Acknowledgements

The City Census team would like to extend our appreciation to the 40 diligent census enumerators who made every effort to contact and obtain information from all known dwellings within the city limits, Brady Hoffart who helped coordinate the enumeration, and to the residents of Medicine Hat for their cooperation.

City of Medicine Hat's official **population count** on April 10, 2015 is

63,018

The office of the City Clerk is responsible for conducting the census and for the collection of census information, pursuant to the authority bestowed by the Municipal Government Act. Alberta Regulation 63/2001, the Determination of Population Regulation, defines the census process.

The City of Medicine Hat conducted a census between April 10 and June 30, 2015 to establish the population count. The number of occupants, age range and gender information was collected. For the first time, residents were offered the choice of returning their census information online, with 40% of residents participating in this way. Door-to-door collection commenced May 18, 2015 with enumerators visiting 29,427 dwellings.

The results show a 3% growth in the population since 2012. A successful audit was conducted on 1,000 census returns to verify accuracy. The office of the City Clerk is confident that all efforts have been made to ensure valid and accurate data.

The benefits of conducting a census are two-fold. Census data from our community is used for municipal planning purposes including recreation, transportation, and programs and services specific to different age groups. Various grants that benefit Medicine Hat residents are also calculated based on the population count. The current grant value for each resident is more than \$250.

Historical Growth Pattern

Figure 1: City of Medicine Hat Population Growth, 1994 to 2015

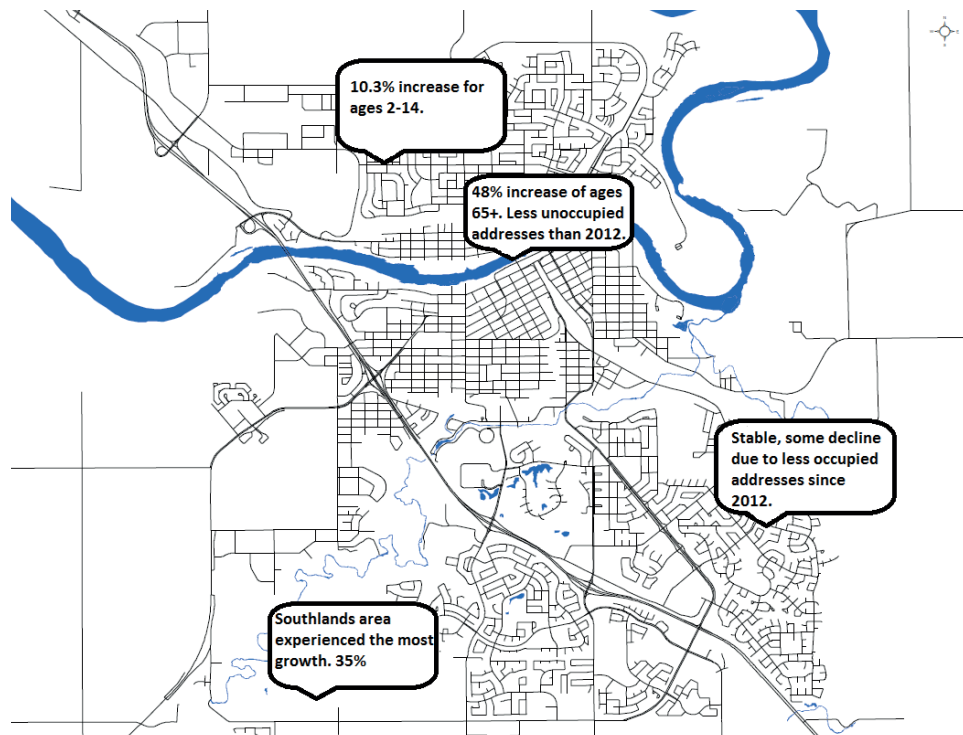

Observations

Medicine Hat maintains a stable population growth. The population grew by 1,838 people, even though unoccupied dwellings grew by 51% over 2012. Aside from pure growth this increase in population may be partly attributed to greater participation due to access to online returns, and extended submission period.

Statistical Analysis by Census Area

Figure 2: Population Count by Geographical Area

Area of City	Growth since 2012 (%)
West Crescent Heights	2.83
East Crescent Heights	(0.12)
Riverside	6.42
River Heights/Harlow, South East & West Hill, Kensington, Downtown & Flats	4.20
Norwood, Marlborough, Connaught, Meadowlands	2.30
Crestwood, north of Southview Drive, east of Dunmore Road	1.58
Ross Glen, south east of Southview Drive, east of Dunmore Road	(0.68)
South Ridge, Saamis Heights, Southlands, Tower Estates, Cottonwood, rural	6.84
Total growth	3.00

Figure 2c

Statistical Analysis by Age & Gender

Figure 3: Statistical Analysis by Age & Gender, Population Pyramid

Observations

From age 45 up females consistently outnumber males. The concentration of women in the municipality has grown to 51% of the population up 0.6% from 2012.

Figure 4: Demographic Trends, 2009 - 2014

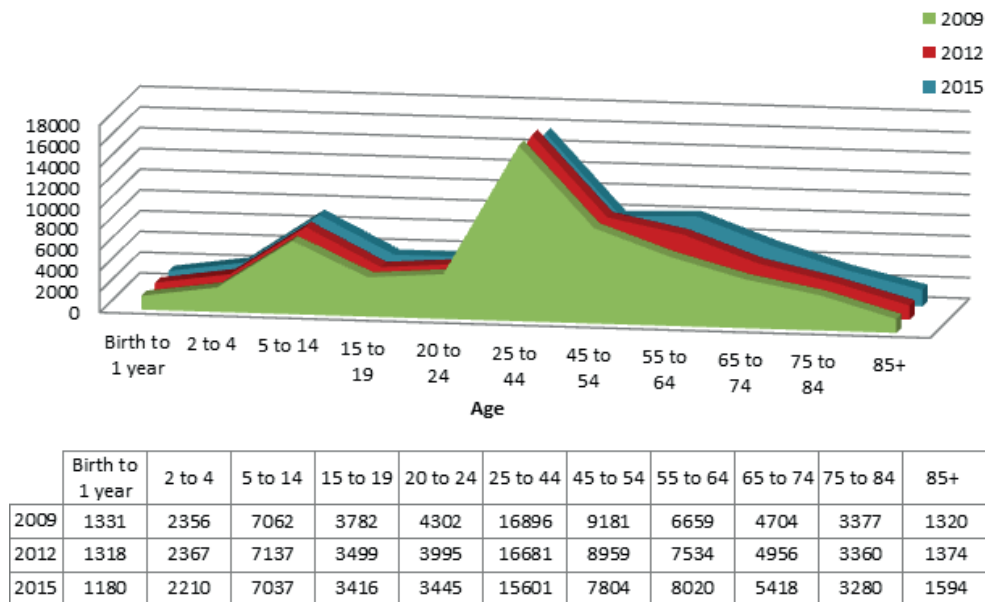

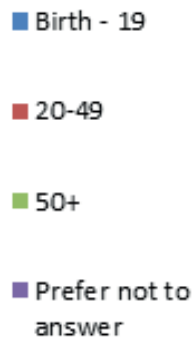

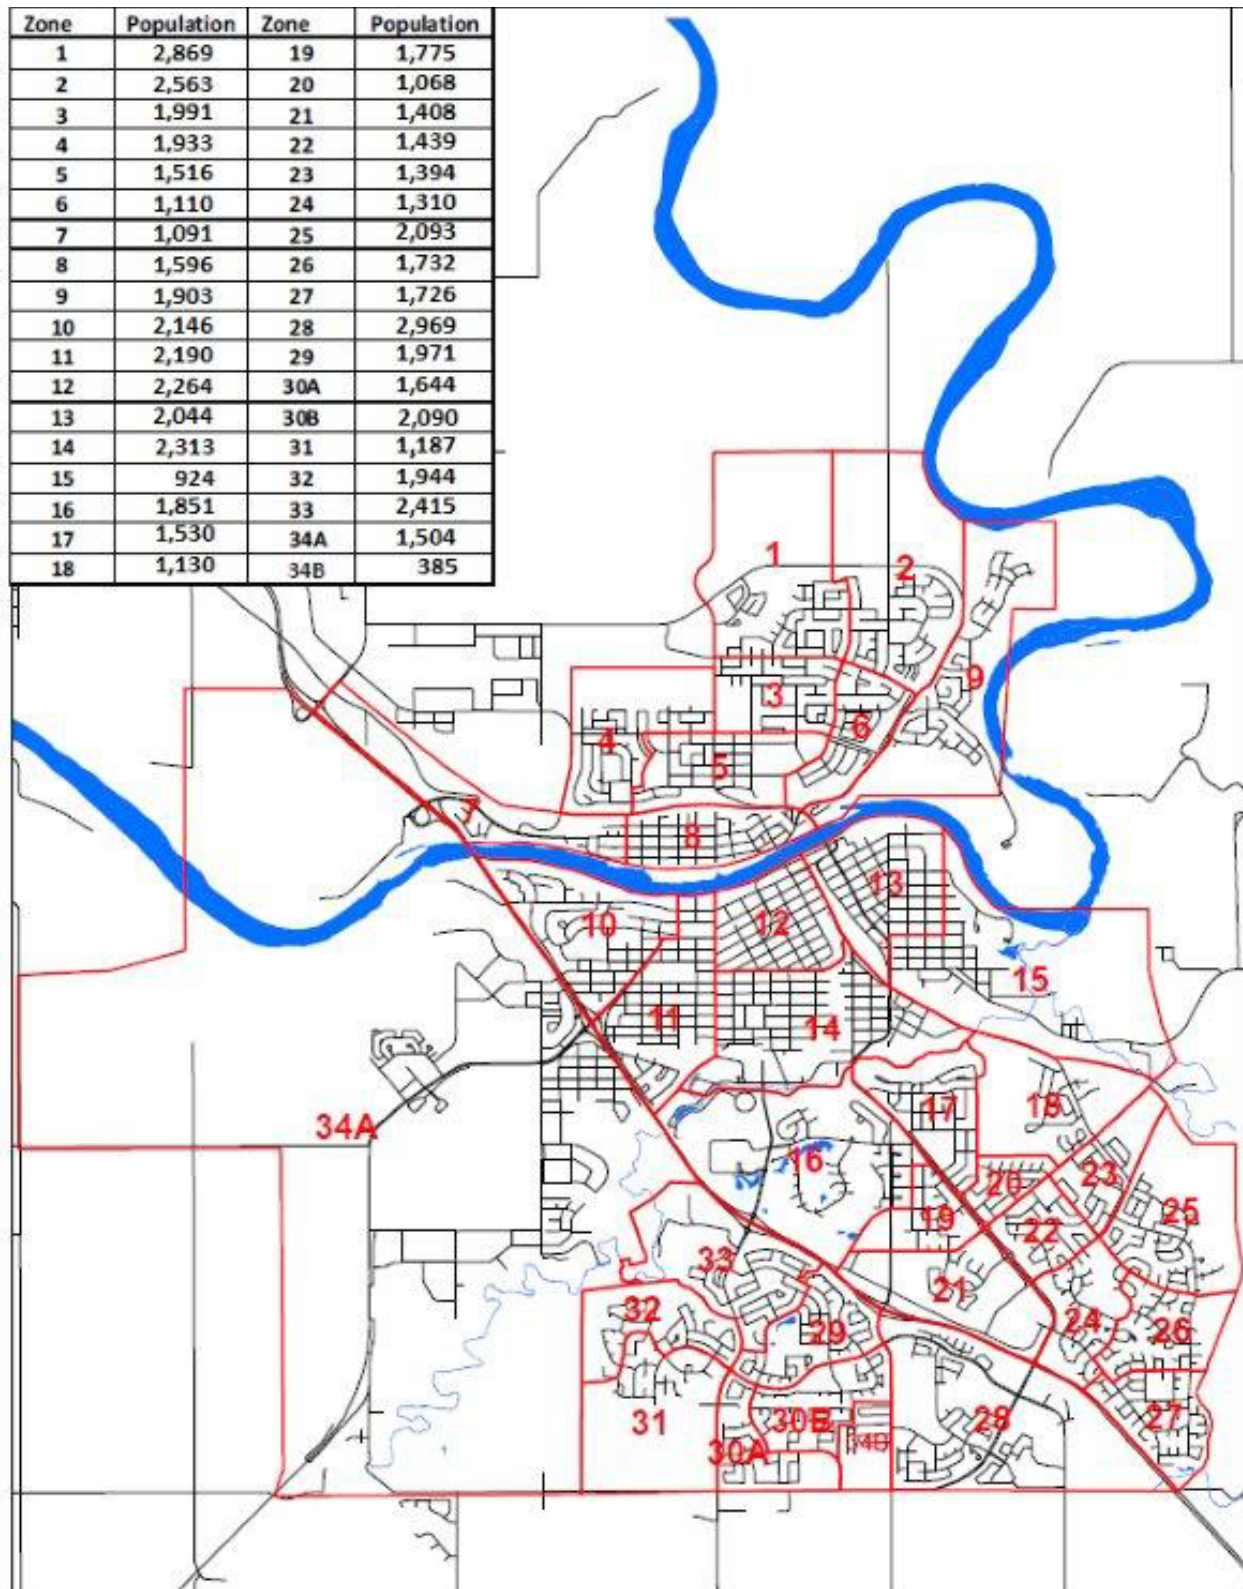

Figure 4b: Portions of Population by Age, 2015

Observations

Seniors age 65+ have increased by 6% since 2012. The age group 85+ has experienced the highest growth of 16% and the age of 20 to 24 has the greatest decline of 14% since 2012. Children below the age of 4 have declined by 8% since 2012. Note that 3,384 residents preferred not to provide their gender when asked, and 629 residents did not provide their ages when asked.
