing the number and competency of available CMH EOC personnel.
- 2. Promote regional collaboration between municipalities during emergency events.
- 3. Promote consistency in the application of EOC processes across the region, allowing for efficient transition between EOCs when sharing personnel resources.

Indicator of Success:

1. Increased number of trained EOC personnel as listed on the City's EOC organizational chart by 50%.

- 1. Complete initial block 1 training (introductory EOC training), block 2 training (position specific EOC training), and block 3 training (emergency exercise) by April 2019.
- 2. Complete follow-up and refresher training by April of each year up to 2022 (dependent on provincial grant funding).

| SUMMARY OF STRATEGIC OBJECTIVES | | | | | | |
|---|---|-----------------------|---|--|------------------------------|--|
| Objective Name | Council's Strategic Priority (SP) | Key Result (KR) | Action Plan | Assigned To (Subdepartment) | Timeline | |
| Positive Work Environment and Culture | 6. City Government | KR 6.3 | Conduct a minimum of one department team building session. Identify leadership development opportunities for personal growth and department succession planning. | All | December 2019 December 2019 | |
| Corporate HSE Management System | 6. City Government | KR 6.4 | Complete Phase 1 & 2 (HSE Management System Tier 1 Roadmap, Tier 2 Standards & Tier 3 Codes of Practice). | Environmental Management / Health and Safety Development | August 2019 | |
| | | | Complete Phase 3 & 4 (HSE Management System Tier 4 Department Gap Analysis & Communication/Overview of HSE Management to all City personnel). | Environmental Management / Health and Safety Development | December 2020 | |
| | | | Complete Phase 5 Internal Audit & Management Review. | Environmental Management / Health and Safety Development | April 2021 | |
| | | | Complete Phase 6 Gap Analysis of HSE Management System and investigate feasibility of ISO 14001/45001 certification. | Environmental Management / Health and Safety Development | December 2021 | |

| | Base 2018 budget to Year 4 (2022) | | | | |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|--------|---|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend subsidies to the municipal operating budget by a further target of \$12 million during the 201 9-2022 budget term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost-effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely funded either by dedicated reserves or projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and development incentive program to facilitate strategic investment attraction to areas identified for development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
|--------|---|
| VD 4.3 | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support |
| | Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of |
| | succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as |
| | financial stewardship. |
| | and the seconds |

Technical Services | Application Services

DEPARTMENT OVERVIEW

Information and Computer Services (ICS) is focused on providing professional and prompt service and strategic advice to its customers and business partners, strengthening the City's network infrastructure, and delivering innovative and

creative solutions that meet customer needs and City goals. Our commitment is to provide excellent customer service through responsive, value adding, main-stream technology solutions to support the business of the City of Medicine Hat by managing and securing technology, developing skills and planning for the future. "A Valued Partner in your Success"

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

Technical Services: Technical support and strategic services for technical infrastructure. Service Desk to support computer technology and mobile devices as well as Mailroom/Print Shop.

Application Services: Enterprise systems support and continuous improvement. Applications, database and records management.

Prior Year Service/Program Highlights and Achievements

| Council Priority | Key Result | Highlights/Achievements |
|-------------------------|------------|--|
| 2. Infrastructure and | KR 2.1 | Cybersecurity was a major focus for 2017-18. ICS |
| Amenities | | implemented a program aligned with the National |
| | | Institute of Standards and Technology focused on |
| | | protecting CMH assets from cyber attacks. |
| 5. Fiscal Management | KR 5.1 | The implementation of an Enterprise Resource |
| | | Planning system was a major accomplishment in |
| | | 2017-18. |
| 2. Infrastructure and | KR 2.1 | The completion of a major data and voice network |

| Amenities | | upgrades provides a platform to deliver IT and |
|-----------------------|--------|--|
| | | voice services now and in the future for CMH. The |
| | | implementation of the AFFRCS Radio Network is |
| | | an important update for first responders primarily. |
| | | The main data center located in City Hall has had |
| | | the air supply and controls updated. |
| 6. City Government | KR 6.3 | Planning and implementation of a governance |
| | | framework for Enterprise Systems (ERP, etc.) in |
| | | order to effectively and efficiently prioritize |
| | | continuous improvement projects and maintain |
| | | integrity of the systems. |
| 2. Infrastructure and | KR 2.1 | Supporting the implementation of an Asset |
| Amenities | | Management system (CityWorks) which will |
| | | provide a tool for business units to manage critical |
| | | assets as well as developing a 10 year ICS Asset |
| | | Plan. |
| 6. City Government | KR 6.3 | A new workflow and supporting organizational |
| | | structure was implemented in ICS in order to |
| | | reallocate resources to higher priority service |
| | | delivery areas due to financially fit initiative. |
| 5. Fiscal Management | KR 5.1 | Changed the mailing of Utility Invoices to letter |
| | | mail, saving the City of Medicine Hat, over \$20,000 |
| | | a year on postage |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Cybersecurity Program

Rationale:

- 1. A cybersecurity program ensures CMH information assets are protected to the best of our ability.
- 2. Cybersecurity related crimes and attacks are continually rising in volume and sophistication resulting in a potential risk to public safety.
- 3. Cybersecurity attacks can cause severe/lengthy and costly service outages.

Indicators of Success:

- 1. A cybersecurity program will educate users to use safe practices with respect to technology.
- 2. The number of cyber incidents will decrease through continued education and testing.

3. Regular audits and assessments through the cybersecurity program will show continued network cybersecurity resilience.

Action Plan:

- 1. Continually test and educate CMH network users on safe cyber practices creating a culture of awareness.
- 2. Create and maintain a completed cybersecurity manual by end of 2019.
- 3. Annual audits/assessments and applied penetration tests for CMH network with all possible and reasonable hardening recommendations implemented.

Strategic Objective B: Asset Management Plan for ICS

Rationale:

- 1. Asset management plans are best practice in maximizing asset value and life.
- 2. Ability to allocate available resources against highest risk assets.
- 3. A 10 year asset management plan enables and supports long term planning and strategic thinking resulting in best practice asset management.

Indicator of Success:

- Proactively maintaining our information technology assets will reduce the number of service interruptions due to failure resulting in longer useable asset life and higher stakeholder satisfaction.
- 2. Forecasting replacement/renewal costs will enable better financial and workload planning resulting in less budget variances and costly emergency fixes.
- 3. Risk mitigation plans can be effectively structured to ensure the best possible use of tax payers dollars resulting stable funding requirements.

- 1. Continuously classify and age major information technology assets in a 10 year plan.
- 2. Ensure alignment on an annual basis to the Information and Computer Services Core Technology Roadmap (rolling 5 year plan) and other significant industry trends and risks.
- 3. Quarterly reviews and adjustment of risk register to ensure asset plan is aligned accordingly mitigating the highest risks.

Strategic Objective C: Technology Resiliency

Rationale:

- 1. Ensure technology based services are available and appropriate.
- 2. Ensure there is an effective support plan for all technology.
- 3. Ensure technology planning considers IT related risk register items.

Indicator of Success:

- 1. Service availability meets 99.9% uptime.
- 2. Users of technology services report them to be reliable and effective resulting in high customer satisfaction.
- 3. Core information technology service recovery plans are validated and reliable resulting in high service availability.

Action Plan:

- 1. Continually build strategic and operational plans with a focus on technology resiliency.
- 2. Plan and operate the CMH secondary data center as effectively as possible to provide a highly available technology service by end of 2019.
- 3. Improve maturity on key technology change management processes by 2020.

Strategic Objective D: Enterprise Systems Integrity

Rationale:

- 1. Enterprise systems are critical components in the delivery of service within CMH.
- 2. Information contained in the enterprise systems (hosted or cloud) must be valid, available and protected.
- 3. Enterprise systems enable the continuous improvement of services provided by CMH.

Indicator of Success:

- 1. Enterprise systems projects are well planned and completed effectively.
- 2. Decisions makers in CMH are satisfied with the effectiveness of the enterprise systems.
- 3. Enterprise systems are available meeting our service uptime goal of 99.9%.

- 1. Complete and continuously improve the 5 year ESSR (Enterprise Systems Strategic Roadmap) by end of 2019.
- 2. Complete and continually improve an intake, validation and change management process for new system related projects by end of 2019.

3. Complete resiliency plan and technology implementation for key enterprise systems by end of 2020.

Strategic Objective E: Continuous Improvement of ICS Operations

Rationale:

- ICS resources are in high demand and are scarce; therefore there is a need to reallocate
 resources to the highest priority service areas, redesign workload/project intake processes and
 implement a revised organizational structure to support it.
- 2. ICS has a high service level of expectation from CMH users.
- 3. Balancing resources across net new projects and operational requirements is very difficult.

Indicator of Success:

- 1. Operational requirements are met and documented while net new projects that are approved and prioritized are implemented on time and on budget.
- 2. ICS staff work within priority guidelines to deliver highly effective customer service.
- 3. Mid to long term strategic planning for ICS becomes more effective in ensuring that the volume of operational requirements is minimized and continuous improvement with existing assets are maximized.

- 1. Implement new workload intake process, reallocate resources to services areas of the highest need and a implement a revised operational structure by early 2019.
- 2. Shift to more focus of resources to technical support, IT asset management, more preventative maintenance and technical operational requirements by mid-2020.
- 3. Implement a project coordination framework to increase on time on budget completion of approved projects by early 2021.

| | | | SUMMARY OF STRATEGIC OBJECTIVES | | |
|--------------------------|---|-----------------------|---|--|------------------------------|
| Objective Name | Council's Strategic Priority (SP) | Key Result (KR) | Action Plan | Assigned To (Sub- department) | Timeline |
| Cybersecurity Program | 1. Fiscal Responsibility | KR 1.3 | Continually test and educate CMH network users on safe cyber practices. Create and maintain a completed cybersecurity manual by end of 2019. | Technical Services Technical Services | December 2022 December 2019 |
| | | | 3. Annual audits/assessments and applied penetration tests for CMH network with all possible and reasonable hardening recommendations implemented. | Technical Services | December 2022 |
| Asset Management | 3. Infrastructure Renewal | KR 3.1 | Continuously classify and age major information technology assets in a 10 year plan. | ICS Management | August 2019 |
| Plan for ICS | | | 2. Ensure alignment on an annual basis to the Information and Computer Services Core Technology Roadmap (rolling 5 year plan). | ICS Management | December 2022 |
| | | | 3. Quarterly reviews and adjustment of risk register to ensure asset plan is aligned accordingly mitigating the highest risks. | ICS Management | December 2022 |
| Technology Resiliency | 3. Infrastructure Renewal | KR 3.1 | Continually build strategic and operational plans with a focus on technology resiliency. | ICS Management | December 2022 |

Highlighting items over \$50,000 (Municipal) / \$100,000 (Utilities & Energy) - incremental annual increases or decreases in the current operating budget requests are primarily due to the following factors: (in thousands of dollars)

| Financial Plan | Reason | 2019 | 2020 | 2021 \$ | 2022 \$ |
|-------------------|---|---------|---------|------------|------------|
| Summary | | \$ | \$ | , | , |
| Ref. No. | | | | | |
| 1 | The decrease is due to the net reduction in ICS allocations due to the transfer of ET to CAM and GIS to UBDS | \$1,048 | (\$152) | (\$119) | (\$112) |
| 2 | This reduction is due to the transfer of staff from ET to CAM and the transfer of GIS to UBDS | (\$264) | \$127 | \$116 | \$99 |
| 3 | Increase is due to postage mail rate hikes | \$14 | \$25 | \$25 | \$25 |
| 4 | Changes are due to the reorganization of ET to CAM, as well as past and current approved TCA's and MOE's | (\$161) | \$8 | (\$405) | \$4 |
| 5 | Changes are due to past and current approved TCA's and MOE's 2 | \$389 | \$271 | \$43 | \$83 |
| 6 | Changes are due to the reorganization of ET to CAM, as well as past and current approved TCA's and MOE's Output Description: | (\$82) | (\$8) | (\$7) | (\$4) |
| 7 | Changes are the result of approved TCA's and MOE's in the current budget | \$497 | (\$497) | \$428 | (\$190) |
| 8 | Increases are a result of other interdepartmental changes to ICS, that are out of ICS' control | \$60 | \$53 | (\$1) | (\$15) |
| | Total Annual Change (Year over Year) | \$1,425 | (\$175) | \$64 | (\$114) |
| | Total 4 Year Change Base 2018 budget to Year 4 (2022) | | | | \$1,201 |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|--------|--|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend subsidies to the municipal operating budget by a further target of \$12 million during the 2019-2022 budget term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost-effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely funded either by dedicated reserves or by projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and development incentive program to facilitate strategic investment attraction to areas identified for development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
|--------|---|
| VD 4.2 | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support |
| | Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of |
| | succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as |
| | financial stewardship. |

Land & Business Support

Department Head: Grant MacKay

Title: Manager

Phone: 403-529-8144

E-mail: gramac@medicinehat.ca

DEPARTMENT OVERVIEW

The aim of Land & Business Support (L&BS) is to serve the public interests of the community as an effective land developer generating economic and public benefits for the City; responsibly managing and maintaining all City-owned land not assigned to departmental portfolios while producing revenue and

protecting a healthy ecology; providing timely internal real estate consulting services; and, facilitating ongoing improvements to the community economic action system through provision of effective business support services. Historically, the department has been guided by values including balanced economic growth, affordable housing, flexible development standards, a fair marketplace, innovation, a sustainable environment and self-sufficiency.

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

Land Development: identify / plan / design / develop raw land into subdivided and serviced parcels (residential, commercial & industrial)

Marketing & Sales: market & sell lots within City subdivisions, unserviced parcels and various 'one-of' properties surplus to civic needs

Property Management & Real Estate Services: property management of City-owned lands not assigned to other departmental portfolios or allocated to subdivision development plus land lease administration and internal real estate consulting to other departments

Business Support Office: facilitate the economic action system (including investment attraction and tourism services) by working in association with contract partners, local/regional stakeholder agencies and internal departments plus administering assigned programs.

| | professionalism | transition planning steps within a very |
| | | small dep't. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".

- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Cost effectively develop land in a manner that supports Council objectives including following the MDP, providing a mix of land uses, being socially and environmentally responsible and creating value.

Rationale:

- 1. Support Council's priorities for Fiscal Responsibility and Economic Vitality
- 2. Provide mix of developed land uses to support residential, commercial and industrial growth while encouraging energy conservation, renewable energy, construction waste recycling and water conservation
- 3. Target maintaining approximately 50% of single family residential market inventory supply

Indicators of Success:

- 1. Measurable progress towards KR 2.5: develop portions of Airport Commercial, Brier Run Commercial/Industrial and Northwest Industrial.
- 2. Maintain a minimum 2 year inventory of single family residential lots consistent with sales projections.
- 3. Land development costs are managed to enable a minimum undiscounted 15% ROI when lots are sold at fair market value.

- 1. As dictated by residential inventory levels, commence construction of Ranchlands 3C1 in 2019 and phases 3C2 and 3C3 in 2021-22
- Develop Airport North Node phase 1 commercial in 2018 and initial phases of Brier Run commercial in 2021
- 3. Develop initial phase of NW Industrial in 2019-20 and Brier Run Industrial 2021.

Strategic Objective B: (1) Continue to market and sell serviced lots within developed subdivisions and (2) increase efforts to market unserviced infill parcels and properties deemed surplus to civic needs.

Rationale:

- 1. Support Council's priorities for Fiscal Responsibility and Economic Vitality.
- 2. Be "open for business" and support private sector investment / land development within the City including providing opportunities for builders.
- 3. Convert surplus land inventory not required for land development strategy or civic purposes into cash.

Indicator of Success:

- 1. Measurable progress towards KR 1.5: Successful disposition of real property assets when deemed surplus to civic needs.
- 2. Measureable progress towards KR 2.4: Sell land inventory that is not part of the City's land development strategy nor required for municipal purposes, with a focus on intensification and private development.
- 3. Target maintaining +/- 50% of single family residential market share.

Action Plan:

- 1. Complete dispositions of Arena site and Fire Hall #1 in 2018/19; address on a timely basis the disposition of other surplus civic buildings as required by the organization.
- 2. Prioritize 3-6 infill sites per year, carry out necessary due diligence to prepare for marketing and complete sales processes as market will bear.
- 3. Continue branding and marketing efforts on all active subdivisions, including a more active online / social media presence, plus administer all sales agreements.

Strategic Objective C: Property Management of inventoried lands to protect a healthy ecology, support community needs and maximize annual revenue.

Rationale:

- 1. As a responsible land owner the City must properly maintain and protect lands under its control.
- 2. Many not-for-profit clubs lease City lands to host their varied activities, facilitate community participation and provide an economic multiplier benefit.
- 3. Fiscal Responsibility dictates that the City maximize lease and license revenue from real estate holdings wherever possible while remaining a good steward of the lands under control.

Indicator of Success:

1. Proper winter (primarily snow clearance) and summer (primarily grass cutting and weed/pest control) maintenance procedures are followed on a timely basis with few complaints.

- 2. Target lease rate of 7.5% of land market value is achieved for commercial leases.
- 3. Land maintenance costs are transferred to third parties wherever possible through leasing and licensing practices.

Action Plan:

- 1. Manage downtown Cottonwood, Linden and Chokecherry Parking Lots.
- 2. Manage +/- 170 active land leases/licenses.
- 3. Manage summer and winter maintenance contracts.

Strategic Objective D: Internal real estate consulting to support stakeholder department needs and protect the City's interests.

Rationale:

- Channeling all City real estate related transactions through L&BS ensures consistent approaches and necessary due diligence in coordination with City Solicitor, HS&E, CAM, other depts. as appropriate.
- 2. Operating Departments from time to time require property acquisition or disposal services in support of the operating and capital activities.
- 3. Support Council's priorities for Fiscal Responsibility and Economic Vitality.

Indicator of Success:

- 1. Measureable progress towards KR 2.3: land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, specifically downtown and the river valley.
- 2. Council approved policies and MGA requirements for real estate transactions are followed every instance
- Real estate acquisitions required for civic purposes are conducted at fair market value and on a timely basis.

- 1. Complete remaining Industrial Avenue Berm Land Acquisitions in 2018 and support Municipal Works as required for any future berm developments.
- 2. Complete updates to the Sales & Acquisition Policy #0151 and Lease & Licensing Policy #0152 in 2018/19.
- 3. Support land negotiations/transactions as required through opportunities arising from Development Investment Readiness Team (DIRT) functions.

Strategic Objective E: Foster an improved economic action system in conjunction with external contract providers, economic development stakeholders and internal City departments.

Rationale:

- 1. Support Council's priorities for Economic Vitality, Community Safety & Vibrancy and Sunshine Hospitality.
- Opportunity exists in consultation and collaboration with other departments, external contractors
 and economic development stakeholders to update a long term, coordinated, industry-led,
 overarching economic development strategy to follow best practices and maximize economic
 development potential.
- 3. City Council desires Medicine Hat to be seen as 'open for business' and 'investment-ready'.

Indicator of Success:

- 1. Measureable progress towards KR 2.1: update and implement a coordinated framework for economic development to define the roles and responsibilities of all stakeholders and KR 2.2: implement systematic approaches to be more 'investment ready' and 'open for business' including more effective internal processes and practices.
- 2. Measureable progress towards KR 4.3: ... including continued focus on the Downtown by supporting renewed investment, infill development and a variety of housing and commercial options.
- 3. Measureable progress towards KR 5.5: working collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10-20% from 2017 levels by the end of 2022.

Action Plan:

- 1. Initiate / Facilitate collaborative efforts towards an updated economic development strategy.
- 2. Continue to enhance DIRT and related internal processes in support of investment readiness while aligning external contract providers and continuing to build effective relations with all economic development stakeholders.
- 3. Continue to administer DDIP, liaise with the CCDA and explore other potential incentives in alignment with Council Strategic Priorities for the Downtown (and the MDP).

Strategic Objective F: Foster continued effective L&BS operations through a focus on staff engagement, safety and succession planning

Rationale:

- 1. Support Council's priority for City Government; excellent public service is provided by engaged, informed staff operating within a positive corporate culture that supports health & safety and skill development.
- 2. Corporate HS&E systems require departmental cooperation and implementation.
- 3. L&BS is presently made up of very senior staff most of whom are eligible to retire within this business planning period.

Indicator of Success:

- 1. Measureable progress towards KR 6.2: maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy oversight, and employee training.
- 2. Measureable progress towards KR 6.3 ensure L&BS is positioned to carry out Council's direction through succession planning, leadership training and staff development.
- 3. Continuity of service is provided as retirements occur and new staff are recruited.

- 1. Update all position descriptions.
- 2. Build transition / succession plans for each position.
- 3. Increase staff FTE complement by 1.4 (2 temp positions) to ensure sufficient resources are available to satisfactorily meet Council's 2019-2022 Strategic Priorities and to serve the succession plan for retiring staff members.

Highlighting items over \$50,000 (Municipal) / \$100,000 (Utilities & Energy) - incremental annual increases or decreases in the current operating budget requests are primarily due to the following factors:

(in thousands of dollars)

| Financial | Reason | 2019 | 2020 | 2021 | 2022 |
|-----------|--|-------|------|-------|------|
| Plan | | \$ | \$ | \$ | \$ |
| Summary | | | | | |
| Ref. No. | | | | | |
| 1 | Sale of Services / Cost of Lots Sold(COLS): Forecasted land sales revenue is based upon individual year-by-year projections for residential, commercial, industrial and infill lot sales considering anticipated market absorption of available inventory. The addition of several infill lot sales is the key change for 2019 while increasing budgeted residential lot sales from 40 to 50 is noteworthy in 2020. Industrial sales related to Brier Run and the North West Industrial Park, are projected to commence in 2021. COLS expenses are directed correlated to the forecasted land sales. | (503) | 380 | (560) | (41) |
| 2 | Other Operating Revenue: primarily relates to land rentals forecasted to occur over the period; increases relate mostly to marginally higher lease rates as renewals come due. | (95) | (5) | (5) | (5) |
| 3 | Salaries: increases relate to extra budgeted hours for the temp Land Sales Administrator position and a two-year term position intended to augment marketing resources and facilitate succession planning needs within the budget cycle. | 128 | 23 | (70) | 17 |
| 4 | Contracted Services: includes annual funding for Med Hat Sport and Event Council (\$75K) commencing in 2019. Also some building maintenance items including roof replacements are scheduled over the period 2019-2022. | 242 | 1 | 1 | 2 |
| 5 | Materials: one-time budget reduction in 2019 to reflect actual expenditures. | (56) | 0 | 0 | 0 |

| 6 | The Downtown Development Incentive Program will now be | 200 | 0 | 0 | 0 |
|---------------------|--|------|-----|-------|-------|
| | included as an expense in the Operating budget, rather than an | | | | |
| | MOE and funded via Transfer to MOE | | | | |
| | Total Annual Change | (84) | 399 | (634) | (27) |
| | (Year over Year) | | | | |
| Total 4 Year Change | | | | | (346) |
| | Base 2018 budget to Year 4 (2022) | | | | |

MOE Decision Package Summary

Refer to the Corporate Multi-Year Capital Plan for detailed information on each decision package.

MOE Decision Packages (listed in priority order):* (in thousands of dollars)

^{**} Land and Business Support does not have any MOE projects in the upcoming budget cycle.

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|---------|--|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend |
| KIN 1.1 | subsidies to the municipal operating budget by a further target of \$12 million during the 201 9-2022 budget |
| | term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| | innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual |
| WD 4 7 | with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| SP 2 | funded either by dedicated reserves or projected surplus cash from operations. Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and |
| KI Z.I | responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more |
| | effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, |
| | specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for municipal |
| | purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| CD 0 | to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| VD 2 2 | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| 100 | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |
| | |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and commercial areas. |
|--------|--|
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and direct service provision of social services, including the distribution of Family and Community Support Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall to Athletic Field, which looks to capitalize on the synergies between recreational and economic development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, developing a public participation policy and creating new opportunities for the public to provide input and feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as financial stewardship. |

Municipal Works

Department Head: Dwight Brown Title: General Manager Phone: 4035298162 E-mail: dwibro@medicinehat.ca

Administration | Airport | Engineering | Operations

DEPARTMENT OVERVIEW

Municipal Works is responsible for planning, developing, maintaining, and expanding our municipal transportation network, storm water management system, flood protection system, and regional air transportation services to meet the needs of our community.

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

Roads and storm water infrastructure operations and systems maintenance including approval authority.

Infrastructure network planning and asset management.

Engineering design and technical analysis.

Traffic Management

Regional Airport operation and development

Emergency response including overland flood protection.

Core Services/Programs, Primary Customers, and Key Performance Indicators (KPIs)

| Core | Primary Customer's | Key Performance Indicators (KPIs) |
|--|---|---|
| Services/Programs | Name | |
| Operation and maintenance of our transportation and storm water network. | All of City of Medicine Hat community. | Adherence to industry standards, practices, and various service levels such as Transportation Association of Canada (TAC) guidelines, Highway Traffic Act, and the Water and Environmental Protection Acts. |
| Traffic and pedestrian management. | Vehicle occupants, pedestrians, and cyclists. | Adherence to industry standards including the TAC guidelines, as well as the Council adopted Roads Bylaw. |
| Network planning, capital project delivery and asset lifecycle management. | City of Medicine Hat community. | Council approved Asset Management Policy. |
| Management and operation of a regional airport. | Air carriers, charter flight services, and airport tenants. | Meeting Transport Canada certification. |
| Overland flood protection. | City of Medicine Hat community. | Protection to a 1:100 Event. |

| Development planning review and approval for transportation, storm, and airport. | Development industry. | Municipal Servicing Standard, regulatory compliance, and industry standards and guidelines. |
|--|---|---|
| Disaster/emergency service response. | Community and support to Emergency Operations Centre and 911 Responders. | Regulatory compliance as the Roads and Storm Authority and EOC protocols. |
| Road-Right-of-Way Management | City of Medicine Hat community and internal departments. | Encompasses all aspects of traffic accommodation, vegetation control, and approvals in accordance with our Roads Bylaw, various Provincial Acts, and Industry Guidelines. |
| Own, operate, and maintain the City Rail Spur Line. | Air Liquide and CPR. | Adherence to our Alberta Transportation Operating Approval Certificate. |
| Customer service. | City of Medicine Hat community. | "2x14" practice. |

Prior Year Service/Program Highlights and Achievements

| Council Priority | Key Result | Highlights/Achievements |
|-------------------------|------------|---|
| 1. Economic | KR 1.2 | WestJet air service to Calgary commenced June |
| Development | | 2018. New leases and developments including |
| | | the CanWest Air Ambulance Hangar and Front |
| | | Porch Classics Café & Catering in the Airport |
| | | Terminal and the implementation of the Airport |
| | | Zoning Regulation Bylaw. The Airport also |
| | | supported 20,000 take-off and landings, and |
| | | 55,000 passenger movements in 2018. |
| 2. Infrastructure and | KR 2.1 | Completion of our various operational and |
| Amenities | | maintenance programs including inspections and |
| | | meeting our service level obligations (i.e. Snow |
| | | and Ice Control; Street Sweeping; Lane Grading; |
| | | Asphalt and Sidewalk Repairs; Bridge |
| | | Maintenance; Streetlights, Signals, and Signs |
| | | Maintenance; Storm Water System Management; |
| | | and Berm Inspections and Maintenance). Over |
| | | 1200m of new storm pipe installed in 2018 as |
| | | part of the NW Trunk project. Continued |
| | | implementation of the asset management |
| | | strategy including Cityworks for all infrastructure |
| | | classes (i.e. in 2018 approximately 10 kms of road |
| | | was overlaid/rehabilitated; 1200m of defective |
| | | sidewalk was addressed; 500m new sidewalk was |
| | | installed; 500m of storm mains and leads were |
| | | replaced; 250 catch basins were inspected; and |
| | | 9000m storm lines were flushed and inspected). |

| 2. Infrastructure and | KR 2.1 | With federal funding of \$13M secured in 2017 for |
|-----------------------|--------|---|
| Amenities | | the Airport Main Runway Rehabilitation, |
| | | construction was completed in 2018. |
| 2. Infrastructure and | KR 2.1 | South Railway Road Rehabilitation completed in |
| Amenities | | 2018. Downtown South Railway street scape and |
| | | storm water upgrades and improvements |
| | | completed. |
| 2. Infrastructure and | KR 2.2 | Remainder of Riverside berm and Industrial Ave |
| Amenities | | Ph. 1 and 2 berms completed in 2018. |
| 5. Fiscal Management | KR 5.1 | All city streetlights converted to LED. |
| 6. City Government | KR 6.1 | All regulatory, license, and compliance |
| | | requirements were met. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|--|--|--|
| Meeting regulatory and/or license requirements. | Regulatory and licensing requirements encompassing OH&S Commercial Vehicles; Storm Water and Dam; Transportation; Airport; Rail Spur Line. | Codes of Practice; Operating Procedures; Inspections; Audits; Adherence to Industry Standards and Practice; Staff Competency and Use of Third Party (Consultant) Resources. |
| Aging infrastructure | Ensuring our transportation, storm, airport, and flood protections systems are maintained to appropriate service levels for public safety. | Asset Management Plan; Inspections and Adherence to Industry Guidelines and Standards; Staff Competency and Use of Third Party (Consultant) Resources. |
| Public safety regarding traffic and pedestrian movements. | Traffic control devices (signage and signals), and appropriate barriers are in place and transportation network is maintained to a functional level for safe movement of vehicles, pedestrians and cyclists. | Industry Standards and Guidelines; Traffic Accommodation Procedures and Review; Approvals Review and Sign-Off; Maintenance and Inspection Programs; Staff Competency and Accreditation including APEGA and ASET Compliance. |
| Airside infrastructure and critical systems for aircraft landings and take-offs. | Runway, landing systems and signage is operable and maintained IAW Transport Canada Airport Certification. | Airport Operations Manual; Certification Standards; Inspections and Audits; Staff Competency and Accreditation. |
| Public safety during emergency response situations. | Public safety on our transportation network is appropriately managed during events such as wind storms/tornados, flooding, vehicular/rail crashes and major snow events. | Emergency Preparedness Plans; 24/7 Staff Coverage; EOC; Practices and Standards; Staff Competency and Use of Third Party Resources including Specialized Equipment; Protocols with 911 and Emergency Responders (Police and Fire). |
| Hazardous road conditions. | Roads and Sidewalks are maintained to appropriate service levels including | 911 Protocols with 24/7 On-Call and Supervisory Staff; Various |

| addressing debris, potholes, sinkholes, | Maintenance Programs; Snow and Ice |
|---|------------------------------------|
| and snow and ice issues. | Control and Street Sweeping |
| | Programs. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety – Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Establish a Storm Water Utility model based on the principle of "user pay".

Rationale:

- 1. The City is challenged with funding the operations and maintenance including renewal of its storm water infrastructure.
- 2. Currently, the storm water management requirements are funded through municipal property taxes and grants.
- 3. There is a need to identify potential revenue sources to fund a sustainable system.

Indicators of Success:

- 1. Identify a funding model that is sustainable and addresses the asset lifecycle requirements to operate, maintain, and grow the asset.
- 2. The model can be used to influence behaviors to reducing our storm water infrastructure requirements through water conservation practices.
- 3. We have the resources in place to address our infrastructure backlog to a service standard commensurate with our risk tolerance.

- 1. Prepare a preliminary program assessment and needs analysis for Council consideration in 2019.
- 2. If approved by Council, prepare the utility rate model for implementation in 2020.
- 3. Commence using the rate model in 2021.

Strategic Objective B: Review our snow and ice control service levels.

Rationale:

- 1. The city is looking at reducing future operating costs where appropriate.
- 2. The snow and ice control program was last comprehensively assessed in 2011 and there is merit to continuing to evaluate the service levels that are appropriate for our community.
- 3. As part of the review there is opportunity to assess what is the appropriate balance of in-house and third party resources to deliver the service.

Indicator of Success:

- 1. Our current approach including the options, risks, and benefits are recognized and understood by the community.
- 2. The outcome is reflective of our community expectations and willingness to pay for the level of service.
- 3. We confirm the optimal service delivery model to meet the determined service levels in consideration of the various opportunities and risks.

Action Plan:

- 1. Undertake a service level review in 2019 including community engagement and benchmarking with other communities.
- 2. Prepare a report and recommendation for Council consideration in spring 2020.
- 3. Adjust and implement any changes in fall 2020.

Strategic Objective C: Continue to manage the road-right-of way for all traffic, cycling, and pedestrian movements while proactively optimizing traffic flow, and on-street parking for all users.

Rationale:

- There are community expectations to ensuring that our traffic signals and timing are optimized while ensuring we allow for the safe movement of vehicles and pedestrians for all demographics.
- 2. We have areas within the city where there is a high demand for on-street parking which is creating community conflicts.
- 3. Our network should look to support all users including pedestrians and alternative modes of transportation.

Indicator of Success:

- 1. Our traffic management plans are supportive and match our community plan (MDP) and community expectations.
- 2. We are consistent with industry practice including the Transportation Association of Canada (TAC) Guidelines.
- 3. Our on-street parking management and practices balances the needs of all users of the roadway network.

Action Plan:

- Continue to meet our service levels, provide for effective traffic management and where to appropriately assess and adjust specific intersections and road corridors to optimize traffic flow (2019 - 2022).
- Assess the downtown area as well as other transportation corridors to determine where it is appropriate to change the speed, balancing community safety with the various stakeholder interests. This will also entail consideration of whether to move from one-way to two-way couplets in the downtown. This will likely be done in 2020 - 2022 after completion of the MDP in 2019.
- 3. Assess on-street parking in the hospital area in 2020 2022 following completion of the Hospital construction upgrades in 2020.

Strategic Objective D: Maximize our airport asset with development of the ground and airside lands while retaining and pursuing new air service and leasing opportunities and continuing to meet our operational, maintenance and regulatory requirements as a commercial certified (Transport Canada) Regional Airport.

Rationale:

- 1. The airport lands provide commercial opportunity to grow and diversify our economy.
- Existing and enhanced air services supports economic development and community quality of life.
- 3. Airport commercial development has the potential to attract other cluster industries and tourism investment.

Indicator of Success:

- 1. We build on the strategies outlined in the Airport Strategic Plan, completed in 2018.
- 2. Recommendations on protection of lands for a potential (future) airport runway extension are embedded into the Municipal Development Plan.
- 3. We meet our regulatory requirements and continue to maintain and grow our air services including flights and passenger movements.

Action Plan:

- 1. Completion of the airside development plan in coordination with Land and Business Support (LaBS) in 2019, as well as through LaBS, prepare a marketing plan to advance commercial, industrial and airside development in the north node through this business plan cycle.
- 2. Maintain our airport airside infrastructure while meeting our operational and regulatory requirements and service levels.
- 3. Implement those approved recommendations arising from the 2018 Airport Strategic Plan to retain and grow the number of airside land leases, commercial and scheduled air service (2019-2022).

Strategic Objective E: Continue to operate and maintain our municipal infrastructure in accordance with industry standards and practices, service levels and our asset management plan within approved budgets.

Rationale:

- 1. We need to maintain our infrastructure and address our backlog to avoid creating future financial liability and degradation of our assets and compromising our community quality of life.
- 2. We currently have approximately \$2B in assets that requires sustained funding to meet our service levels and industry standards.
- 3. Our service levels and quality of infrastructure has a direct correlation to economic development and community vibrancy.

Indicator of Success:

- 1. We have appropriate levels of service, industry standards and condition assessment tools to effectively maintain, operate and lifecycle manage our assets through timely and effective maintenance and rehabilitation programs.
- 2. We meet our service levels, industry standards and guidelines, and maximize the asset life.
- 3. We can predict capital upgrades, allow for informed Corporate and Council decision-making and better coordinate construction with all departments.

- 1. Continue to meet our operational maintenance, inspections and service level requirements for all of our municipal and airport infrastructure assets within the context and limitations of financial cost containment in accordance with the City of Medicine Hat Financially Fit Initiative.
- Maintain our infrastructure through our operational, TCA Capital and MOE programs to our
 defined performance levels, industry standards and guidelines and various codes of practice
 within the context and limitations of financial cost containment in accordance with the City of
 Medicine Hat Financially Fit Initiative.

Ensure that we have the assessment tools, practices, and procedures including the supporting software systems in place for effective asset management and delivery of our operational programs.

Strategic Objective F: Complete the Overland Flood Protection Plan.

Rationale:

- 1. The community has experienced several flood events over the past 20 years that has had significant financial and community impacts which have been devastating.
- 2. Impacts effect our financial situation, economic vitality, community safety and quality of life.
- 3. We have the ability to mitigate and protect our community through the provision of permanent and temporary measures.

Indicator of Success:

- 1. We protect our community for river and creek events up to the "1:100" event threshold.
- 2. Our ability to respond and protect matches our community and Council risk tolerance.
- Our ability to respond to and execute our flood response plan is sustainable within our Emergency Operations Centre framework and less reliant on individual experience and competencies.

- 1. The current \$33M funded Overland Flood Plan is completed by fall 2019.
- 2. We confirm whether we wish to complete any additional permanent flood measures and execute within approved budgets by fall 2019.
- 3. We have a Council endorsed flood protection plan with the appropriate balance of permanent and temporary measures fully implemented by fall 2020.

| SUMMARY OF STRATEGIC OBJECTIVES | | | | | | | | |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|-----------|--|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the future framework, reduce the City's reliance on annual energy dividend |
| 1017 1.11 | subsidies to the municipal operating budget by a further target of \$12 million during the 2019-2022 budget |
| | term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| | innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual |
| | with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| CD 3 | funded either by dedicated reserves or projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and |
| KR 2.2 | responsibilities of all stakeholders. |
| KK 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, |
| KI Z.J | specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy not required for |
| | municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| | to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and |
| | development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
|--------|--|
| | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as financial stewardship. |

Planning & Development Services

Department Head: Kent Snyder Title: General Manager Phone: 403.529.8376

E-mail: kensny@medicinehat.ca

Administrative Support | Development Services | Safety Codes Services

DEPARTMENT OVERVIEW

The aim of the Planning & Development Services department is to provide leadership to the Corporation and the community in achieving its Municipal Development Plan vision as a "Community of Choice" by

facilitating the continued development of a safe, attractive, and sustainable community which meets the needs of all segments of the population.

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

Administrative Support
Development Services - Development Engineering
Development Services - Planning & Business Licensing
Safety Codes Services - Construction Permits and
Inspection Services

Prior Year Service/Program Highlights and Achievements

| Council Priority | Key Result | Highlights/Achievements |
|-------------------------|------------|---|
| 1. Economic | KR 1.2 | Review and approval times were once again well |
| Development | | below the legislated decision timelines. |
| 2. Infrastructure and | N/A | Taxi fare increase as per Taxi Bylaw No. 2648 was |
| Amenities | | approved by City Council. |
| 3. Social Wellness | N/A | Continued to lead a multi-department team in |
| | | addressing chronic unsightly properties. |
| 4. Image and Profile | KR 4.1 | Department communication across all media |
| | | platforms was consistent with City standards. |
| 5. Fiscal Management | N/A | Completed annual review of the Off-Site Levy |
| | | Rate. |
| 6. City Government | KR 6.3 | The City's Safety Codes Bylaws comply with the |
| | | Safety Codes Act. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|---|--|---|
| P&DS approval system capacity. | Failure to adequately serve customers (slower application turnaround times) due to resource and capacity restrictions. | Safety Codes Uniform Quality Management Plan plus Municipal Government Act regulations define review requirements. Re-assign staff from non-essential to core services and add resources supported with |
| | | additional funding or increase in fees. |
| Worker error. | Adverse impact due to worker error from not following process or making unauthorized exceptions. | Supervisory review, resource management and training. |
| Disasters of scale such as a flood/tornado. | Impact on day-to-day operations as P&DS staff are seconded to the Emergency Operations Centre, plus recovery activities involving Safety Codes Officers authorizing the re-entry to residences and businesses. | Emergency Operations Centre & Incident Command System. |

| Change in corporate initiatives and priorities. | Loss of direction and/or efficiency. | Maintain robust communication with stakeholders so that they can be informed of any service changes that may impact them. |
|--|---|---|
| Inability to obtain and/or retain qualified workers. | Loss of knowledge, direction, and/or efficiency, increased errors and rework. | Reliance on Human Resources Department. Maintain staff professional and technical networks to assist with recruiting. |
| Records Management / Loss of Data. | Loss of key information/data required for day-to-day operations and historical data due to inadequate records management/protection/security of paper and electronic records. | Records management system, OnBase and ICS data backups. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example,
 "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Establish the foundation for future sustainable development.

Rationale:

- 1. Support City Council's top priority of Fiscal Responsibility to support the long-term sustainability of the City.
- 2. The City sets the standards for infrastructure that the public and private sector constructs which the City is ultimately responsible for. The standard of infrastructure affects the initial capital cost, but also the long-term maintenance and replacement costs borne by the ratepayers.
- 3. The servicing standards must follow and conform to the community's long-term plan for the future (Municipal Development Plan (MDP). The MDP is currently undergoing a review and the servicing standards will be revised once the long-term vision is confirmed.

Indicators of Success:

- 1. The City's servicing standards, growth management plan, infrastructure replacement plans, and development incentive programs are in conformance with the MDP.
- 2. The City's servicing standards create the opportunity for long-term financially sustainable development.

Action Plan:

- 1. Complete a comprehensive review of the Municipal Servicing Standards Manual by December 31, 2022
- 2. Departments will align their infrastructure replacement plans and development incentive programs with the MDP by December 31, 2020.
- 3. Conduct a review of potential opportunities to utilize municipal assessment and property tax structures to encourage development to align with the MDP.

Strategic Objective B: Debureaucratize development processes and support growth.

Rationale:

- 1. Support City Council's priority of Economic Vitality.
- 2. Streamlining development processes and matching our services with investors' expectations is critical. This includes providing a modern development digital application process that allows customers to submit applications, communicate with the City, and pay fees digitally.
- 3. Business trends change and our existing Bylaws and new Bylaws must stay current to support new and emerging business trends.

Indicator of Success:

- 1. Positive feedback from our customers regarding the service we provide.
- 2. A fully functional E-Permitting system is in place that allows customers to digitally submit applications, communicate with City staff and pay fees digitally.
- 3. Outdated Bylaws are modernized and new Bylaws are developed to support new business trends.

Action Plan:

- 1. Fully implement E-Permitting by December 31, 2019.
- 2. Complete and implement a review of the Technical Coordinating Committee by June 30, 2019.
- 3. Comprehensively update the Business Licensing Bylaw by September 30, 2022 and prepare a Personal Ride Share Bylaw by December 31, 2019.

Strategic Objective C: Support sustainable infrastructure.

Rationale:

- 1. Support City Council's priority of Infrastructure Renewal by focusing and managing aging assets to ensure quality and sustainable infrastructure.
- 2. Off-Site levies (OSL) provide the City with the opportunity to mitigate and fund the infrastructure required to support growth of the City. The OSL can be prepared to support City Council's development objectives (i.e. intensification).
- 3. The OSL Bylaw must conform to the MDP.

Indicator of Success:

- 1. The OSL Bylaw supports the implementation of the policies contained in the MDP.
- 2. The OSL Bylaw accommodates development and redevelopment while ensuring long-term financial sustainability.

Action Plan:

- 1. Complete the 2020 annual rate update to the OSL Bylaw by September 30, 2019.
- 2. Complete a comprehensive review of the OSL Bylaw by December 31, 2021.

Strategic Objective D: Prepare Bylaws and policies to support a safe community.

Rationale:

- 1. Support City Council's priority of Community Safety and Vibrancy.
- 2. Bylaws and policies need to be in place to guide the City's response to emerging issues like Cannabis legalization and Abandoned Wells in urban areas.
- 3. Mandatory conformance to Provincial Safety Codes keeps property and residents safe.

Indicator of Success:

- 1. Local development and Business License regulations are established.
- 2. Urban Abandoned Well rules and processes are reviewed, refined, and formalized in the Land Use Bylaw (LUB).

3. The 2015 and the 2020 National Building Codes are successfully implemented.

Action Plan:

- 1. Complete the Cannabis LUB and Business Licensing Bylaw amendments by March 30, 2019.
- 2. Complete the Abandoned Well LUB amendment by June 30, 2019.
- 3. Implement the 2015 and the 2020 National Building Codes by March 30, 2019 and March 20, 2021 respectively (dates subject to provincial legislation).

Strategic Objective E: Prepare plans and policies to guide development.

Rationale:

- 1. Support City Council's priority of maintaining a safe community and building a vibrant City with a high quality of life.
- 2. The City's highest level plan which establishes the long-term vision for the community is the MDP. All other Bylaws, plans, policies, and budget are required to support and implement the plan.
- 3. The Modernized Municipal Government Act (MGA) requires the City to update the Intermunicipal Development Plan (IDP) and prepare an Intermunicipal Collaborative Framework (ICF) with adjacent municipalities.

Indicator of Success:

- 1. A MDP that has broad community support is adopted by City Council.
- 2. The City, Town of Redcliff, and Cypress County adopt an update to the IDP Bylaw and prepare an ICF.
- 3. MDP implementation tools (i.e. LUB, Area Redevelopment Plans (ARP), etc.) are completed and support the policies of the plan.

Action Plan:

- 1. Complete the MDP by December 31, 2019.
- 2. Complete the IDP and ICF by December 31, 2020.
- 3. Complete a comprehensive review of the LUB by December 31, 2021. Complete an ARP (i.e. Hospital) by December 31, 2022. Update applicable Bylaws, policies and practices to ensure conformance with the Modernized MGA by December 31, 2019.

| | | SU | IMMARY OF STRATEGIC OBJECTIVES | | |
|--|---|-----------------------|--|-----------------------------|---------------|
| Objective Name | Council's Strategic Priority (SP) | Key Result (KR) | Action Plan | Assigned To (Subdepartment) | Timeline |
| Establish the foundation for future sustainable development. | 1. Fiscal Responsibility | KR 1.6 | 1. Complete a comprehensive review of the Municipal Servicing Standards Manual by December 31, 2022. | Development Services | December 2022 |
| Debureaucratize development | 2. Economic Vitality | KR 2.2 | 1. Fully implement E-Permitting by December 31, 2019. | All Sub-departments | December 2019 |
| processes and support growth. | , | | 2. Complete and implement a review of the Technical Coordinating Committee by June 30, 2019. | Development Services | August 2019 |
| | | | 3. Comprehensively update the Business Licensing Bylaw by September 30, 2022 and prepare a Personal Ride Share Bylaw by December 31, 2019. | Development Services | December 2022 |
| Support | 3. Infrastructure | KR 3.2 | 1. Complete the 2020 annual rate update to | Development Services | December 2019 |
| sustainable infrastructure. | Renewal | | the Off-Site Levy Bylaw by September 30, 2019. | | |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|---------|---|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend |
| | subsidies to the municipal operating budget by a further target of \$12 million during the 2019-2022 budget |
| | term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| | innovation and develop partnerships in order to become increasingly self-sustaining. |
| KR 1.5 | Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| VD 1 C | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| KIN 1.7 | funded either by dedicated reserves or projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and |
| | responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more |
| | effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, |
| | specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for municipal |
| | purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. |
| KR 2.8 | Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| SP 3 | to increase trail connectivity within the City's trail system. Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| KIN 3.1 | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and |
| | development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and |
|--------|--|
| | commercial areas. |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic development |
| | assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be positive |
| | ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as financial stewardship. |

| 4. Image and Profile | KR 4.4 | Opening and operation of Veiner Centre |
| 5. Fiscal Management | KR 5.1 | Third-party review of conventional transit |

| 6. City Government | KR 6.3 | Implemented new systems and supports for | |
|--------------------|--------|--|--|
| | | emergency communications – trunked two-way | |
| | | radio, dispatch software, dispatch protocols | |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|---|--|---|
| Harm to staff working alone and/or late at night. | Threats or real danger from increased use/abuse of drugs/alcohol and various interactions with vulnerable sectors. | Informal de-escalation training; Alarm fitted to Regular Transit Buses to flash message on Illuminator (help, call 911); Mobile phones and Work Alone Application. |
| Future shifts/changes in industrial, residential, demographic and employment. | Development (residential, industrial, commercial) outside existing transit routes. Future demographic changes of citizens in Medicine Hat (aging population. | Involvement/contribution to the MDP and attendance at the TCC; Transit Standards for existing system and measurable impact of supporting new development. Awareness, education and training. |
| Reduced provincial funding for social, cultural and/or transportation. | City and many local NFP's rely on sustained provincial funding for FCSS, Arts, Museum, rural transportation pilot project. | Maintain situational awareness and constructive relationships with ministry contacts; service standards for all CDV areas; rationalize services and resources to minimize reliance and risk of external funding. |
| Recruitment, retention and succession of qualified personnel. | Risks associated with aging workforce, pending retirements, specialty roles and competitive job market. | Identify alternative recruitment strategies, enhance awareness and visibility of opportunities, develop succession plan. |
| Increasing public expectations. | The public has an increased expectation for a broad range of high quality public services delivered at minimal costs to the user. | Work to manage expectations through public engagement and information sharing. Continue to offer Fair Entry Policy. Regularly evaluate service uptake and efficiency of delivery. |
| Increasing regulatory compliance requirements and enforcement activities. | Provincial OHS Code changes require changes to existing processes. Increased enforcement activity from Provincial OHS requires a greater review of our processes to ensure reviews meet legislated requirements. The City could be subject to administrative orders and penalties for non-compliance. In areas of critical non-compliance, operations could be suspended until requirements are met. | Increase focus on ensuring documentation is meeting regulatory compliance by assigning resources. Confirm that new and existing supervisors and staff continue to be trained on their role in ensuring the health and safety of staff, contractors and members of the public. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example,
 "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Finalize determination of long term operational model for Seniors Centre / Services and implement decision.

Rationale:

- 1. Decision on long term operating model is pending (Fall 2018).
- 2. Any planning, preparations and/or implementations from the decision will occur during 2019-2022 timeframe.

Indicators of Success:

- 1. Decision broadly communicated through the user community and community in general.
- 2. Any subsequent plans are thoroughly conceived and seamlessly implemented.
- 3. Governance structure and operating model provide valued services for the user community(s).

Action Plan:

- 1. Determine impact of decision to governance, operations and user community.
- 2. Develop plans to implement decision, communicate/consult with user community and address impacts.
- 3. Implement plans in a seamless manner, minimizing service disruptions.

Strategic Objective B: Review, develop and implement Community Development Service Level Standards, particularly in the areas of Public Transit, Museums, Art Galleries, Seniors, Support Services, Libraries.

Rationale:

- Variability of service expectations across the age spectrum between City operations, public and City Council – combined with FFI, changes in demographics, new industrial growth and pending MDP.
- 2. Determining service level standards will provide clarity for all parties, targets for service business planning, consistent foundations for performance measurement and a transparent lens for evaluation/planning service changes.
- 3. Minimizes evaluative subjectivity; enhances objectivity of continuous improvement and/or service level changes.

Indicator of Success:

- 1. User community(s) engaged regarding draft standards.
- 2. City Council endorses service level standards.
- 3. Standards implemented, measured, reported and foundational to business planning.

Action Plan:

- 1. Draft standards developed at Department/Division level.
- 2. User communities engaged regarding 'reasonableness' of draft standards.
- 3. Standards implemented, measured, reported and foundational to business planning.

Strategic Objective C: Pursue divestment of Community Development buildings where the City is in a landlord role that yields no net benefit to the corporation or community.

Rationale:

- 1. Several City owned buildings that Community Development acts solely as landlord to local agencies operating or subletting to various services/agencies.
- 2. Typically are long-standing lease agreements that serve as a net operating loss to the corporation; alternatively serve as a form of subsidization to the leasing agency.
- 3. The leasing agencies (or others) can own the building(s) to serve whatever purpose they desire, and the City will shed an annual net operating loss and avoid future capital improvement costs.

Indicator of Success:

- 1. Agencies currently leasing buildings are interested in purchase or understand the City's rationale for divestment.
- 2. Key community agencies (NFP's) are not displaced without reasonable alternatives.
- 3. Formal divestment of designated buildings.

Action Plan:

1. Confirm City/corporate desire to divest of designated buildings.

- 2. Confirm valuation and divestment process.
- 3. Engage current leasing agencies regarding divestment plan and potential purchase opportunities.

Strategic Objective D: Implement a coordinated and/or staged approach to recommendations from the internal reviews of FCSS and Community Resource Worker programs.

Rationale:

- 1. Internal reviews being finalized during 2018.
- 2. Various recommendations expected for implementation.
- 3. Potential linkage to the long-term operational model for the Seniors Centre.

Indicator of Success:

- 1. Review recommendations appropriately endorsed.
- 2. Implementation plan developed (and engagement plan as necessary).
- 3. Desired outcomes measured and reported.

Action Plan:

- 1. Finalize recommendations and any required approvals.
- 2. Develop implementation and any necessary engagement plans.
- 3. Implement plans; measure and report progress / outcomes.

Strategic Objective E: Liaison and participation with Destination Marketing Organization (DMO) in relation to non-traditional, Community Development opportunities including cultural tourism, seniors centre events, Highway #3 corridor transportation

Rationale:

- 1. Leverage key community / cultural assets and programming as part of tourism draw.
- 2. Leverage provincial pilot program on rural transportation (Hwy 3) as tourism draw.
- 3. Non-traditional tourism opportunities could enhance City profile and visitor experience.

Indicator of Success:

- 1. 'Seat at the table' for working with/contributing to DMO's efforts.
- 2. Consideration of creative, non-traditional tourism opportunities from Community Development.
- 3. Incorporation of several such opportunities within overall DMO plans/initiatives.

Action Plan:

1. Confirm connection representative from Community Development to/with DMO.

- 2. Provide creative, constructive input of potential non-traditional opportunities and methodologies.
- 3. Integrate agreed strategies within Community Development operational processes.

Strategic Objective F: Participate in the MDP planning process, contributing an overall Community Development lens to the process – including social and affordable housing.

Rationale:

- 1. MDP intent is to address a broad, overall City/community requirements, matters and perspectives.
- 2. The community access, connections and support services/perspectives of Community Development need to be reflected.
- 3. Such contributions will support a well-rounded, fulsome MDP.

Indicator of Success:

- 1. Community Development contributes to MDP development process, from the community access, connections and support perspectives.
- 2. Public Services Advisory Boards are engaged in process.
- 3. Completed MDP reflects various key considerations from community access, connections and support.

Action Plan:

- 1. Continued contributions by Community Development with MDP Steering Committee.
- 2. Engagement and contributions of MDP from Public Services Advisory Boards.
- 3. Support completion of MDP, as required, for an overall system and community perspective.

Strategic Objective G: Examine opportunities, alternatives and impacts for public transportation.

Rationale:

- 1. Shifts in demographics, 'aging in place' and new industrial growth.
- 2. Continued overall FFI focus.
- 3. City Council expectation to explore options (September, 2017).

Indicator of Success:

- 1. Evidence of transportation industry and community trends.
- 2. Local community engagement/feedback of needs and expectations.
- 3. Public transportation solution(s) to address 6 to 10 year horizon.

Action Plan:

- 1. Research trends in technology and transportation impacting urban and rural public transportation.
- 2. Engagement of community and corporate stakeholders.
- 3. Development of viable options and recommendation.

Strategic Objective H: As applicable, implement and provide support from recommendations of the Advisory Boards and Committees review.

Rationale:

- 1. 2018 scheduled review of Advisory Boards and Committees.
- 2. Anticipate changes from current structure, format and expectations.
- 3. Change management necessary for successful transition(s).

Indicator of Success:

- 1. Review is completed and recommendations are clear.
- 2. Change implemented.
- 3. Feedback of change is positive.

Action Plan:

- 1. Assess and clarify review recommendations.
- 2. Develop implementation/change management plan.
- 3. Implement and evaluate.

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| SP 1 Council Strategic Priority 1 – Fiscal Responsibility KR 1.1 Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend subsidies to the municipal operating budget by a further target of \$12 million during the 2019-2022 budget term. KR 1.2 Establish and review service level standards for core municipal services, including but not limited to emergency services, transit, parks and roads, with a view to reducing future operational costs. KR 1.3 Where more efficient or effective, explore alternative models for delivery of internal and external City services, including but not limited to not-for-profit and contracted service delivery. KR 1.4 Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace innovation and develop partnerships in order to become increasingly self-sustaining. KR 1.5 Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost-effective, increasingly flexible, higher intensity office space solutions. KR 1.6 Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual with a view to reducing future asset/infrastructure capital and maintenance costs. KR 1.7 Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completed funded either by dedicated reserves or projected surplus cash from operations. SP 2 Council Strategic Priority 2 – Economic Vitality KR 2.1 Update and implement a coordinated framework for economic development to define the roles and responsibilities of all stakeholders. KR 2.2 Implement systematic approaches to be "investment-ready" and "open for business" including more effective internal City processes and practices. KR 2.3 Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, specifically downtown and the river valley. KR 2.4 Seek to sell land inventory that is not part of the City's land devel | Code | Key Results |

Recreation and Leisure Services | Parks Operations and Maintenance | Planning and Development

DEPARTMENT OVERVIEW

The Parks and Recreation Department provides both indoor and outdoor recreation opportunities through the development and maintenance of a diverse urban landscape, using the most effective and efficient means possible, with a focus on sound

environmental practices to preserve and protect our natural and built environments. The department also engages residents in meaningful, accessible recreation experiences to be physically active that foster individual and community well-being.

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

Parks Planning & Development

Provides planning and detailed design/development of parks and infrastructure, including data base management and geographic information.

Parks Maintenance

Provides operation and maintenance of approximately 730 acres of manicured green space and 2,700 acres of non-manicured areas (environmental reserve, etc.). Planting and maintenance of approximately 35 flower beds, 425 shrub beds and the management of approximately 28,000 trees in the city's urban forest.

Parks Operations

Provides operation and maintenance of a broad range of facilities, including over 130 km of leisure trails, 20 ball diamonds, 10 soccer pitches, 10 sets of tennis courts, 85 playgrounds, 4 outdoor water parks, 11 outdoor rinks, the Gas City Campground, Hillside Cemetery and Echo Dale Regional Park. Liaising with user groups and community sports organizations is a key part of their mandate.

Recreation Services

Provides accessible and affordable facilities/services that encourage active living opportunities for all residents. Facilities include 2 indoor and 4 outdoor swimming pools and the Family Leisure Centre. The Family Leisure Centre includes an Olympic sized ice surface, 50 meter pool (with waterslide and variable floor), field house with 2 boarded soccer fields, 2 full sized gyms that can accommodate 4 volleyball courts and 10 badminton/pickle ball courts, a fitness area and a 200 meter running/walking track. Liaising with user groups and community sports organization is a key part of their mandate.

| | | Charges review; Closure of two facilities |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|---|--|---|
| Natural Environmental Impacts | Increase in environmental stressors impact the natural environment (drought, protection of riparian areas, emergency management – floods, pest infestations impact approximately 28,000 trees, preservation and protection of natural and historic resources). | Increased role in environmental stewardship along with development of drought management plans, integrated pest management plans, emergency response plans, natural areas management plans. |
| Staff Development (succession planning) | Department has 3 managerial positions that are within the five year retirement window along with 25% of the remaining staff within the retirement window as well. | Annual review of training strategy and continue to identify succession opportunities. |
| Infrastructure Deficit | Majority of assets are reaching the end of their lifecycle and there are competing priorities for funding for the replacement of aging infrastructure. Challenge is to increase the pace of funding for infrastructure deficit while in a financially fit environment. | Development of a long term strategic approach to plan and implement/finance the aging infrastructure replacement. |
| Resource challenges | Challenge to complete an increasing number of capital projects to deal with infrastructure deficit (with current staff levels) while in a financially fit environment. If proposed increased funding for infrastructure is approved, then additional resources will be required to complete projects according to expected timeframes. | Alternate project delivery methods vs additional staff resources. Use of asset management plan ensures that resources are put towards assets with the highest degree of criticality and considers the impacts of deferring resource allocations for each asset. |
| Operating Budget Funding Pressures | Finite Resources provide a challenge to meet an increase in growth of the parks | Development of sustainable staff resource plans to meet the growth pressures and |

| | and recreation system along with increased environmental stewardship | environmental stewardship expectations. Exploring Financially Fit options. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example,
 "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Foster an effective work environment with a focus on staff engagement, and succession planning

Rationale:

- 1. Support City Council's strategic priorities for City Government; excellent public service is provided by engaged informed staff within a positive corporate culture.
- 2. 25% of all Parks and Recreation staff are within five year window for retirement with all three section managers in the retirement window, each with decades of departmental knowledge and experience.
- 3. It is critical to the success of the department that it plans for the transition to new leadership.

Indicators of Success:

- 1. There are strong internal applicants who are qualified for positions as they are posted.
- 2. Maintain continuity of service, filling of vacancies in a timely fashion, preferably with some overlap during a transition period.
- 3. Ensure job descriptions are updated regularly.

Action Plan:

- 1. Review and update departmental training strategy on annual basis; identify transition/succession planning opportunities.
- 2. Review job descriptions as vacancies arise, and identify those that are more than five years old.
- 3. Implement staff engagement action plans that support engaged informed staff within a positive corporate culture.

Strategic Objective B: Development of a sustainable staff resources plan to meet a continually increasing growth in the parks and recreation system

Rationale:

- 1. Support City Council's strategic priority for City Government by maintaining focus on environmental as well as financial stewardship.
- 2. With finite resources it is a challenge to meet an increase in growth of the parks and recreation system along with increased environmental stewardship requirements.
- 3. Fiscal responsibility is the driver of the review of financially fit options, alternative service delivery, alternate landscape standards and development of service levels, however this is offset by increased growth, increased environmental requirements, necessitating the need for a sustainable staff resource plan to meet these needs.

Indicator of Success:

Development of a staff resources plan to meet the financial and environmental requirements.

Action Plan:

1. Review of service levels, alternate service delivery and cost containment options to reallocate resources to account for increased growth and increased environmental requirements.

Strategic Objective C: Review, develop and implement Parks and Recreation service level standards

Rationale:

- 1. Support City Council's strategic priority of Fiscal Responsibility through the development of service level standards for the department core services.
- 2. Service levels allow the department to make informed financial decisions on where to focus their resources and to identify gaps in services and or opportunities for reducing future operating costs.
- 3. Alternative landscape design standards are being developed and implemented as part of a pilot project to look at opportunities to conserve water and reduce operating costs while maintaining a diverse, aesthetically pleasing landscape, as part of an increased environmental stewardship role.

Indicator of Success:

- 1. Development of a set of service level standards for core services.
- 2. Implementation of the Alternate Design Landscape Standards and incorporate into Municipal Servicing Standards Manual, where appropriate.

Action Plan:

- 1. Identify core services that could benefit from development of service levels.
- 2. Identify service levels.
- 3. Implement the Alternate Design Standards as a pilot project and assess feasibility to integrate on a broader basis.

Strategic Objective D: Develop a comprehensive asset management system for Parks and Recreation

Rationale:

- Support City Council's strategic priority of Infrastructure Renewal through the development of a comprehensive asset management plan that provides a systematic plan for the funding of capital upgrades to aging infrastructure.
- 2. Systematic, risk based asset management system ensures that resources are put towards assets with the highest degrees of criticality and considers the impacts of deferring resource allocation for each asset.
- 3. Majority of Parks and Recreation assets are reaching the end of their life cycle and a systematic, proactive replacement plan will reduce service interruptions.

Indicator of Success:

- 1. Provide input into policy update, led by Corporate Asset Management.
- 2. Reduction of service interruptions.

3. Systematic asset management plan to forecast, finance and implement a 10 year capital infrastructure budget for Parks and Recreation assets.

Action Plan:

- 1. Work with Corporate Asset Management and provide input into Aging Infrastructure Policy.
- 2. Systematic review and update of existing GIS data prior to integrating into CityWorks and complete remaining condition assessments for remaining assets.
- 3. Work with Corporate Asset Management to develop infrastructure plans for Parks and Recreation building assets.

Strategic Objective E: Develop a long term strategic plan for Echo Dale Regional Park

Rationale:

- 1. Support City Council's strategic priority for Sunshine Hospitality. Echo Dale was opened in 1986 as part of the Urban Parks Program and was a major attraction for residents and visitors but usage has been declining as the park has not had any significant upgrades completed since its opening.
- 2. Parks contains a significant asset base and requires an asset management plan to guide lifecycle renewal and investment over the next 10 years.
- 3. Echo Dale has the potential for development opportunities and numerous ideas have been suggested but need a plan to help guide future development so that any development is done in a thoughtful and systematic approach.

Indicator of Success:

- 1. Development of a plan for the park.
- 2. Plan, implement and finance a 10 year capital upgrade for the park.
- 3. Successful completion of campground feasibility analysis.

Action Plan:

- 1. Approval of funding for resources and preparation a future development plan.
- 2. Development of a 10 year infrastructure upgrade budget for the park.
- 3. Conduct a campground feasibility assessment.

Strategic Objective F: Participate in the development of a long term development plan for the river valley corridor and continue with the development of river valley recreational opportunities

Rationale:

- 1. The South Saskatchewan River is a highly underused and often feared asset with recreation, commercial and tourism generating potential which would improve access and increase use of the River.
- Riverside Veterans Memorial Park in one of the anchoring nodes of the South Saskatchewan River.
 Recreational opportunities and the corridor from City Hall to Athletic Park provide a significant land base that could facilitate private sector redevelopment.
- 3. The Recreation and Leisure Opportunities Assessment completed in 2015 outlined a variety of recreational opportunities within the river valley.

Indicator of Success:

- 1. Preparation of a long term development plan for the River Valley corridor.
- 2. Update of the 10 year plan for River Recreational Opportunities.
- 3. Completion of a feasibility assessment for a pedestrian bridge crossing.

Action Plan:

- 1. Work with the Planning Department to develop a comprehensive development plan of the river corridor from City Hall to Athletic Park.
- 2. Update current 10 year plan for River Recreational Opportunities and finance and implement the development plan.
- 3. Conduct a high level feasibility assessment for a pedestrian bridge connecting Strathcona Island and Police Point Parks.

| | | | SUMMARY OF STRATEGIC OBJECTIVES | | | |

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| SP 1 Council Strategic Priority 1 – Fiscal Responsibility | Code | Key Results |
|--|---------|--|
| KR 1.1 Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend subsidies to the municipal operating budget by a further target of 512 million during the 2019-2022 budget term. KR 1.2 Establish and review service level standards for core municipal services, including but not limited to emergency services, transit, parks and roads, with a view to reducing future operational costs. KR 1.3 Where more efficient or effective, explore alternative models for delivery of internal and external City services, including but not limited to not-for-profit and contracted service delivery. KR 1.4 Review reliance of partner agencies and organizations on City funding. Encorage agencies to embrace innovation and develop partnerships in order to become increasingly self-sustaining. KR 1.5 Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost-effective, increasingly flexible, higher intensity office space solutions. KR 1.6 Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual with a view to reducing future asset/infrastructure capital and maintenance costs. KR 1.7 Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely funded either by dedicated reserves or projected surplus cash from operations. SP 2 Council Strategic Priority 2 – Economic Vitality KR 2.1 Update and implement a coordinated framework for economic development to define the roles and responsibilities of all stakeholders. KR 2.2 Implement systematic approaches to be "investment-ready" and "open for business" including more effective internal City processes and practices. KR 2.3 Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, specifically downtown and the river valley. KR 2.4 Seek to sell land inventory that is not part of the City's land development strategy nor required for municipal purposes, with a | SP 1 | · |
| term. Support Services | Fire Operations | Prevention Services

DEPARTMENT OVERVIEW

Fire Services supports the Corporate Mission Statement, "Deliver value through exceptional public service." We do this through empowerment of employees, and decision making at all levels that

adheres to our department values of Integrity, Pride, and Loyalty and our Corporate Values of Accountability, Integrity, Respect, Courage, and Caring. Service to our residents is our number one consideration in all aspects of service delivery.

CORE SERVICES PROVIDED BY THE DEPARTMENT INCLUDE:

Fire Operations provides fire suppression, a wide array of rescue services, medical first response, and dangerous goods response.

Prevention is responsible for designing and implementing fire safety and injury reduction programs that are suited for all segments of the community. Prevention also conducts fire investigations, code enforcement, and plans review in support of the Technical Coordinating Committee functions.

Support Services manages all Fire Fighter and Fire Officer training. This branch also provides business support and analytical services to foster the cycle of continuous improvement. Health Safety and Environment initiatives, as well as Emergency Management are also key focus areas for Support Services.

Core Services/Programs, Primary Customers, and Key Performance Indicators (KPIs)

| Core | Primary Customer's | Key Performance Indicators (KPIs) |
|--|--|--|
| Services/Programs | Name | |
| Fire Operations - Fire Service personnel are the first responders to fires, disasters, surface and dive rescue, technical rescue, confined space rescue, serious medical incidents, and dangerous goods incidents. Fire Services' aim is to protect the lives and property of residents, employees, and visitors. The timely delivery of these services enables the Fire | Customers include residents and visitors of Medicine Hat, employees and contractors of the City of Medicine Hat, industrial and commercial sectors within Medicine Hat, as well as schools and institutions in Medicine Hat. | First engine on scene to structure fires within 6 minutes 20 seconds (6:20) 90% of the time. Three engines (14FFs) on scene to structure fires within 12 minutes 20 seconds (12:20) 90% of the time. |

| Department to make significant contributions to the safety of residents and employees while helping to | | |
|---|--|---|
| preserve the healthy economic environment of the city and surrounding | | |
| region. Support Services - Support Services delivers fire training to individual members, platoons, and advanced response teams ensuring the public receives exceptional service and fire fighters work in a safe and efficient manner. Training programs match the pace of retirement/attrition and meet the requirements outlined in the Medicine Hat Fire Service Human Resources Development Program (HRDP), and City Health, Safety and Environment requirements. Additionally Support Services analyzes data to monitor Key Performance Indicators and supports evidence based decisions recommending operational and administrative improvements. Finally Support Services provides Fire Service support to Emergency Management within the City of Medicine Hat. | Customers include residents and visitors of Medicine Hat, Fire Service's staff, as well as industrial, commercial, and business sectors within Medicine Hat. | Members trained to applicable HRDP requirements in appropriate time frames. Track hours of training per year. |
| Fire Prevention - The Prevention branch advances public safety through fire prevention, investigation and education programs. The Fire Prevention branch also oversees the department's efforts to meet Fire Services' | Customers include residents and visitors of Medicine Hat, industrial, commercial, and business sectors within Medicine Hat, as well as schools and institutes in Medicine Hat. | Measure number of inspections completed per year against UQMP requirements. Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example,
 "Rationale of Safety Basis for keeping our staff safe is the Occupational Health and Safety
 Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.
- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Bolster the department's ability to protect the community during initial response to significant HAZMAT events.

Rationale:

- 1. Rail and truck transport incidents are a high risk to the community.
- 2. Rail shipments of crude oil are likely to continue to rise in the absence of pipeline construction.
- 3. Chemical release from industrial plants is a high risk to the community.

Indicators of Success:

- Adequate numbers of competent responders are in place to handle initial response to HAZMAT incidents.
- 2. Equipment is in place to handle initial response to HAZMAT incidents.
- 3. Department training plans expand to cover broader HAZMAT response scenarios.

Action Plan:

- 1. Increase training budget for HAZMAT response.
- 2. Increase annual numbers of fire fighters training to HAMAT Technician level.
- 3. Initiate platoon response training scenarios.

Strategic Objective B: Seek approval and design boat launch for Station 1.

Rationale:

- 1. New fire station 1 is strategically located for access to the South Saskatchewan river during an emergency.
- 2. In a flood event the department could lose access to the Strathcona boat launch due to demountable barrier installation on the berm.

Indicator of Success:

1. Rapid access to the river is available to responders at all times.

Action Plan:

- 1. Hire a design consultant to design a boat launch at Station 1.
- 2. Secure approvals for boat launch from respective levels of government.
- 3. Plan for boat launch construction in a future budget cycle.

Strategic Objective C: Secure records management system expertise.

Rationale:

- 1. Fire Business Analyst is a temporary term position.
- 2. No funding increase would be required to move to PEP.
- 3. Vacant PEPS exist in the corporation that could be allocated to this position.

Indicator of Success:

- 1. FDM RMS knowledge exists in the City within Fire Services.
- 2. Business continuity.

Action Plan:

- 1. Convert Temp Term to PEP.
- 2. Develop redundancy for expertise.

Strategic Objective D: Enhance staff development and succession planning.

Rationale:

1. There is a risk of multiple retirements at or near the same time in Fire Service leadership.

Indicator of Success:

1. Leadership potential is developed or being developed from within.

Action Plan:

- 1. Identify potential candidates for department leadership training.
- 2. Develop a compensation or assistance plan with HR and Executive.
- 3. Enroll identified/interested members in post-secondary business education.

Strategic Objective E: Develop Fire Service Strategic Plan

Rationale:

- 1. NW commercial/industrial growth continues.
- 2. New industry may increase residential growth in NW.
- 3. Planning now will enhance future decision making.

Indicator of Success:

- 1. NW growth is analyzed.
- 2. Fire station requirement analyzed.
- 3. Future staffing plan options analyzed.

Action Plan:

- 1. Work with consultant/GIS to determine station requirement/optimal location
- 2. Analyze any cost sharing models or staffing options, present report.
- 3. Create and present report.

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| Code | Key Results |
|--------|---|
| SP 1 | Council Strategic Priority 1 – Fiscal Responsibility |
| KR 1.1 | Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend |
| | subsidies to the municipal operating budget by a further target of \$12 million during the 201 9-2022 |
| | budget term. |
| KR 1.2 | Establish and review service level standards for core municipal services, including but not limited to |
| | emergency services, transit, parks and roads, with a view to reducing future operational costs. |
| KR 1.3 | Where more efficient or effective, explore alternative models for delivery of internal and external City |
| VD 1 4 | services, including but not limited to not-for-profit and contracted service delivery. |
| KR 1.4 | Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace |
| KR 1.5 | innovation and develop partnerships in order to become increasingly self-sustaining. Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost- |
| KN 1.5 | effective, increasingly flexible, higher intensity office space solutions. |
| KR 1.6 | Following adoption of the Municipal Development Plan, update the Municipal Servicing Standards Manual |
| 1 | with a view to reducing future asset/infrastructure capital and maintenance costs. |
| KR 1.7 | Optimize NGPR's asset portfolio in order to ensure that current asset retirement obligations are completely |
| | funded either by dedicated reserves or projected surplus cash from operations. |
| SP 2 | Council Strategic Priority 2 – Economic Vitality |
| KR 2.1 | Update and implement a coordinated framework for economic development to define the roles and |
| | responsibilities of all stakeholders. |
| KR 2.2 | Implement systematic approaches to be "investment-ready" and "open for business" including more |
| | effective internal City processes and practices. |
| KR 2.3 | Land bank and assemble properties to facilitate private sector redevelopment within prioritized areas, |
| | specifically downtown and the river valley. |
| KR 2.4 | Seek to sell land inventory that is not part of the City's land development strategy nor required for |
| VD 2 5 | municipal purposes, with a focus on intensification and private development. |
| KR 2.5 | Develop portions of Airport Commercial, Brier Run Commercial & Industrial and NW Industrial. |
| KR 2.6 | Develop a future state plan for the Historic Clay District. |
| KR 2.7 | Evaluate and recommend solutions to expand campground capacity. Conduct a high-level viability assessment of a river footbridge connecting Strathcona and Police Point Parks |
| KR 2.8 | to increase trail connectivity within the City's trail system. |
| SP 3 | Council Strategic Priority 3 – Infrastructure Renewal |
| KR 3.1 | Implement a comprehensive risk-based asset management policy and operational plan across all asset |
| | classes with a view to balancing capital investment with operational efficiency and costs. |
| KR 3.2 | Following completion of the Municipal Development Plan, update the City's Offsite Levy Bylaw and |
| | development incentive program to facilitate strategic investment attraction to areas identified for |
| | development. |
| KR 3.3 | Implement policy, incentive programs, and operational plans prioritizing new development opportunities |
| | that will maximize the use of existing infrastructure and support intensification. |
| SP 4 | Council Strategic Priority 4 – Community Safety and Vibrancy |
| KR 4.1 | Update the City's Municipal Development Plan, putting in place the vision and principles to help create a |
| | more prosperous, livable and sustainable city over a 30-year horizon. |

| KR 4.2 | Enhance community safety and vibrancy through intentional urban design in parks, streets, residential and commercial areas. |
|--------|---|
| VD 4.2 | |
| KR 4.3 | Prioritize mature neighbourhoods including continued focus on the Downtown by supporting renewed |
| | investment, infill development, and a variety or housing and commercial options. |
| KR 4.4 | Improve the efficacy of the community's social safety net by reviewing the City's facilitation, funding and |
| | direct service provision of social services, including the distribution of Family and Community Support |
| | Services funds. |
| KR 4.5 | Maintain community safety, developing policies, standards, partnerships, programs and services to meet |
| | emerging issues including cannabis legalization and ride share services. |
| KR 4.6 | Completion of the Flood Mitigation Plan and on-going resiliency to river/creek overland flooding. |
| SP 5 | Council Strategic Priority 5 – Sunshine Hospitality |
| KR 5.1 | Develop a comprehensive plan for development of the downtown river corridor, specifically from City Hall |
| | to Athletic Field, which looks to capitalize on the synergies between recreational and economic |
| | development assets and opportunities. |
| KR 5.2 | Enrich the City's arts and culture scene by continuing to showcase a diverse range of talent, offer a variety |
| | of programs and services, and celebrate and preserve local history. |
| KR 5.3 | Develop future state plan for Echo Dale Regional Park to guide lifecycle renewal investments over next 10 |
| | years. Identify and develop a plan for future development opportunities for the park. |
| KR 5.4 | Develop and implement a Medicine Hat ambassador program to support residents to increasingly be |
| | positive ambassadors for Medicine Hat. |
| KR 5.5 | Work collaboratively with the tourism industry to increase visits and stays in Medicine Hat by 10 to 20 |
| | percent from 2017 levels by the end of 2022. |
| SP 6 | Council Strategic Priority 6 – City Government |
| KR 6.1 | Promote public participation and transparency by providing increased information on significant issues, |
| | developing a public participation policy and creating new opportunities for the public to provide input and |
| | feedback. |
| KR 6.2 | Maintain focus on workplace safety, engagement and wellness through demonstrated leadership, policy |
| | oversight, employee training and development, and wellness programs. |
| KR 6.3 | Ensure the organization is resilient and positioned to carry out Council's direction through development of |
| | succession plans for priority positions, leadership training, and individual learning and development plans. |
| KR 6.4 | Identify, and communicate the City's environmental principles and goals, ensuring environmental as well as |
| | financial stewardship. |

Prior Year Service/Program Highlights and Achievements

| Council Priority | Key Result | Highlights/Achievements |
|-------------------------|------------|--|
| 3. Social Wellness | KR 1.1 | In 2017, the Major Crimes Section (MCS) faced one of its most challenging and resource intensive investigations in many years. An extortion investigation was initiated that evolved into a homicide. Detailed threats were made to commit violent acts unless a \$1,000,000 ransom was paid. Close to the same time as the extortion file was received, a 63-year-old male was found deceased adjacent to his property. The death was determined to be a homicide and possibly linked to the extortion. As the leads grew and numerous investigative procedures were used, MCS investigators narrowed their focus with the arrest of a 55-year-old male. A search warrant was executed at the suspect's residence, and numerous valuable pieces of evidence were seized. A forensic examination of the evidence provided additional evidence that supported a charge of first degree murder in addition to the extortion charges. |
| 3. Social Wellness | N/A | A growing trend that has been difficult to address is the issue of addictions. In the fall of 2017, the MHPS announced a partnership with Canadian Mental Health Association (CMHA) to form an Addictions Crisis Team (ACT), which pairs an addictions crisis worker with a police officer. This partnership is intended fill the gap in services for the community and provide a response to those individuals who are experiencing an addictions crisis through a case management model. Through stabilization, the goal is to assist individuals through their addictions and guide them through change and recovery. |
| 3. Social Wellness | N/A | The total number of calls for service increased by 4%, from 29,343 in 2016 to 32,792 in 2017, which is a 11% increase from 2015. The increase in number of calls was accompanied by an increase in the complexity and intensity of calls, especially in response to persons under the influence of drugs. The Patrol Section relied heavily of the Safe Families Intervention Team and the Police and Crisis Team. These Teams offer support the Patrol Section by following up Domestic Disputes |

| | | and Mental Health investigations and providing longer-term solutions that first response cannot provide. |
|----------------------|--------|--|
| 3. Social Wellness | N/A | Striving to be proactive and informative the Municipal Enforcement Section uses a combination of education and enforcement. In 2017, the Section responded to 6,134 calls for service, which was an increase of 11% from 2016. Proactive and "self-generated" calls for service made up about 25% of workload. A project aimed at inspecting every residential property in the City of Medicine Hat and assisting residents and property owners in complying with community standards and bylaws was iniated in 2016 and continued into 2017 with 284 property inspection/clean up files added to the total. |
| 3. Social Wellness | N/A | In 2017, seizures of methamphetamine increased from 1,474 grams in 2016 to 3,486 grams in 2017—an alarming 942% increase from 2015. Another concerning trend identified was the increased presence of firearms. In 2017, 27 firearms were seized as a result of drug and/or organized crime investigations and there was an 80% increase in the number of firearms seized by the MHPS as a whole. Many of these were seized from individuals involved in the drug sub-culture, although drugs were not the focus or the result of the investigation. |
| 3. Social Wellness | N/A | Approximately 17,00 vehicle stops were conducted in 2017, which illustrates a commitment to road safety and also the volume of day-to-day contacts members of the MHPS have with the public. Through a combination of public education and enforcement activities, the MHPS Traffic Safety Plan targets impaired driving, speed enforcement, distracted driving, occupant restraint useage and intersection safety. |
| 5. Fiscal Management | KR 5.1 | Through sound fiscal management of resources the MHPS returned \$782K to the City through a positive budget variance in 2017. The MHPS is constantly looking for opportunities to enhance efficiencies and effectiveness of business practices including through the engagement of collaborative partners such as the Accident Support Services Collision Reporting Centre, Police Cadet Training Program, Safe Family Intervention Team and Police and Crisis Team. |

Significant Risks and Trends

This table should align with your Divisional Risk Matrix.

| Significant Risks/Trends | Description | Mitigation Plan |
|---------------------------|--|--|
| Economic Crime | With advancements in technology, fraudulent schemes have become more complex and the MHPS must adopt sophisticated fraud detection solutions and gain greater expertise in conductiong complex fraud investigations | Build capacity and officer expertise in the investigation of fraud and complex economic crimes. |
| Addiction | Medicine Hat like other Alberta communities has been impacted by addictions and is experiencing an opioid overdose crisis and increase in methamphetamine addictions. | The MHPS will work with other community stakeholdres to assess the need for a Supervised Consumption Site, which will provide harm reduction as well as connect those in need to vital wrap around health and social support and will expand the Addictions and Crisis Team to provide additional services to addicts. |
| Legalization of Marihuana | The consumption of Cannabis Marihuana will be legalized in Canada in 2018. The MHPS must be prepared to responde to the challenges associated with impaired driving, consumption by youth and use in public spaces. | New methods of testing impairement and the development of a provincial and municipal framework will need to be developed. |
| DNA Anaylsis | DNA is used to identify offenders in a variety of criminal offences. Alberta police agencies are the highest users of DNA anyaltical services in the country and the Alberta government has indicated that the municipalities / police services may need to absorb some of the costs associated with DNA Anaylsis. | The MHPS will review investigational practices regarding the use of DNA anaylsis for primary and secondary offences. |

Department Plans

Strategic Objectives, Rationale, Indicators of Success, Action Plans

- A Strategic Objective is an aim or desired result (the "what"). Strategic Objectives should encompass all major Services or Programs provided by the department.
- Rationale is a set of reasons or a logical basis for a course of action (the "why") for example, "Rationale of Safety – Basis for keeping our staff safe is the Occupational Health and Safety Act".
- Indicators of Success are generally a quantifiable measure used to evaluate the success of meeting objectives. Sometimes an indicator can be qualitative in nature as well.

- Action Plan is a strategy designed to achieve an overall objective (the "how"). Each Service/Program objective should have an Acton Plan.
- The intent is to align the Annual Performance Summary and Council Priorities within this document.

Format to be Followed:

Refer to Appendix 'A' for Legend detailing Council's Strategic Priorities and Key Results Coding.

Strategic Objective A: Community Safety

Rationale:

- 1. Continue to focus on providing effective reactive and proactive response to community safety issues.
- Police and Crisis Team provides a joint service harm reduction approach by identifying high-risk individuals in the community who come into conflict with the law and are suffering with addictions to offer individualized services and connect them to treatment and services to address their addictions.
- 3. Prepare to meet the challenges of future economic crime investigations by building sustainable investigator expertise through specialty training courses to build capacity and to meet future service needs to investigate complex million dollar frauds.

Indicators of Success:

- 1. Maintain a high level of public confidence in the MHPS ability to investigate crime and adapt to crime trends.
- 2. Reduce the number of persons in crisis arrested for mental health and addiction issues.
- 3. Successful and comprehensive investigations into economic crimes.

Action Plan:

- 1. Explore alternative call response options for non-emergency calls to allow increased focus on urgent and complex calls for service.
- 2. Enhance partnership with community stakeholders of Canadian Mental Health Association, Alberta Health Services when dealing with addictions and mental health issues.
- 3. Build capacity and officer expertise in investigating fraud and complex economic based crimes.

Strategic Objective B: Community Engagement

Rationale:

- The MHPS will continue to adopt new platforms of communication as determined to be
 effective in reaching members of the community and will explore the use of a mobile phone
 application to improve access to police resources.
- 2. The MHPS Citizen's Police Academy is an effective outreach program, which provides community members with the opportunity to learn more about the MHPS, and gain an increased awareness of current policing issues and community safety concerns through a series of lectures, hands on learning and practical demonstrations.
- 3. The MHPS will utilize the annual open house to provide an opportunity for community members to become familiar with the MHPS and its operations and utilize the opportunity to also recognize citizens who through their actions have contributed to community safety.

Indicator of Success:

- 1. Adoption of the mobile application by community members at a rate comparable to similar community safety applications and programs
- 2. Recruit of 20 participants in the Citizen's Police Academy per year.
- 3. Increase community participation in the MHPS Open House and enhance the ability to recognize the achievement of community members.

Action Plan:

- 1. Research and develop a mobile application that meets community needs.
- 2. Host one Citizen's Police Academy annually.
- 3. Host an MHPS Open House annually, identify youth leadership candidates and recognize the achievement of community members.

Strategic Objective C: Innovation and Excellence in Service Delivery

Rationale:

- The MHPS will create efficiency for operational units by reducing error rates and clerical tasks associated to issuing traffic violation notices and will create efficiency in the Information Management Section by reducing duplication of manual processes.
- 2. Recognizing the growing demands of digital asset management and the secure storage of information, the MHPS will adopt cloud based storage solutions in an effort to reduce costs and enhance data security.
- Recognizing that customer service is a key expectation of the police service, the MHPS will focus on an enhanced delivery model and developing the skill aligned with the core values of the Service.

Indicator of Success:

- 1. Enhanced efficiency and effectiveness of operational and support staff.
- 2. Reduction in future storage costs and security risk associated with data management.
- 3. Maintain a high level of overall satisfaction from community as indicated by survey.

Action Plan:

- 1. Implement e-ticketing process for traffic violations.
- 2. Integrate cloud-based storage with existing data management.
- 3. Provide customer service training and ensure accountability.

Strategic Objective D: Organizational Wellness

Rationale:

- The MHPS currently utilizes a variety of wellness programs including the Road To Mental Readiness, Critical Incident Stress Management, Peer Support, and psychological services and will ensure the effectiveness programs.
- 2. The MHPS will ensure the legal safety of the MHPS and its officers through alignment with Alberta Provincial Standards, the Alberta Provincial Association of Chiefs of Police, case law and legal best practices.
- 3. The MHPS will continue to provide training and safety equipment relevant to the current policing environment and ensure community safety.

Indicator of Success:

- 1. Increased employee resiliency.
- 2. Ensure continuity of legal services.
- 3. Efficient deployment of training and equipment resources.

Action Plan:

- 1. Conduct a review of existing wellness programs.
- 2. Succession planning for legal counsel.
- 3. Conduct environmental scan to review training and equipment needs.

Strategic Objective E: Investment in Human Resources

Rationale:

1. Based on the community and employee surveys, one of the primary considerations for the Service is the deployment of human resources to maximize effectiveness

- 2. The MHPS promotion process, training and development, and succession planning will allow MHPS to remain leaders within the policing community.
- 3. The MHPS is striving to have a diverse and inclusive organization reflective of the community we serve.

Indicator of Success:

- 1. Increased transparency in recruitment, committee selection, transfer and promotion processes.
- 2. Implementation of a competency based training and professional development plan.
- 3. Enhanced diversity of the workforce that reflects the community.

Action Plan:

- 1. Align professional development with current human resource best practices and develop a competency-based training and professional development plan.
- 2. Align recruit selection and training in partnership with advanced education and other Alberta police agencies.
- 3. Attract diverse applicants through recruiting initaitves.

| SUMMARY OF STRATEGIC OBJECTIVES | | | | | | | | |
|--|----------------------------------|-----------------|--|--------------------------------|---------------|--|--|--|
| Objective Council's Key Name Strategic Result Priority (SP) (KR) | | trategic Result | | Assigned To (Subdepartment) | Timeline | | | |
| Community Safety | 4. Community Safety and Vibrancy | KR 4.5 | Explore alternative call response options for non-emergency calls to allow increased focus on urgent and complex calls for service. | Patrol Section | April 2020 | | | |

Highlighting items over \$50,000 (Municipal) / \$100,000 (Utilities & Energy) - incremental annual increases or decreases in the current operating budget requests are primarily due to the following factors:

(in thousands of dollars)

| Financial Plan Summary Ref. No. | Reason | 2019 \$ | 2020 \$ | 2021 \$ | 2022 \$ |
|---------------------------------|---|-------------------|------------|------------|-------------------|
| 1 | There is a significant decrease to Alert revenues over the 4-year period, which is directly related to the decrease in Alert wages. This is partially off-set by a Victim's Assitance grant. | (183) | | | |
| 2 | There is an increase to recovery on exhibits and traffic escorts for all 4 years. Recovery on cadet training in (2018), 2020 and 2022. | (352) | 132 | (87) | 124 |
| 3 | A strong effort was made to decrease wages and salaries in 2019. There was also a decrease to benefits and an increase to managed manpower rates. The increase over the 4-year period is due to inflation and step increases. Allowances have been budgeted for in materials, goods & supplies. | (1,413) | 567 | 436 | 551 |
| 4 | Increase to contracted services due to IT contracts and subscriptions, live scan, and cannabis blood testing. Greater spike in years 2020 and 2022 is due to cadet training. | 56 | 173 | (137) | 173 |
| 5 | Significant portion of the increase is due to allocation of where allowances are being budgeted. Increase to IT software and equipment purchases that was previously covered by MOEs. | 285 | | | |
| | Total Annual Change (Year over Year) | (1,607) | 872 | 212 | 848 |
| | Total 4 Year Change Base 2018 budget to Year 4 (2022) | | | | 931 |

Capital Plan Summaries

The major capital projects for the current Business Plan Years are listed in summary format in the tables below.

Refer to Section II Corporate Multi-Year Capital Plan for a detailed listing of the proposed capital projects and the related funding plans.

TCA Decision Package Summary

Refer to the Corporate Multi-Year Capital Plan for detailed information on each decision package.

TCA Decision Packages (listed in priority order):* (in thousands of dollars)

Appendix A - Council's Strategic Priorities (SP) and Key Results (KR) Coding

| KR 1.1 Using the Financially Fit for the Future framework, reduce the City's reliance on annual energy dividend subsidies to the municipal operating budget by a further target of \$12 million during the 201 9-2022 budget term. KR 1.2 Establish and review service level standards for core municipal services, including but not limited to emergency services, transit, parks and roads, with a view to reducing future operational costs. KR 1.3 Where more efficient or effective, explore alternative models for delivery of internal and external City services, including but not limited to not-for-profit and contracted service delivery. KR 1.4 Review reliance of partner agencies and organizations on City funding. Encourage agencies to embrace innovation and develop partnerships in order to become increasingly self-sustaining. KR 1.5 Reduce the City's facility costs through sale or demolition of surplus or derelict buildings, and seeking cost-effective, increasingly flexible, higher intensity office space solutions. | Code | Key Results |
