

Gas Distribution Standard Charges	
	Standard Charge
<b>New Residential or Commercial Gas Services:</b>	
<ul style="list-style-type: none"> <li>* New customers require both a new service (1) and a new meter set (2).</li> <li>* Total cost is the actual labor, material and any third party costs, not exceeding the Standard Charges shown below.</li> <li>* Most new services, or upgrades to existing services, require <u>some</u> hydrovac'ing to expose other buried facilities etc.</li> <li>* Our staff always try and coordinate multiple jobs to reduce total installation costs.</li> </ul>	
Urgent or last minute requests for service may result in higher costs (primarily hydrovac).	
<b>Service extras may be required, based on the site and scope of work.</b>	
Service extras are only billed if required, at the actual cost, not to exceed the Standard Charge(s).	
<b>(1) Gas Service Line Installation</b>	
3/4" Poly Service (up to 30m long)	\$1,700
1 1/4" Poly Service (up to 30 m long)	\$2,000
